Arnie, the Darling Starling Margarete Sigl Corbo,Diane Marie Barras,1984 **Arnie, The Darling Starling** ,1982

Arnie the Darling Starling Margarete S. Corbo,Margarete Carbo,Diane M. Barras,1985-01-12 A delightful memoir of bringing up a starling as a pet *Mozart's Starling* Lyanda Lynn Haupt,2017-06-15 On May 27th 1784 Wolfgang Amadeus Mozart met a flirtatious little starling who sang an improved version of the theme from his Piano Concerto Number 17 in G to him Knowing a kindred spirit when he met one Mozart wrote That was wonderful in his journal and took the bird home to be his pet For three years Mozart and his family enjoyed the uniquely delightful company of the starling until one April morning when the bird passed away In 2013 Lyanda Lynn Haupt author of *Crow Planet* rescued her own starling Carmen who has become a part of her family In *Mozart's Starling* Haupt explores the unlikely bond between one of history's most controversial characters and one of history's most notoriously disliked birds Part natural history part story *Mozart's Starling* will delight readers as they learn about language music and the secret world of starlings **Scarlet Experiment** Jeff Karnicky,2016-11-01 *Scarlet Experiment* explores how humanity's relationship with birds has been influenced by governmental agencies literary renderings and the conservation movement and uses six bird species to study the management of bird life in America from the nineteenth century to the present **On Watching Birds** Lawrence Kilham,1997 Lawrence Kilham begins this remarkable book with a simple premise surely there are many people who aren't scientists who nevertheless take great satisfaction from observing nature and the creatures that inhabit it Eschewing species lists and the charts and graphs approach of professional ornithologists and competitive birders Kilham's *On Watching Birds* elegantly balances the aesthetic and humanistic with the scientific The author offers a philosophy of embracing nature through discovery rather than a methodology for categorizing it Watch everything Kilham advises the novice for one may be surprised by what one sees even when observing the most common of birds His observations become part beautifully told story and part life lesson as the habits and rituals of cranes crows owls even otters reveal a rich counterlife of often unnoticed behavioral variation and personality in living nature Behavior watching Kilham concludes not only strengthens my bonds with the beauty of nature but also my empathy with living things First published in 1988 this autobiographical account of a renowned naturalist's love affair with birds has already become a classic Illustrated with Joan Waltermire's delicately rendered line drawings *On Watching Birds* is now once again available to readers who wish to discover the simple pleasures of connecting with the natural world Arnie & a House Full of Company Margarete Sigl Corbo,Diane Marie Barras,1985 Describes the true story of the impact of a pet talking starling on people's lives **City Creatures** Gavin Van Horn,Dave Aftandilian,2015-11-03 This anthology explores Chicago's surprisingly diverse wildlife through essays poetry paintings and photographs We usually think of cities as the domain of humans but we are just one of thousands of species that call the urban landscape home While Chicago residents are likely familiar with squirrels pigeons and dogs many would be surprised

to learn about the leafhoppers and water bears black crowned night herons and bison beavers and massasauga rattlesnakes that are living alongside them City Creatures introduces readers these and other creatures through a variety of creative contributions Contributors bring a story based approach to this urban safari taking readers on birding expeditions to the Magic Hedge at Montrose Harbor on the North Side canoe trips down the South Fork of the Chicago River better known as Bubbly Creek and insect collecting forays or restoration work days in the suburban forest preserves The book is organized into six sections each highlighting one type of place in which people might encounter animals in the city and suburbs For example schoolyard chickens and warrior wasps populate Backyard Diversity and a chorus of deep freeze frogs awaits in Water Worlds Its powerful combination of insightful narratives numinous poetry and full color art will help readers see the city and the creatures who share it with us in an entirely new light *Alex and Friends* Dorothy Hinshaw Patent,1998

Marler,Hans Slabbekoorn,2004-10-05 The voices of birds have always been a source of fascination Nature s Music brings together some of the world s experts on birdsong to review the advances that have taken place in our understanding of how and why birds sing what their songs and calls mean and how they have evolved All contributors have strived to speak not only to fellow experts but also to the general reader The
