Ark of Bones and Other Stories Henry Dumas,1974 **Ark of Bones and Other Stories** Henry Dumas,1974 **The Lever of Riches** Joel Mokyr,1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation s creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling insights into the question of how Western economies can maintain and developing nations can unlock their creative potential **The Black American Short Story in the 20th Century** Peter Bruck,1977-01-01 This volume is a collection of essays on black short stories written between 1998 and 1976 It aims to say something about the black short story as a genre and the development of the racial situation in America as well The primary aim is to introduce the reader to this long neglected genre of black fiction In contrast to the black novel the short story has hardly been given extensive criticism let alone serious attention The individual essays of this collection aim at presenting new points of critical orientation in the hope of reviving and fostering further discussions They provide a variety of approaches and a great diversity of critical points of view *Short Story Index* ,1999 **Young Latinx Shakespeares** Jesus Montaña,2024-10-04 This book delves into the aesthetics and processes by which Latinx writers and creatives artfully adapt and appropriate Shakespeare for young readers

Shakespeare this book demonstrates is reimagined with social justice in mind yielding literary mestizadas the critical term employed to highlight the palimpsestic nature of these admixtures These literary mestizadas not only create representational mirrors in which Latinx young readers can better see themselves and their lived cultural experiences but also offer them the opportunity to contest the social injustices that impact them and their communities In this the book provides the critical framework for understanding how Latinx young adult appropriations of Shakespeare offer young readers educational ecologies in which to thoughtfully engage with issues of race gender and sexuality By focusing on this productive literary interplay between Shakespeare and Latinx youth literatures this book directs us to the generative and transformative potentials that unfold from these hybridized texts Understanding Shakespeare and Latinx not in their separate spheres but in the way they blend together to create new important literary formulations embraces these brave r new worlds in which Latinx youth are affirmed and empowered *Toni Morrison's the Bluest Eye* Harold Bloom,2007 A child s descent into madness was explored in *Eye* **The Music in African American Fiction** Robert H. Cataliotti,2019-09-16 This is the first comprehensive historical analysis of how black music and musicians have been represented in the fiction of African American writers It also examines how music and musicians in fiction have exemplified the sensibilities of African Americans and provided paradigms for an African American literary tradition The fictional representation of African American music by black authors is traced from the nineteenth century William Wells Brown Martin Delany Pauline E Hopkins Paul Laurence Dunbar through the early twentieth century and the Harlem Renaissance James Weldon Johnson Langston Hughes Claude McKay Zora Neale Hurston to the 1940s and 50s Richard Wright Ann Petry James Baldwin Ralph Ellison and the 1960s and the Black Arts Movement Margaret Walker William Melvin Kelley Leroi Jones Amiri Baraka Henry Dumas In the century between Brown and Baraka the representation of music in black fiction went through a dramatic metamorphosis Music occupied a representative role in African American culture from which writers drew ideas and inspiration The music provided a way out of a limited situation by offering a viable option to the strictures of racism Individuals who overcome these limitations then become role models in the struggle toward equality African American musical forms for both artist and audience also offered a way of looking at the world survival and resistance The black musician became a ritual leader This study delineates how black writers have captured the spirit of the music that played such a pivotal role in African American culture Ph D dissertation State University of New York at Stony Brook 1993 revised with new preface and index South of Tradition Trudier Harris,2010-04-15 With characteristic originality and insight Trudier Harris Lopez offers a new and challenging approach to the work of African American writers in these twelve previously unpublished essays Collectively the essays show the vibrancy of African American literary creation across several decades of the twentieth century But Harris Lopez s readings of the various texts deliberately diverge from traditional ways of viewing traditional topics South of Tradition focuses not only on well known writers such as Zora Neale Hurston Ralph Ellison James Baldwin and Richard

Wright but also on up and coming writers such as Randall Kenan and less known writers such as Brent Wade and Henry Dumas Harris Lopez addresses themes of sexual and racial identity reconceptualizations of and transcendence of Christianity analyses of African American folk and cultural traditions and issues of racial justice Many of her subjects argue that geography shapes identity whether that geography is the European territory many blacks escaped to from the oppressive South or the South itself where generations of African Americans have had to come to grips with their relationship to the land and its history For Harris Lopez south of tradition refers both to geography and to readings of texts that are not in keeping with expected responses to the works She explains her point of departure for the essays as a slant an angle or a jolt below the line of what would be considered the norm for usual responses to African American literature The scope of Harris Lopez s work is tremendous From her coverage of noncanonical writers to her analysis of humor in the best selling *The Color Purple* she provides essential material that should inform all future readings of African American literature *The Concise Oxford Companion to African American Literature* William L. Andrews, Frances Smith Foster, Trudier Harris, 2001-02-15 A breathtaking achievement this Concise Companion is a suitable crown to the astonishing production in African American literature and criticism that has swept over American literary studies in the last two decades It offers an enormous range of writers from Sojourner Truth to Frederick Douglass from Zora Neale Hurston to Ralph Ellison and from Toni Morrison to August Wilson It contains entries on major works including synopses of novels such as Harriet Jacobs s *Incidents in the Life of a Slave Girl* Richard Wright s *Native Son* and Lorraine Hansberry s *A Raisin in the Sun* It also incorporates information on literary characters such as Bigger Thomas Coffin Ed Johnson Kunta Kinte Sula Peace as well as on character types such as Aunt Jemima Brer Rabbit John Henry Stackolee and the trickster Icons of black culture are addressed including vivid details about the lives of Muhammad Ali John Coltrane Marcus Garvey Jackie Robinson John Brown and Harriet Tubman Here too are general articles on poetry fiction and drama on autobiography slave narratives Sunday School literature and oratory as well as on a wide spectrum of related topics Compact yet thorough this handy volume gathers works from a vast array of sources from the black periodical press to women s clubs making it one of the most substantial guides available on the growing exciting world of African American literature *Visible Man* Jeffrey B. Leak, 2014-03 Henry Dumas 1934 1968 was a writer who did not live to see most of his fiction and poetry in print A son of Sweet Home Arkansas and Harlem he devoted himself to the creation of a black literary cosmos one in which black literature and culture were windows into the human condition While he certainly should be understood in the context of the cultural and political movements of the 1960s Black Arts Black Power and Civil Rights his writing and ultimately his life were filled with ambiguities and contradictions Dumas was shot and killed in 1968 in Harlem months before his thirty fourth birthday by a white transit policeman under circumstances never fully explained After his death he became a kind of literary legend but one whose full story was unknown A devoted cadre of friends and later admirers from the 1970s to the present pushed for the publication of his work

Toni Morrison championed him as an absolute genius Amiri Baraka a writer not quick to praise others claimed that Dumas produced actual art real man and stunning Eugene Redmond and Quincy Troupe heralded Dumas s poetry short stories and work as an editor of little magazines With Visible Man Jeffrey B Leak offers a full examination of both Dumas s life and his creative development Given unprecedented access to the Dumas archival materials and numerous interviews with family friends and writers who knew him in various contexts Leak opens the door to Dumas s rich and at times frustrating life giving us a layered portrait of an African American writer and his coming of age during one of the most volatile and transformative decades in American history
