Arp Line And Form:

Arp Jean Arp, Walburga Krupp, Mitchell-Innes & Nash, 2000-01-01 **Astronomie Extragalactique Dans L'infrarouge**
Gary Allan Mamon, Xuan Thuan Trinh, J. Thanh Van Tran, 1997 **The Organic Line** Irene V. Small, 2024-10-08 A major rethinking of twentieth century abstract art mobilized by the work of Brazilian artist Lygia Clark What would it mean to treat an interval of space as a line thus drawing an empty void into a constellation of art and meaning laden things In this book Irene Small elucidates the signal discovery of the Brazilian artist Lygia Clark in 1954 a fissure of space between material elements that Clark called the organic line For much of the history of art Clark's discovery much like the organic line has escaped legibility Once recognized however the line has seismic repercussions for rethinking foundational concepts such as mark limit surface and edge A spatial cavity that binds discrepant entities together the organic line transforms planes into flexible topologies borders into membranes and interstices into points of connection As a paradigm the organic line has profound historiographic implications as well inviting us to set aside traditional notions of influence and origin in favor of what Small terms weak links and plagiotropic relations These fragile oblique and transversal ties have their own efficacy and Small's innovative readings of canonical modernist works such as Kazimir Malevich's Black Square John Cage's 4 33 and Le Corbusier's machine habiter as well as contemporary works by such artists as Adam Pendleton Ricardo Basbaum and Mika Rottenberg reveal the organic line's remarkable potential as an analytic instrument Mobilizing a rich repertoire of archival sources and moving across multiple chronologies geographies and disciplines this book invites us to envision modernism not as a stable construct defined by centers and peripheries inclusions and exclusions but as a topological field of interactive destabilizing tensions More than a history of a little known artistic device *The Organic Line Toward a Topology of Modernism* is a user's guide and manifesto for reimagining modern and contemporary art for the present On Line Cornelia H. Butler, M. Catherine de Zegher, 2010 *On Line Drawing Through the Twentieth Century* explores the radical transformation of drawing that began during the last century as numerous artists critically re-examined the traditional concepts of the medium In a revolutionary departure from the institutional definition of drawing and from reliance on paper as the fundamental support material artists instead pushed the line into real space expanding the medium's relationship to gesture and form and connecting it with painting sculpture photography film and dance Published in conjunction with an exhibition at The Museum of Modern Art *On Line* presents a discursive history of mark making through nearly 250 works by 100 artists including Aleksandr Rodchenko Alexander Calder Karel Malich Eva Hesse Anna Maria Maiolino Richard Tuttle Mona Hatoum and Monika Grzymala among many others Essays by the curators illuminate individual practices and examine broader themes such as the exploration of the line by the avant garde and the relationship between drawing and dance **Office of Government Ethics' Review of the Attorney General's Financial Disclosure** United States. Congress. Senate. Committee on Governmental Affairs. Subcommittee on Oversight of Government Management, 1988 *Selected Topics on*

Antenna Synthesis Yuri Choni,2020-11-30 This volume provides instrumentation and tools that are essential in developing antennas with desired characteristics In parallel to studying the problems of antennas synthesis and the methodologies used in solving them it encourages the reader to train and strengthen the engineering style of thinking which is of great importance for any technical developer The book moves away from mere repetition of the classical issues of antenna synthesis and instead puts emphasis on synthesizing a desired amplitude radiation pattern and on optimization of the antenna s phase pattern that allows for the elimination of the shadowing effect by a body close to the antenna in particular

Surrealism Cathrin Klingsöhr-Leroy,2004 Introduction with 30 photographs plus a timeline of the most important political cultural scientific and sporting events that took place during the movement 35 most important works and artists included *Dada in the Collection of the Museum of Modern Art* Museum of Modern Art (New York, N.Y.),Anne

Umland,Adrian Sudhalter,2008 Presents some seventy works books collages drawings films paintings photographs photomontages prints readymades reliefs in large scale reproductions and accompanying them with in depth essays by an interdepartmental group of the Museum s curators Front jacket flap

Enlisted Personnel Management United States. Department of the Army,1987 *British Women Artists* Carolyn Trant,2024-03-14 Consider for a moment the history of modern art in Britain you may struggle to land on a narrative that features very many women On this journey through a fascinating period of social change artist Carolyn Trant fills in some of the gaps in traditional art histories Introducing the lives and works of a rich network of neglected women artists British Women Artists sets these alongside such renowned presences as Barbara Hepworth Laura Knight and Winifred Nicholson In an era of radical activism and great social and political change women forged new relationships with art and its institutions Such change was not without its challenges and with acerbic wit Trant delves into the gendered make up of the avant garde and the tyranny of artistic isms In the decades after women won the vote in Britain the fortunes of women artists were shaped by war domesticity continued oppressions and spirited resistance Some succeeded in forging creative careers others were thwarted by the odds stacked against them Weaving devastating individual stories with playful critique British Women Artists reveals this hidden history

Annual Bibliography of Modern Art Museum of Modern Art (New York, N.Y.). Library,2001 **The Geological Magazine Or Monthly Journal of Geology** ,1879 **Air Force Research Resumés** , **Geological Magazine** Henry Woodward,1879

Instrument Procedures United States. Department of the Air Force,1996 **New York Magazine** ,1969-06-16 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **The Architect and Designer Birthday Book** James Biber,2024-06-25 A thoughtfully curated collection in a stunning package that recognizes

and celebrates the birthdays of famous infamous and often overlooked designers and architects The gift book for design and architect professionals and students they didn't know they needed but will no longer be able to live without Drawn from architect James Biber's epic Instagram project in which he posted a birthday bio of a famous or less famous designer or architect every day for a mid-pandemic year The Architect and Designer Birthday Book is filled with personal opinionated and humorous observations on fascinating design and architect figures past and present The minibiographies and birthday profiles in the book cover a range of international architects and designers as well as artists including Architects from the Aaltos Aino and Alvar to Zumthor Rivals Bernini and Borromini Photographers Lee Miller Louise Dahl Wolfe Vivian Maier Dody Weston Thompson Margaret Morton and Judith Turner Midcentury modernists Marcel Breuer Walter Gropius and Florence Knoll Charlotte Perriand Lilly Reich Anne Tyng and Denise Scott Brown More anecdotal histories than authorized biographies these daily profiles are not only fun to read but provide spot on commentary for anyone interested in how designers and architects relate to each other as well as their place in history It is the intersection of Biber's life and the history of architecture and design

Coronal and Prominence Plasmas Arthur I. Poland, 1986 **New York Magazine**, 1969-06-16 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
