discusses various aspects of the cultural and literary history of Hungary during the hundred years that followed the Battle of Mohács 1526 and the onset of the Reformation. The author focuses on the special Ottoman context of the Hungarian Reformation movements including the Protestant and Catholic Reformation and the spiritual reform of Erasmian intellectuals. The author argues that the Ottoman presence in Hungary could mean the co-existence of Ottoman bureaucrats and soldiers with the indigenous population. He explores the culture of occupied areas, the fascinating ways Christians came to terms with Muslim authorities and the co-existence of Muslims and Christians. It treats not only the culture of the Reformation in an Ottoman context but also vice versa the Ottomans in a Protestant framework. As the studies show, the culture of the early modern Hungarian Reformation is extremely manifold and multi-layered. Historical documents such as theological, political and literary works and pieces of art formed an interpretive unified whole in the self-representation of the era. Two interlinked and unifying ideas define this diversity: on the one hand, the idea of European-ness, i.e. the idea of strong ties to a Christian Europe; and on the other, the concept of Reformation itself. Despite its constant ideological fragmentation, the Reformation sought universalism in all its branches. As it shows, it was reformatio in the original sense of the word, i.e. restoration, an attempt to restore a bygone perfection imagined to be ideal.

Medieval Buda in Context, 2016-06-10. *Medieval Buda in Context* discusses the character and development of Buda and its surroundings between the thirteenth and the sixteenth centuries, particularly its role as a royal center and capital city of the medieval Kingdom of Hungary. The twenty-one articles written by Hungarian and international scholars draw on a variety of primary sources: texts, both legal and literary; archaeological discoveries; architectural history; art history; and other studies of material culture. The essays also place Buda in the political, social, cultural and economic context of other contemporary central and eastern European cities. By bringing together the results of research undertaken in recent decades for an English language readership, this volume offers new insights into urban history and the culture of Europe as a whole. The Bibliotheca Corvina. The Fate, Mission and Destiny of a Library, István Monok, 2023. In 2022, the question what is the need for a library is becoming increasingly frequent. Many of those who believe that humanity is developing are particularly confused by the kilometers of books that have been accumulated. Not knowing that the digital library is also a library and not knowing that we still have a long way to go before the written heritage of humanity becomes part of the numerical world. Even then, humanity will not develop but suffice it to say that technology does. If we look at the library of the Hungarian King Matthias Hunyadi 1443-1490, the Bibliotheca Corvina, we can follow its history along similar lines. Why and how the collection was created, which in the opinion of the political leaders of the Hungarian Kingdom, not necessarily more cultured than nowadays, was meant to be *pro decore Regni*, i.e. for the

pride of the country The arrival of Beatrix of Aragon 1457 1508 and her entourage to Buda 1476 accelerated the book collection process In Europe between 1470 and 1520 Western Christianity existed in a shared world of values Within the Christian Church as a monk named Martin Luther 1473 1546 did the texts of the early church fathers and of the saints of personal religiosity were published analysed and interpreted while secular humanists did the same with the ancient corpus of texts and the textual memories that have been preserved from the early church fathers Furthermore they collected sources with people like Cosimo de Medici il Vecchio 1389 1464 who had the Bibliotheca Graeca and Bibliotheca Latina chambers set up in the convent of San Marco in Florence and with people like Matthias Corvinus who did the same in Buda *Forgery, Replica, Fiction* Christopher S. Wood, 2008-08-15 Credulity Reference by artifact Germany and Renaissance Forgery Replica Fiction Re enactment **Encyclopedia of Renaissance Philosophy** Marco Sgarbi, 2022-10-27 Gives accurate and reliable summaries of the current state of research It includes entries on philosophers problems terms historical periods subjects and the cultural context of Renaissance Philosophy Furthermore it covers Latin Arabic Jewish Byzantine and vernacular philosophy and includes entries on the cross fertilization of these philosophical traditions A unique feature of this encyclopedia is that it does not aim to define what Renaissance philosophy is rather simply to cover the philosophy of the period between 1300 and 1650 **Contesting the Renaissance** William Caferro, 2010-08-24 In this book William Caferro asks if the Renaissance was really a period of progress reason the emergence of the individual and the beginning of modernity An influential investigation into the nature of the European Renaissance Summarizes scholarly debates about the nature of the Renaissance Engages with specific controversies concerning gender identity economics the emergence of the modern state and reason and faith Takes a balanced approach to the many different problems and perspectives that characterize Renaissance studies The Grace of the Italian Renaissance Ita Mac Carthy, 2020 This book explores grace as a complex idea and term that at once expresses and connects the most pressing ethical social and aesthetic debates of the Italian Renaissance Grace surfaced time and again in the period s discussions of the individual pursuit of the good life and in the collective quest to determine the best means to a harmonious society It rose to prominence in theological debates about the soul s salvation and in secular debates about how best to live at court It was absolutely central to the thinking of Reformation figures such as Erasmus and Luther and just as central to the Counter Reformation response It played a pivotal role in the humanist campaign to develop a shared literary language and it featured prominently in the efforts of writers and artists to express the full potential of mankind Grace abounded in the Italian Renaissance yet it was as hard to define as it was ever present The courtier and writer Baldassare Castiglione for example described it as that certain air which distinguished excellent courtiers and court ladies from their mediocre counterparts while his artist friend Raffaello Sanzio Raphael saw it as that quality produced when one conceals the hard work and effort of art behind a veil of nonchalance and ease This classically inspired grace was used by many as a way of claiming distinction for themselves and of arguing for the

pre eminence of their chosen disciplines but it drew criticism too from those who saw it as self interested and superficial Quarrels about the meaning and value of grace involved theologians artists writers and philosophers and intersected with the most famous debates of the time about language society and the role of literature and the visual arts As well as shedding light on what grace meant to those who invoked it this book aims to trace the interdisciplinary transactions that the word made possible Each chapter combines consideration of pivotal texts and images with interdisciplinary approaches examining what grace meant to protagonists of the Italian Renaissance and exploring the correspondence whether direct or indirect between them What emerges is a network of friendships rivalries agreements and disputes a sketch of the interconnections that made the Italian Renaissance

Jack Goody between Social Anthropology and World History Chris Hann, Han F. Vermeulen, A giant of British social anthropology Jack Goody 1919 2015 laboured for sixty years to transcend the view that anthropology was the study of other cultures He wanted to move it in the direction of a more sociological postcolonial comparative social science The most important precondition for this science was the freeing of world history from centuries of Eurocentric bias From his base in Cambridge Goody s influence and inspiration spread out internationally In Germany as a long term adviser to the Max Planck Society he played a key role in the establishment of the Max Planck Institute for Social Anthropology in Halle Saale in 1999 This volume presents twelve Goody Lectures delivered in Halle between 2011 and 2022 together with an unpublished lecture given in 2004 by Goody himself and biographical and bibliographical essays by the editors

The Material Renaissance Michelle O'Malley, Evelyn Welch, 2007 Despite the recent interests of economic and art historians in the workings of the market we still know remarkably little about the everyday context for the exchange of objects and the meaning of demand in the lives of individuals in the Renaissance Nor do we have much sense of the relationship between the creation and purchase of works of art and the production buying and selling of other types of objects in Italy in the period The Material Renaissance addresses these issues
