Art History and Visual Studies in Europe , 2012-06-22 Reflection on the history and practice of art history has long been a major topic of

research and scholarship and this volume builds on this tradition by offering a critical survey of many of the major developments in the contemporary discipline such as the impact of digital technologies the rise of visual studies or new initiatives in conservation theory and practice Alongside these methodological issues this book addresses the mostly neglected question of the impact of national contexts on the development of the discipline Taking a wide range of case studies this book examines the impact of the specific national political institutional and ideological demands on the practice of art history The result is an account that both draws out common features and also highlights the differences and the plurality of practices that together constitute art history as a discipline *Turkey in Pictures* Francesca DiPiazza,2005-01-01 Text and photographs introduce the geography history government people culture and economy of Turkey *Turks, Jews, and Other Germans in Contemporary Art* Peter Chametzky,2021-09-14 The first book to examine multicultural visual art in Germany discussing more than thirty contemporary artists and arguing for a cosmopolitan Germanness With *Turks Jews and Other Germans in Contemporary Art* Peter Chametzky presents a view of visual culture in Germany that leaves behind the usual suspects those artists who dominate discussions of contemporary German art including Gerhard Richter Anselm Kiefer and Rosemarie Trockel and instead turns to those artists not as well known outside Germany including Maziar Moradi Hito Steyerl and Tanya Ury In this first book length examination of Germany s multicultural art scene Chametzky explores the work of more than thirty German artists who are among other ethnicities Turkish Jewish Arab Asian Iranian Sinti and Roma Balkan and Afro German With a title that echoes Peter Gay s 1978 collection of essays *Freud Jews and Other Germans* this book like Gay s rejects the idea of us and them in German culture Discussing artworks in a variety of media that both critique and expand notions of identity and community Chametzky offers a counternarrative to the fiction of an exclusively white Christian German culture arguing for a cosmopolitan Germanness He considers works that deploy critical confrontational and playful uses of language especially German and Turkish that assert the presence of foreign bodies among the German body politic that grapple with food as a cultural marker that engage with mass media and that depict and inhabit spaces imbued with the element of time American discussions of German contemporary art have largely ignored the emergence of non ethnic Germans as some of Germany s most important visual artists *Turks Jews and Other Germans in Contemporary Art* fills this gap **2.
