## **Arms Transfers In The Modern World Special Studies:**

**The Global Politics of Arms Sales** Andrew J. Pierre, 2014-07-14 Marshaling a great deal of new information in a highly readable manner the author explains the reasons for the dramatic expansion of arms sales during the past decade and clearly traces such trends as the rise in sophistication of weapons being sold so as to include the most advanced technologies and the shift in sales to unstable parts of the Third World Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**The Afghan Syndrome** Bhabani Sen Gupta, 2022-12-28 The Afghan Syndrome 1982 analyses and interprets the 1979 Soviet military intervention in Afghanistan and also examines its effects on America China India Pakistan and other Islamic nations It argues that one of the results was the rise of other centres of economic political and military power outside the superpower spheres

**Arms for the Horn** Jeffery Lefebvre, 2010-11-23 Using a great power small power theoretical approach and advancing a supplier recipient bargaining model Jeffery Lefebvre attempts to explain what the United States has paid for its relations with two weak and vulnerable arms recipients in the Horn of Africa Through massive documentation and extensive interviewing Lefebvre sorts through the confusions and shifts of the United States post World War II relations with Ethiopia and Somalia two primary antagonists in the Horn of Africa He consulted State Department Pentagon and AID officials congressional staffers current and former ambassadors and Ethiopian and Somali government advisers The story of U S arms transfers to northeast Africa is tangled and complex In 1953 1960 and 1964 66 the United States entered into various arms provision deals with Ethiopia spurred by the Soviet sponsored buildup in the region Policy changed in the 1970s Nixon refused a large aid request in 1973 and in 1977 Carter ended Ethiopia's military aid on human rights grounds and denied aid to Somalia during the 1977 78 Ogaden War Reversing this policy the Reagan administration extended military aid to Somalia despite its aggressive moves against Ethiopia Changes in U S relations and the revolution in Somalia have altered the picture once more Jeffery Lefebvre concludes that U S diplomacy in northeast Africa has been overly influenced by a cold war mentality In their obsession with countering Soviet pressure in the Third World Washington decision makers exposed U S interests to unnecessary risks and given far too much for value received during four decades of vacillating and misguided foreign policy Arms for the Horn should interest all concerned with arms transfer issues and security studies as well as specialist in Africa and the Middle East

**American Arms Supermarket** Michael T. Klare, 2014-06-30 U S arms sales to Third World countries rapidly escalated from 250 million per year in the 1950s and 1960s to 10 billion and above in the 1970s and 1980s But were these military sales so critical in their impact on Third World nations and on America's perception

of its global role achieving the ends and benefits attributed to them by U S policymakers In American Arms Supermarket Michael T Klare responds to this troubling still timely question with a resounding no showing how a steady growth in arms sales places global security and stability in jeopardy Tracing U S policies practices and experiences in military sales to the Third World from the 1950s to the 1980s Klare explains how the formation of U S foreign policy did not keep pace with its escalating arms sales how instead U S arms exports proved to be an unreliable instrument of policy often producing results that diminished rather than enhanced fundamental American interests Klare carefully considers the whole spectrum of contemporary American arms policy focusing on the political economy of military sales the evolution of U S arms export policy from John F Kennedy to Ronald Reagan and the institutional framework for arms export decision making Actual case studies of U S arms sales to Latin America Iran and the Middle East provide useful data in assessing the effectiveness of arms transfer programs in meeting U S foreign policy objectives The author also rigorously examines trouble spots in arms policy the transfer of arms making technology to Third World arms producers the relationship between arms transfers and human rights and the enforcement of arms embargoes on South Africa Chile and other pariah regimes Klare also compares the U S record on arms transfers to the experiences of other major arms suppliers the Soviet Union and the big four European nations France Britain the former West Germany and Italy Concluding with a reasoned carefully drawn proposal for an alternative arms export policy Klare vividly demonstrates the need for cautious restrained and sensitive policy

**Weapons for Peace, Weapons for War** Cassady B. Craft, 1999-08-04 On the debate over whether or not arms transfers increase or deter the chances of war Cassady B Craft offers a balanced assessment of the effect of arms transfers on war involvement and outcomes He considers correlations at the state and global level supplier and recipient relationships and the extent of the relationship in the perceptions of individual leaders This is the first study to examine the influence of arms transfers on combined interstate and civil wars Drawing on a variety of theories and quantitative methods including force on force attrition models it uses innovative techniques that have the potential to change the way analysts weigh the impact of weapons sales This book will provide both analysts and policymakers with a comprehensive examination of the various tradeoffs between weapons sales and the probability of conflict

