Baghelkhand, Or, the Tigers' Lair David E. U. Baker,2007 This book explores the concept of region and nation in Indian history through a long term study of Bagelkhand from prehistory up to 1956 It examines the ways in which the region eventually became part of the Indian nation 1947 and then the state of Madhya Pradesh 1956 The author sees region building as a process encompassing a dialogue between the region and external often centralizing states on the one hand and migration on the other While these two forces gave the region its distinct identity they also paradoxically forged political social and economic commonalities with other regions of the country subject to similar influences He pursues the theme of

nation building from prehistory through the centralizing Mauryan Gupta Mughal British Empires to the Indian state The book assesses the social economic and political impact of various colonialisms rather than merely that of Britain whose very difference colonialism was part of worldwide capitalism It examines the regional aspects of power which opposed but fell before the centralizing initiatives Illustrated with rare visuals this book would appeal to historians political scientists sociologists and anthropologists particularly those concerned with concepts like region and nation **Researches in Indian Archaeology, Art, Architecture, Culture and Religion** Phanikanta Mishra,1995 Contributed articles Worldly Gurus and Spiritual Kings Tamara I.
