Art as Abstract Machine Stephen Zepke, 2014-02-04 The aim of this book is to understand what Deleuze and Guattari mean by art Stephen Zepke argues that art in their account is an ontological term and an ontological practice that results in a new understanding of aesthetics For Deleuze and Guattari understanding what art is means understanding how it works what it does how it becomes and finally how it lives This book illuminates these philosophers discussion of ontology from the viewpoint of art and vice versa in a thorough questioning of aesthetic criteria as they are normally understood **Art as Abstract Machine** Stephen Zepke, Lisa Yun Lee, 2005 The aim of the book is to understand what Deleuze and Guattari mean by art Stephen Zepke argues that art in their account is an ontological term and an ontological practise that results in a new understanding of aesthetics Abstract Machines Garin Dowd, 2007 Abstract Machines Samuel Beckett and Philosophy after Deleuze and Guattari is an innovative approach to the relationship of the work of Samuel Beckett to philosophy The study seeks to combine intertextual analysis and a schizoanalytic genealogy derived from the thought of Gilles Deleuze and Felix Guattari to explore a becoming philosophy of Beckett s literary writing The author focuses on zones of encounter and confrontation spaces and times of becoming between Beckett selected philosophers and Deleuze and Guattari In the retrospective glance occasioned by that part of Deleuze and Guattari s complex legacy which embraces their interest in the author Beckett s writing in particular effectuates a threshold hesitation which can be seen directly to impact on their approach to the history of philosophy and on their contribution to its molecularization in the name of experimentation Abstract Machines with its arresting perspectives on a wide range of Beckett s work will appeal to academics and postgraduate students interested in the philosophical echoes so evident in his writing The extent of its recourse to philosophers aside from Deleuze and Guattari including notably Alain Badiou renders it a timely and provocative intervention in contemporary debates concerning the relationship of literature to philosophy both within Beckett studies and beyond Deleuze and Guattari: Deleuze and Guattari Gary Genosko, 2001 **Invention of a People** Janae Sholtz, 2015-03-09 The Invention of a People explores the residual relation between Heidegger s thought and Deleuze s novelty focusing on the parallels between their emphasis on the connection of earth art and a people to come *Ecologies of Invention* Andy Dong, John Conomos, Brad Buckley, 2018-08-30 Ecologies of Invention is the first collection of essays that brings together writers and scholars of international standing to examine assumptions underlying notions of inventiveness The writers explain how inventiveness borne out of aesthetic ambitions is impacting on and changing our culture and society describing the articulation of inventive capacities across disciplines and across multiple scales from personal capacities to the social spatial and network configurations that drive people to produce inventions *Library of Congress Subject Headings* Library of Congress, Library of Congress. Subject Cataloging Division, 1989 **Anarchist Seeds beneath the Snow** David Goodway, 2011-12-12 From William Morris to Oscar Wilde to George Orwell left libertarian thought has long been an

important but neglected part of British cultural and political history In *Anarchist Seeds beneath the Snow* David Goodway seeks to recover and revitalize that indigenous anarchist tradition This book succeeds as simultaneously a cultural history of left libertarian thought in Britain and a demonstration of the applicability of that history to current politics Goodway argues that a recovered anarchist tradition could and should be a touchstone for contemporary political radicals Moving seamlessly from Aldous Huxley and Colin Ward to the war in Iraq this challenging volume will energize leftist movements throughout the world Handbook of Research on Aestheticization of Violence, Horror, and Power Erdem, M. Nur, Kocabay-Sener,

Nihal, Demir, Tuğba, 2020-10-02 Individuals seek ways to repress the sense of violence within themselves and often resort to medial channels The hunger of the individual for violence is a trigger for the generation of violent content by media owners of political power owners of religious power etc However this content is produced considering the individual's sensitivities Thus violence is aestheticized Aesthetics of violence appear in different fields and in different forms In order to analyze it an interdisciplinary perspective is required The *Handbook of Research on Aestheticization of Violence Horror and Power* brings together two different concepts that seem incompatible aesthetics and violence and focuses on the basic motives of aestheticizing and presenting violence in different fields and genres as well as the role of audience reception Seeking to reveal this togetherness with different methods research analyses and findings in different fields that include media urban design art and mythology the book covers the aestheticization of fear power and violence in such mediums as public relations digital games and performance art This comprehensive reference is an ideal source for researchers academicians and students working in the fields of media culture art politics architecture aesthetics history cultural anthropology and more

**The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries Intelligent Systems and Applications Yaxin Bi, Rahul Bhatia, Supriya Kapoor, 2019-08-23 The book presents a remarkable collection of chapters covering a wide range of topics in the areas of intelligent systems and artificial intelligence and their real world applications It gathers the proceedings of the Intelligent Systems Conference 2019 which attracted a total of 546 submissions from pioneering researchers scientists industrial engineers and students from all around the world These submissions underwent a double blind peer review process after which 190 were selected for inclusion in these proceedings As intelligent systems continue to replace and sometimes outperform human intelligence in decision making processes they have made it possible to tackle a host of problems more effectively This branching out of computational intelligence in several directions and use of intelligent systems in everyday applications have created the need for an international conference as a venue for reporting on the latest innovations and trends This book collects both theory and application based chapters on virtually all aspects of artificial intelligence presenting state of the art intelligent methods and techniques for solving real world problems along with a vision for future research it represents a unique and valuable asset **The Theatrical Spectaculum** Tova

Gamliel,2019-12-11 This book offers a new mythic perspective on the secret of the allure and survival of a current archaic institution the Western theatre in an era of diverse technological media Central to the theory is the *spectaculum* a stage world that mirrors a monotheistic cosmic order Tova Gamliel here not only alerts the reader to the possibility of the *spectaculum*'s existence but also illuminates its various structural dimensions the cosmological ritual and sociological Its cosmological meaning is a Judeo Christian monotheistic consciousness of non randomness an exemplary order of the world that the senses perceive The ritual meaning denotes the centrality of the *spectaculum* as the theatre repeatedly reenacts the mythical and paradigmatic event of Biblical revelation Its social meaning concerns any charismatic social theory that is anchored in the epitomic structure of social sovereignty stage and audience that the Western theatre advances in an era characterized by hypermedia

**Félix Guattari** Gary Genosko,2009-04-20 This is an introduction to the thought of the radical French thinker Félix Guattari Guattari's main works were published in the 1970s and 1980s His background was in psychoanalysis he was trained by Lacan and he practised as a psychoanalyst for much of his life He developed a distinctive psychoanalytic method informed always by his revolutionary politics Guattari was actively involved in numerous political movements from Trotskyism to Autonomism tackling ecological and sexual politics along the way A true believer in collectivity much of his work was written in collaboration most famously with Gilles Deleuze This is also an introduction to key concepts such as schizoanalysis transversality a signifying semiotics and various kinds of machine
