David Stevenson

Armaments And The Coming Of War Europe 1904 1914:

Armaments and the Coming of War David Stevenson,1996 David Stevenson directs attention away from the Anglo German naval race towards the competition on land between the continental armies He analyses the defence policies of the Powers and the interaction between the growth of military preparedness and the diplomatic crises in the Mediterranean and the Balkans that culminated in the events of July August 1914 The Origins of Major War Dale C. Copeland,2013-02-15 One of the most important questions of human existence is what drives nations to war especially massive system threatening war Much military history focuses on the who when and where of war In this riveting book Dale C Copeland brings attention to bear on why governments make decisions that lead to sustain and intensify conflicts Copeland presents detailed historical narratives of several twentieth century cases including World War I World War II and the Cold War He highlights instigating factors that transcend individual personalities styles of government geography and historical context to reveal remarkable consistency across several major wars usually considered dissimilar The result is a series of challenges to established interpretive positions and provocative new readings of the causes of conflict Classical realists and neorealists claim that dominant powers initiate war Hegemonic stability realists believe that wars are most often started by rising states Copeland offers an approach stronger in explanatory power and predictive capacity than these three brands of realism he examines not only the power resources but the shifting power differentials of states He specifies more precisely the conditions under which state decline leads to conflict drawing empirical support from the critical cases of the twentieth century as well as major wars spanning from ancient Greece to the Napoleonic Wars **Imperial Germany and War, 1871-1918** Daniel J. Hughes ,Richard L. DiNardo,2018-03-26 An in depth finely detailed portrait of the German Army from its greatest victory in 1871 to its final collapse in 1918 this volume offers the most comprehensive account ever given of one of the critical pillars of the German Empire and a chief architect of the military and political realities of late nineteenth century Europe Written by two of the world s leading authorities on the subject Imperial Germany and War 1871 1918 examines the most essential components of the imperial German military system with an emphasis on such foundational areas as theory doctrine institutional structures training and the officer corps In the period between 1871 and 1918 rapid technological development demanded considerable adaptation and change in military doctrine and planning Consequently the authors focus on theory and practice leading up to World War I and upon the variety of adaptations that became necessary as the war progressed with unique insights into military theorists from Clausewitz to Moltke the Elder Moltke the Younger Schlichting and Schlieffen Ranging over the entire history of the German Empire Imperial Germany and War 1871 1918 presents a picture of unprecedented scope and depth of one of the most widely studied criticized and imitated organizations in the modern world The book will prove indispensable to an understanding of the Imperial German Army The Outbreak of the First World War Jack S. Levy,John A. Vasquez,2014-04-03 This volume brings together leading historians and international relations scholars to

debate the causes of the First World War Origins of the First World War Gordon Martel, 2016-10-04 *Origins of the First World War* summarizes the policies issues and crises that brought Europe to war in 1914 Examining the strategic and political problems that confronted each of the great powers and the way in which social and economic factors influenced the decision making process Martel discusses the position of each power and their place in the system of alliances which dominated international politics The fourth edition has been revised and updated throughout to incorporate the body of new scholarship that has appeared since the hundredth anniversary of the outbreak of war In a clear and accessible manner it explains how and why the alliance system was created how alliances led to a network of complicated strategic commitments how an escalating series of international crises from the turn of the century fuelled preparations for war why the peculiarities of the Balkan situation are essential in understanding the outbreak of war in 1914 This book also includes an updated Guide to Further Reading Who's Who of important figures and Glossary of key terms and the selection of documents has been expanded to include the key treaties as well as evidence of popular militarism and nationalism Concise accessible and analytical it is essential introductory reading for all students interested in the origins of the First World War The Oxford Illustrated History of the First World War Hew Strachan, 2000 Having a profound influence on the history of the twentieth century the First World War left an intense legacy that continues to affect both those who lived through it and those who merely read about it in school It was the first conflict in which airplanes submarines and tanks played a significant role and the first in which casualties on the battlefield outnumbered those from disease It precipitated the collapse of the empires of Austria Hungary and Turkey and it promoted revolution in Russia America's entry into the war and the part it played in the peace settlement signaled the arrival on the world stage of a new great power In this extensively illustrated book an international team of experts explores the war in all its different aspects From its causes to its consequences from the strategy of the politicians to the tactics of the generals the course of the war is charted and its political and human consequences assessed The legacy of the war to end wars in poetry and prose in collective memory and political culture is with us still eighty years after that first Armistice Day This remarkable book helps us understand that legacy **The Origins of the First World War** William Mulligan, 2017-04-13 The second edition of this leading introduction to the origins of the First World War Updated to take account of the latest debates around the war's origins and outbreak this is an essential classroom text which significantly revises our understanding of diplomacy political culture and economic history from 1870 to 1914 *Arms Races in International Politics* Thomas Mahnken, Joseph Maiolo, David Stevenson, 2016-01-14 This volume provides the first comprehensive history of the arms racing phenomenon in modern international politics drawing both on theoretical approaches and on the latest historical research Written by an international team of specialists it is divided into four sections before 1914 the inter war years the Cold War and extra European and post Cold War arms races Twelve case studies examine land and naval armaments before the First World War air land and naval competition during the

