Arms And The Self War The Military And Autobiographical Writing:

Arms and the Self Alex Vernon, 2005 With its wide range of primary texts to demonstrate the many conflicts author participants and interpretive perspectives *Arms and the Self* provides an eclectic suggestive perspective on this complex and varied field With contributing authors such as Lynn Z Bloom Margaretta Jolly Robert Lawson Peebles and Robert Shenk the critical essays extend from Xenophon's memoir of his two years marching with the mercenaries of the Persian Prince Cyrus through Canadian accounts of the Boer War and American civilian women's narratives of confinement in WWII Japanese internment camps to Vietnam veterans online testimonials and post Persian Gulf War memoirs written as management primers Pub desc

On Military Memoirs L.H.E. (Esmeralda) Kleinreesink, 2016-10-11 Winner of the Caforio prize for the best book in armed forces and civil military relations published between 2015 and 2016 In *On Military Memoirs* Esmeralda Kleinreesink offers insight into military books who were their writers and publishers what were their plots and what motives did their authors have for writing them Every Afghanistan war autobiography published in the US the UK Germany Canada and the Netherlands between 2001 and 2010 is compared quantitatively and qualitatively *On Military Memoirs* shows that soldier authors are a special breed that self published books still cater to different markets than traditionally published ones that cultural differences are clearly visible between warrior nations and non warrior nations that not every contemporary memoir is a disillusionment story and that writing is serious business for soldiers wanting to change the world The book provides an innovative example of how to use interdisciplinary mixed method cross cultural research to analyse egodocuments

[The Military Memoir and Romantic Literary Culture, 1780-1835](#) Neil Ramsey, 2016-12-05 Examining the memoirs and autobiographies of British soldiers during the Romantic period Neil Ramsey explores the effect of these as cultural forms mediating warfare to the reading public during and immediately after the French Revolutionary and Napoleonic wars Forming a distinct and commercially successful genre that in turn inspired the military and nautical novels that flourished in the 1830s military memoirs profoundly shaped nineteenth century British culture's understanding of war as Romantic adventure establishing images of the nation's middle class soldier heroes that would be of enduring significance through the nineteenth and twentieth centuries As Ramsey shows the military memoir achieved widespread acclaim and commercial success among the reading public of the late Romantic era Ramsey assesses their influence in relation to Romantic culture's wider understanding of war writing autobiography and authorship and to the shifting relationships between the individual the soldier and the nation The memoirs Ramsey argues participated in a sentimental response to the period's wars by transforming earlier impersonal traditions of military memoirs into stories of the soldier's personal suffering While the focus on suffering established in part a lasting strand of anti war writing in memoirs by private soldiers such stories also helped to foster a sympathetic bond between the soldier and the civilian that played an important role in developing ideas of a national war and functioned as a central component in a national commemoration of war **American**

POW Memoirs from the Revolutionary War through the Vietnam War Jon Alexander, 2007-02-01 Fourteen student papers from an undergraduate seminar examine American POW memoirs from the Revolutionary War through the Vietnam War. The focus of the student authors is on how American POWs have constructed narratives of their internments. The papers examine various styles of narration, characterization, and plot construction, and how the POW memoirs are framed with introductions, quotations, maps, and illustrations. Overall, these papers suggest that the contexts in which authors write POW memoirs may influence the character of the memoirs they write as much as the attributes of their POW experiences. **American POW Memoirs** is a unique collection of papers. This publication provides an example of how an undergraduate seminar might move from training students in scholarly practice to providing students a first experience as scholarly practitioners. **War, Citizenship, Territory** Deborah Cowen, Emily Gilbert, 2024-11-01 For all too obvious reasons, war, empire, and military conflict have become extremely hot topics in the academy. Given the changing nature of war, one of the more promising areas of scholarly investigation has been the development of new theories of war and war's impact on society. **War, Citizenship, Territory** features 19 chapters that look at the impact of war and militarism on citizenship, whether traditional territorially bound national citizenship or transnational citizenship. The editors argue that while there has been an explosion of work on citizenship and territory, Western academia's avoidance of the immediate effects of war, among other things, has led them to ignore war, which they contend is both pervasive and well nigh permanent. This volume sets forth a new geopolitically based theory of war's transformative role on contemporary forms of citizenship and territoriality and includes empirical chapters that offer global coverage. **The Palgrave International Handbook of Gender and the Military** Rachel Woodward, Claire Duncanson, 2017-06-27 The Palgrave International Handbook of Gender and the Military provides a comprehensive overview of the multiple ways in which gender and militaries connect. International and multi-disciplinary in scope, this edited volume provides authoritative accounts of the many intersections through which militaries, issues, and military forces are shaped by gender. The chapters provide detailed accounts of key issues informed by examples from original research in a wealth of different national contexts. This Handbook includes coverage of conceptual approaches to the study of gender and militaries, gender and the organisation of state military forces, gender as it pertains to military forces in action, transitions and transgressions within militaries, gender and non-state military forces, and gender in representations of military personnel and practices. With contributions from a range of both established and early-career scholars, **The Palgrave International Handbook of Gender and the Military** is an essential guide to current debates on gender and contemporary military issues. **Sexing the Soldier** Rachel Woodward, Trish Winter, 2007-08-07 **Sexing the Soldier** takes a critical look at how gender is understood within the contemporary British Army. Drawing on original research, this book argues that dominant ideas about gender evident in areas as diverse as policy documents and cultural practices potentially limit rather than enhance operational effectiveness. War and the Body Kevin McSorley, 2013 This book places the body at the centre

