Armoured Vehicles Modern Battle Tanks:

Armored Vehicle History Evelyn Cho, AI, 2025-01-30 *Armored Vehicle History* presents a comprehensive journey through the evolution of military armored vehicles from World War I's rudimentary armored cars to today's sophisticated main battle tanks. This authoritative work expertly weaves together the technological, tactical, and strategic aspects of armored warfare, demonstrating how battlefield needs drove innovation and how these mechanical giants revolutionized modern military operations. The book meticulously traces the development of key technological advances such as the introduction of sloped armor during World War II and the continuous improvements in suspension systems and engine power. Through detailed case studies and technical specifications drawn from military archives and engineering documents, readers gain insight into how each major conflict catalyzed new developments in armor design and combat effectiveness. The author skillfully balances technical detail with operational analysis, making complex engineering concepts accessible to both military historians and mechanical engineering enthusiasts. Progressing chronologically, the narrative explores the foundational principles of armored vehicle design before delving into the evolution of tank doctrine and modern combat operations. What sets this work apart is its holistic approach, examining not just main battle tanks but the entire spectrum of armored vehicles, including infantry fighting vehicles and specialized platforms. The book concludes by addressing contemporary challenges such as the role of heavy armor in asymmetric warfare, making it an invaluable resource for understanding both the history and future of mechanized warfare.

Armoured Fighting Vehicle Fouad Sabry, 2024-06-19 What is Armoured Fighting Vehicle? An armoured fighting vehicle or armored fighting vehicle (AFV) is an armed combat vehicle protected by armour, generally combining operational mobility with offensive and defensive capabilities. AFVs can be wheeled or tracked. Examples of AFVs are tanks, armoured cars, assault guns, self-propelled artillery, infantry fighting vehicles (IFV), and armoured personnel carriers (APC).