1920s and 1930s and nuclear as well as conventional weapons since 1945 Armaments policies are placed within the context of technological development international politics and diplomacy and social politics and economics An extended general introduction and conclusion and introductions to each section provide coherence between the specialized chapters and draw out wider implications for policymakers and for political scientists Arms Races in International Politics addresses two key questions what causes arms races and what is the connection between arms races and the outbreak of wars **The Origins of World War I** Richard F. Hamilton, Holger H. Herwig, 2003-02-24 This work poses a straightforward yet at the same time perplexing question about World War I Why did it happen Several of the oft cited causes are reviewed and discussed The argument of the alliance systems is inadequate lacking relevance or compelling force The arguments of mass demands those focusing on nationalism militarism and social Darwinism it is argued are insufficient lacking indications of frequency intensity and process how they influenced the various decisions The work focuses on decision making on the choices made by small coteries in Austria Hungary Germany Russia France Britain and elsewhere The decisions made later by leaders in Japan the Ottoman Empire Italy the Balkans and the United States are also explored The final chapters review the basic causes once again An alternative position is advanced one focused on elites and coteries their backgrounds and training and on their unique agendas **Franz Conrad von Hötzendorf** Lawrence Sondhaus, 2021-10-25 Did you ever wonder how and why Franz Conrad von Hötzendorf 1852 1925 earned his reputation for brilliance while failing so miserably during the First World War In examining Conrad s life and career including his years as a military writer teacher of tactics and a peacetime troop commander before 1906 this first modern biography offers a fascinating and impressive explanation of his thoughts and actions Franz Conrad von Hötzendorf 1852 1925 served as Austro Hungarian chief of the general staff between 1906 and 1917 and was a leading figure in the origins and conduct of the First World War In no other country did a single general serve as the leading prewar tactician prewar and wartime strategist and wartime army commander Because Conrad filled all of these roles in Austria Hungary he had no equal among the military men leading the old order of Europe to destruction in 1914 1918 The Oxford History of the First World War Hew Strachan, 2023-07-25 Histories you can trust The First World War now a century ago still shapes the world in which we live and its legacy lives on in poetry in prose in collective memory and political culture By the time the war ended in 1918 millions lay dead Three major empires lay shattered by defeat those of Germany Austria Hungary and the Ottomans A fourth Russia was in the throes of a revolution that helped define the rest of the twentieth century The Oxford History of the First World War brings together in one volume many of the most distinguished historians of the conflict in an account that matches the scale of the events From its causes to its consequences from the Western Front to the Eastern front from the strategy of the politicians to the tactics of the generals they chart the course of the war and assess its profound political and human consequences Chapters on economic mobilization the impact on women the role of propaganda and the rise of socialism establish the wider context of the fighting at sea and in the air and

which ranged on land from the trenches of Flanders to the mountains of the Balkans and the deserts of the Middle East