**The Arms Trade and International Criminal Law** Tomas Hamilton, 2025-01-22 Despite the establishment of UN embargoes the Arms Trade Treaty ATT and the EU Common Position arms export regulation suffers from significant legal and practical limitations This book critically evaluates the existing body of Arms Trade Law

highlighting its inadequacies in preventing weapons from reaching perpetrators of mass violence Drawing on interviews participant observation and empirical research to assess the perspectives of judges and lawyers it also explores the International Criminal Court's narrow focus on prosecuting political and military leaders Arguing that institutional attitudes and commitments contribute to a legal culture that obscures the potential for an arms trader case the book illustrates these dynamics through a case study of the UN Security Council's response to the Second Congo War and the ICC's investigations in the DRC Situation elucidating missed opportunities to enforce accountability against the entire spectrum of actors responsible for international crimes Through detailed examination of the arms trade's complexities *The Arms Trade and International Criminal Law* foregrounds the structural causes of atrocity and argues for broader accountability It investigates how individuals including corporate executives state officials and arms traffickers can be held directly accountable for atrocities under international law even when their actions are geographically or causally distant from the violence itself Furthermore by advancing a specific interpretation of the actus reus and mens rea elements of accomplice liability under Article 25 of the Rome Statute this book argues for a robust legal basis upon which the ICC can prosecute arms traders It therefore underscores how international criminal law can complement existing regulations by leveraging its expressive function to condemn all those who profit from atrocity

Arms Transfer Limitations and Third World Security Thomas Ohlson, 1988 Is the arms trade totally uncontrolled What are the main obstacles to limitations on arms transfers What can be learned from past attempts at arms transfer control This book which completes SIPRI's trilogy on the facts and implications of Third World build up of major conventional weapons assesses past efforts current proposals and future possibilities to limit the transfer of weapons and military technology to Third World countries It is a companion to the two SIPRI volumes *Arms Production in the Third World* 1986 and *Arms Transfers to the Third World* 1971 85 OUP 1987

The Abongo Abroad John V. Clune, 2017-07-19 Blending African social history with US foreign relations John V Clune documents how ordinary people experienced a major aspect of Cold War diplomacy The book describes how military sponsored international travel especially military training abroad and United Nations peacekeeping deployments in the Sinai and Lebanon altered Ghanaian service members and their families during the three decades after independence in 1957 Military assistance to Ghana included sponsoring training and education in the United States and American policymakers imagined that national modernization would result from the personal relationships Ghanaian service members and their families would forge As an act of faith American military assistance policy with Ghana remained remarkably consistent despite little evidence that military education and training in the United States produced any measurable results Merging newly discovered documents from Ghana's armed forces and declassified sources on American military assistance to Africa this work argues that military

sponsored travel made individual Ghanaians outlooks on the world more international just as military assistance planners hoped they would but the Ghanaian state struggled to turn that new identity into political or economic progress     The Global Arms Trade Andrew T. H. Tan,2014-05-22 The Global Arms Trade is a timely comprehensive and in depth study of this topic a phenomenon which has continued to flourish despite the end of the Cold War and the preoccupation with global terrorism after 11 September 2001 It provides a clear description and analysis of the demand for and supply of modern weapons systems and assess key issues of concern This book will be especially useful to scholars policy analysts those in the arms industry defence professionals students of international relations and security studies media professionals government officials and those generally interested in the arms trade     **The American Bibliography of Slavic and East European Studies for 1994** Patt Leonard,Rebecca Routh,1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs     **World Military History Bibliography** Barton Hacker,2003-06-01 Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967 1997 Classical antiquity post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles Especially rich in references to the periodical literature the bibliography is divided into eight parts 1 general and comparative topics 2 the ancient world 3 Eurasia since antiquity 4 sub Saharan Africa and Oceania 5 pre Columbian America 6 postcontact America 7 the contemporary nonwestern world and 8 philosophical social scientific natural scientific and other works not primarily historical     **The Soviet Union** United States.
