Ballard, 1982 **River Warfare in Vietnam** Robin L. Rielly, 2024-02-08 America s entrance into the wars in Vietnam came as a result of several factors Among them was the necessity of bolstering French influence in the area in the face of mounting communist expansion This expansion was intensified by the outbreak of the Korean War making it necessary for the United States to revamp its Southeast Asian policy During the French era control of Vietnam s rivers streams and canals became necessary This led various factions to develop specialized military units heavily dependent on new types of river craft that could traverse the myriad waterways in Vietnam The focal point of this study is a new assessment of the conduct of river warfare Drawing on little known French Vietnamese and American sources and materials it sheds light on an important aspect of the Vietnam War Chapters also detail numerous aspects of river warfare not generally covered in other books on the subject **Development and employment of fixed-wing gunships 1962-1972 , U.S. Marines in Vietnam** United States. duty that earned widespread respect from soldiers This book explains early problems of medevac in Vietnam recounts the valor of crews and describes the movement of patients to in theater Army hospitals It also shows the effect that helicopters had on traditonal procedures The widespread use of the helicopter for medical evacuation in America since the Vietnam War testifies to the broader issues raised by this study and of the relevance of Army history to the civilian community Air War Over South Vietnam, 1968-1975 Bernard C.