Conflict, War, and Peace Sara McLaughlin Mitchell, John A. Vasquez, 2013-08-13 Introducing students to the scientific study of peace and war this exciting new reader provides an overview of important and current scholarship in this dynamic area of study Focusing on the factors that shape relationships between countries and that make war or peace more likely this collection of articles by top scholars explores such key topics as dangerous dyads alliances territorial disputes rivalry arms races democratic peace trade international organizations territorial peace and nuclear weapons Each article is followed by the editors commentary a Major Contributions section highlights the article s theoretical advances and relates each study to the broader literature while a Methodological Notes section carefully walks students through the techniques used in the analysis Methodological topics include research design percentages probabilities odds ratios statistical significance levels of analysis selection bias logit duration models and game theory models The Arms Dynamic in World Politics Barry Buzan, Eric Herring, 1998 Presented as a successor to the Cold War era book An Introduction to Strategic Studies this volume explores issues of military security through a framework that links the issues of technology and world politics Arguing that the technological aspect of the global strategic environment is partway through a centuries long process of transformation sped up by the advent of the information age the authors examine such issues as different levels of industrial development on security what they argue is the relative infrequency of the use of force between states the use of military threats such as mass destruction concepts that military means create problems in themselves such as fear of war and insecurity and finally ways in which regulatory schemes such as disarmament can be put to use to solve some of those problems Paper edition unseen 22 50 Annotation copyrighted by Book News Inc Portland OR **A Companion to International History 1900 - 2001** Gordon Martel, 2010-03-29 A comprehensive overview of the most important international events movements and controversies of the 20th century Written by distinguished scholars each an authority in their field Explores influential underlying themes such as imperialism nationalism internationalism technological developments and changes in diplomatic methods Addresses a broad range of topics including diplomacy of wartime and peacemaking the cold war era and the new world order the end of European empires the rise of nationalism in the Third World globalization and terrorism Chronological organization makes the volume easily accessible Includes useful guides for further reading and research **Forbidden Fruit** Richard Ned Lebow, 2010-01-18 Could World War I have been averted if Franz Ferdinand and his wife hadn t been murdered by Serbian nationalists in 1914 What if Ronald Reagan had been killed by Hinckley s bullet Would the Cold War have ended as it did In Forbidden Fruit Richard Ned Lebow develops protocols for conducting robust counterfactual thought experiments and uses them to probe the causes and contingency of transformative international developments like World War I and the end of the Cold War He uses experiments surveys and a short story to explore why policymakers historians and international relations scholars are so resistant to the contingency and indeterminism inherent in open ended nonlinear

systems Most controversially Lebow argues that the difference between counterfactual and so called factual arguments is misleading as both can be evidence rich and logically persuasive A must read for social scientists Forbidden Fruit also examines the binary between fact and fiction and the use of counterfactuals in fictional works like Philip Roth's The Plot Against America to understand complex causation and its implications for who we are and what we think makes the social world work

International History of the Twentieth Century and Beyond Antony Best, Jussi M. Hanhimäki, Joseph A. Maiolo, Kirsten E. Schulze, 2024-09-03 Now in its fourth edition this highly successful global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors have produced an authoritative yet accessible and seamless account of the history of international relations in the last century covering events in Europe Asia the Middle East Africa and the Americas They focus on the history of relations between states and on the broad ideological economic and cultural forces that have influenced the evolution of international politics over the last 120 years The fourth edition is thoroughly updated to take account of the most recent research and global developments including new material on the impact of the Trump administration on international politics the rise of China under the leadership of Xi Jinping and the origins of the wars in Ukraine and Gaza The book is supported by a fully revised companion website including links to further resources and self testing material which can be found at www.routledgelearning.com/internationalhistory20c

International History of the Twentieth Century Antony Best, 2004 A major new global history of the twentieth century written by four prominent international historians

The Origins of the First World War Annika Mombauer, 2013-12-02 The seminal event of the 20th century the origins of the First World War have always been difficult to establish and have aroused deep controversy Annika Mombauer tracks the impassioned debates as they developed at critical points through the twentieth century The book focuses on the controversy itself rather than the specific events leading up to the war Emotive and emotional from the very beginning of the conflict the debate and the passions aroused in response to such issues as the war guilt paragraph of the treaty of Versailles are set in the context of the times in which they were proposed Similarly the argument has been fuelled by concerns over the sacrifices that were made and the casualties that were suffered Were they really justified

International History of the Twentieth Century and Beyond Anthony Best, 2008 This major global history of the twentieth century is written by four prominent international historians for first year undergraduate level and upward Using their thematic and regional expertise the authors cover events in Europe Asia the Middle East Africa and the Americas from the last century and beyond Among the areas this book covers are the decline of European hegemony over the international order the diffusion of power to the two superpowers the rise of newly independent states in Asia and Africa the course and consequences of the major

War in European History Michael Howard, 2009 An updated edition of Michael Howard's classic history of war in European history from medieval times to the 21st century showing how the changing face of war has shaped the wider course of the continent

s history over the last millennium
