## **Art And Identity In The Roman World:**

*Art and Identity in the Roman World* Eve D'Ambra, 1998 In this reappraisal of the art and architecture of ancient Rome Eve D'Ambra focuses on the personal social and cultural identity of its subjects The acquisition of art whether the purchase of copies of Greek statuary the construction of a sumptuous villa or the commissioning of a portrait head played a crucial role in Roman society in which displays of wealth and culture were necessary to gain and maintain power The question of identity is key to understanding the nature of the Roman Empire which seemed infinitely expandable at its peak welcomed foreigners to become Romans freed slaves to citizen status and allowed social mobility within a strictly hierarchical social order Art

and Identity in the Roman World, 1998 **Self-Presentation and Identity in the Roman World** Andreas

Gavrielatos, 2017-05-11 Questions on identity have been often the main focus of Classical Studies The starting point of this book is that identity is not a monolithic idea Instead of exploring what exactly identity is the contributors here examine how the concept of self presentation can facilitate our understanding of how individuals present their identities Moreover the interpretation of the means and character of this self presentation itself enables more general conclusions to be drawn Topics covered in this volume include identities shaped through the self presentation of authors in Latin literature and explorations on epigraphy and historical analyses Overall using the theme of self presentation the contributors offer a glimpse into various subjects and suggest new ways for students and scholars to approach the different forms of individual and communal identities

**Gender, Memory, and Identity in the Roman World** Jussi Rantala, 2025-10-01 This volume approaches three key concepts in Roman history gender memory and identity and demonstrates the significance of their interaction in all social levels and during all periods of Imperial Rome When societies as well as individuals form their identities remembrance and references to the past play a significant role The aim of *Gender Memory and Identity in the Roman World* is to cast light on the constructing and the maintaining of both public and private identities in the Roman Empire through memory and to highlight in particular the role of gender in that process While approaching this subject the contributors to this volume scrutinise both the literature and material sources pointing out how widespread the close relationship between gender memory and identity was A major aim of *Gender Memory and Identity in the Roman World* as a whole is to point out the significance of the interaction between these three concepts in both the upper and lower levels of Roman society and how it remained an important question through the period from Augustus right into Late Antiquity Imperial Identities in the

Roman World Wouter Vanacker, Arjan Zuiderhoek, 2016-12-08 This volume rather than concentrating on politics and imperial administration studies the manifold ways in which people were ritually engaged in producing consuming organising and worshipping that fitted the changing realities of empire focusing on how individuals and groups tried to do things the right way the Greco Roman imperial way Given the deep cultural entrenchment of ritualistic practices an imperial identity firmly grounded in such practices might well have been instrumental not just to the long lasting stability of the Roman imperial

order but also to the persistency of its ideals well into post Roman times      **Experiencing Rome** Janet Huskinson,2000

Encounters with Greek Art Carolyn MacDonald, 2025-03-06 Encounters with Greek Art sheds new light on the invention of ancient identities by focusing on encounters between viewers and artworks swept to Italy on the tides of Roman imperialism between 146 BCE and 117 CE Bringing globalization theory to bear on a wide range of texts and images MacDonald traces the construction and contestation of a critical nexus of categories Greek versus Roman and high culture versus low As the book moves from text to image from monumental to domestic space and from the imperial capital to the towns of Italy readers will discover how Greekness and Romanness were imagined and reimagined as contingent but powerful devices for grappling with the flux of images objects and individuals around the globalized world of the Roman empire This book is intended for scholars graduate students and advanced undergraduates interested in Greek and Latin literature Roman visual culture identity in antiquity and histories of globalization

**The Roman Empire at Bay, AD 180-395** David Stone Potter, 2004 At the outset of the period covered by this book Rome was the greatest power in the world By its end it had fallen conclusively from this dominant position David Potter's comprehensive survey of two critical and eventful centuries traces the course of imperial decline

Understanding Integration in the Roman World, 2023-09-14 Integration is a buzzword in the 21st century However academics still do not agree on its meaning and above all on its consequences This book offers numerous examples showing that the inhabitants of the Roman Mediterranean were integrated i.e. were aware of the existence of a common framework of coexistence without this necessarily resulting in a process of cultural convergence For instance the Spanish poet Martial explicitly refused to be considered the brother of the Greek Charmenton 10.65 paradoxically while reaffirming their differences his satirical epigram confirms the existence of a common frame of reference that encompassed them both Understanding integration in the Roman world requires paying attention to the complex and varied responses to diversity in Roman times

The Roman Empire at Bay, AD 180-395 David

S. Potter, 2004-07-31 Skilfully weaving together cultural intellectual and political history this detailed survey of two critical and eventful centuries travels the course of imperial decline A striking achievement of historical synthesis with a compelling interpretative line