of critical thinking about war giving embodiment and bodily issues an analytic recognition they have often been denied in the annals and ontology of conventional war scholarship Page 1

Reading African American Autobiography Eric D. Lamore, 2017-01-10 From the 1760s to Barack Obama this collection offers fresh looks at classic African American life narratives highlights neglected African American lives texts and genres and discusses the diverse outpouring of twenty first century memoirs

The Extraordinary Work of Ordinary Writing Jennifer Sinor, 2002-11-13 Krutch's trenchant observations about life prospering in the hostile environment of Arizona's Sonoran Desert turn to weighty questions about humanity and the precariousness of our existence putting lie to Western denials of mind in the lower forms of life Let us not say that this animal or even this plant has become adapted to desert conditions Let us say rather that they have all shown courage and ingenuity in making the best of the world as they found it And let us remember that if to use such terms in connection with them is a fallacy then it can only be somewhat less a fallacy to use the same terms in connection with ourselves

Who Owned Waterloo? Luke Reynolds, 2022-06-06 Between 1815 and the Duke of Wellington's death in 1852 the Battle of Waterloo became much more than simply a military victory While other countries marked the battle and its anniversary only Britain actively incorporated the victory into their national identity guaranteeing that it would become a ubiquitous and multi layered presence in British culture By examining various forms of commemoration celebration and recreation Who Owned Waterloo demonstrates that Waterloo's significance to Britain's national psyche resulted in a different kind of war altogether one in which civilian and military groups fought over

and established their own claims on different aspects of the battle and its remembrance By weaponizing everything from memoirs monuments rituals and relics to hippodramas panoramas and even shades of blue veterans pushed back against civilian claims of ownership English Scottish and Irish interests staked their claims and conservatives and radicals duelled over the direction of the country Even as ownership was contested among certain groups large portions of the British population purchased souvenirs flocked to spectacles and exhibitions visited the battlefield itself and engaged in a startling variety of forms of performative patriotism guaranteeing not only the further nationalization of Waterloo but its permanent place in nineteenth century British popular and consumer culture Bringing God to Men Jacqueline E. Whitt,2014 Bringing God to Men American Military Chaplains and the Vietnam War Wales in England, 1914-1945 Wendy Ugolini,2024 The first cultural history of English Welsh duality an identification with two constituent nations at once that explores how Welshness was imagined performed and mobilised in England during and between the two world wars **The Journal of Military History** ,2007-07 The Oxford Handbook of Ancient Biography Koen De Temmerman,2020 Offers an overview of ancient biography in all its breadth examining biographical depictions in different textual and visual media Addresses the reception of ancient biography across multiple eras up to the present day Outlines biographical developments in ancient and late antique cultures other than Graeco Roman Presents forty two in depth studies written by leading specialists Includes a comprehensive up to date bibliography of over 2250 entries Book jacket
