Arnulf Rainer Arnulf Rainer, 2000 **Art Books** Wolfgang M. Freitag, 2013-10-28 First published in 1997 For this second edition of Art Books A Basic Bibliography of Monographs on Artists the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition Destruction and Creation Mary Ann Mattoon, 1999 The 14th Congress for Analytical Psychology was held 23-28 August 1998 in the ancient city of Florence Italy The theme Destruction and Creation Personal and Cultural Transformations is especially appropriate to the Italian setting with that nation's history of destruction both from nature and from human activity and its tradition especially in Florence of creative individuals and institutions The theme is fitting also to the context of Jungian psychology with its emphasis on these and other pairs of opposites with their integral role in psychic wholeness Acknowledging also that destruction is indispensable to creation some Jungians prefer the term creative unconscious to the traditional collective unconscious **Visual proficiency - A perspective on art education** Kunibert Bering, Rolf Niehoff, 2015-12-18 Every day over a million images are uploaded to flickr This is a striking example of the so called flood of images that emerged with the beginning of the digital age A generation of adolescents has already been socialised with this flood of images and deals with it on a daily basis both in their networks and elsewhere Art education thus faces significant challenges art is the only school subject that deals with the problems inherent in images as images making them the focus of pedagogic activity This volume presents both the foundations for engaging with the phenomenon of the image in a competent and historically informed manner as well as the perspectives for art education that arise from these foundations It is based upon the conviction that providing orientation in a world defined by images does not mean following solely a technocratic functionalist or even neoliberal concept of education Quite the contrary providing an orientation for how to deal with images in a world that is dominated by them is a crucial part of the holistic development of young people's personalities The volume's main focus lies upon the new functions taken on both by the image and by art more generally It takes into account aspects of globalisation and participation and also includes more unusual views often from a cross media perspective of art and its historical repertory which even current image creation is unable to dispense with The volume also deals extensively with architecture and the images it conveys **The Essl Collection** Sammlung Essl, Sammlung Essl Privatstiftung, 1999 The book is published in conjunction with the opening of the new museum Sammlung Essl in Klosterneuburg Wien on November 5 1999 **Icons**

La coscienza luccicante Maria Grazia Tolomeo, Paola Segra Serra, 2012-01-04 T00:00:00+01:00

Questo testo rappresenta non soltanto il catalogo di una mostra ma anche il risultato del lavoro scientifico di un gruppo di studiosi specialisti o attenti osservatori di fenomeni di Arte Visiva che difficilmente raggiungono il grande pubblico. Il catalogo contiene tra gli altri i saggi di Silvia Bordini, Maurizio Calvesi, Maria Cristina Cremaschi, Ginestra Calzolari, Lorenzo Taiuti, Nico Garrone, oltre ai testi dei curatori della mostra Paola Segra Serra, Zanetti e Maria Grazia Tolomeo, ed una intervista a H. Szeeman a cura di Mara Folini. Il catalogo illustra puntualmente ogni sezione della mostra: la Video, la Rassegna storica, la Video Poesia, la Video Danza, il Video Teatro, l'Arte della Realtà Virtuale, l'Arte in Web e l'Arte in CD Rom. Ogni sezione corredata da schede bio-bibliografiche filologicamente documentate. Inoltre ogni artista protagonista dei migliori esiti della Video arte considerato secondo un'ottica monografica analizzando la sua poetica, i suoi percorsi espositivi e le fonti scritte secondo un lavoro di accurata selezione. Ci sono quindi le bio-bibliografie il più possibile aggiornate dei maggiori videoartisti tra gli altri Orlan, Mona Hatoum, Steve McQueen, Pipilotti Rist, Gillian Wearing, Mariko Mori, Gina Pane, Maurizio Camerani, Donatella Landi. La parte dedicata ai giovani inglesi, americani, giapponesi, italiani offre spunti interessanti anche per chi si affacci per la prima volta sull'argomento. Infine si offre una rassegna seppure non esaustiva ma il più possibile vasta di bibliografia generale sull'argomento. Questo volume rappresenta quindi il primo risultato di un apparato didattico su tematiche in Italia ancora troppo liturgiche e circoscritte alla cerchia degli addetti ai lavori.
