

**RE EX PARTE APPLICATION OF RIDZWAN IBRAHIM
(PRESUMPTION OF DEATH)**

**HIGH COURT MALAYA, KUALA LUMPUR
HELILIAH MOHD YUSOF J**

**[ORIGINATING MOTIONS NO: S7-25-8-2002]
27 AUGUST 2002**

EVIDENCE: Presumption - Death - Person missing for more than seven years - Declaration to presume person dead - Application for - Evidence Act 1950, s. 108 - Burden of proof - Whether there was evidence to prove person's whereabouts unknown - Syariah laws - Application involved a Muslim - Whether matter within jurisdiction of Syariah Court

The applicant applied to this court for a declaration that his relative, one Sheikh Mohamed, be presumed dead. Affidavits were tendered from those related to the said Sheikh to prove that efforts to secure information as to whether he was alive or dead had been unsuccessful.

The main issue in this matter was whether the said Sheikh could be presumed dead as no one close to him could ascertain whether he was alive. However, in considering the said application, this court saw it fit to comment on whether the present matter fell within the jurisdiction of the Syariah Court as firstly, the said Sheikh was a Muslim and the reason for the application was for the applicant to obtain letters of administration in relation to the said Sheikh's estate in absence of a will.

Held:

[1] Evidence disclosed that the applicant's father had failed in his efforts to obtain a death certificate of the said Sheikh. It was also indicated that the daughters of the said Sheikh had made a disclaimer to the assets of the latter which were situated in Malaysia. Such a conduct would not have been inconsistent with the said Sheikh being alive. Further affidavits from the applicant's relatives disclosed that the said Sheikh had left Malaysia for Saudi Arabia and had passed away. But attempts made by them to secure a death certificate have thus far been unsuccessful. (pp 505 f, h-i, 506 a, 514 b-d & 516 f-g)

[2] This court had the option of not making an order on the present application in view of the existence of a similar provision under the Syariah Court Civil Procedure (Federal Territories) Act 1998. However, granting this application would not be repugnant to the implementation of the 1998 Act. In allowing the application sought under s. 108 of the Evidence Act, consideration was also given to the fact that the period

Learning to Love Raksha Pande, 2021-03-19 Learning to Love moves beyond the media and policy stereotypes that conflate arranged marriages with forced marriages Using in depth interviews and participant observations this book assembles a rich and diverse array of everyday marriage narratives and trajectories and highlights how considerations of romantic love are woven into traditional arranged marriage practices It shows that far from being a homogeneous tradition arranged marriages involve a variety of different matchmaking practices where each family tailors its own cut and paste version of British Indian arranged marriages to suit modern identities and

ambitions Pande argues that instead of being wedded to traditions people in the British Indian diaspora have skillfully adapted and negotiated arranged marriage cultural norms to carve out an identity narrative that portrays them as modern and progressive migrants ones who are changing with the times and cultivating transnational forms of belonging

Microbial Modulation of Host Apoptosis and Pyroptosis Amal O. Amer,Yongqun He,2014-10-23 Infectious disease is the result of an interactive relationship between a microbial pathogen and its host In this interaction both the host and the pathogen attempt to manipulate each other using a complex network to maximize their respective survival probabilities Programmed host cell death is a direct outcome of host pathogen interaction and may benefit host or pathogen depending on microbial pathogenesis Apoptosis and pyroptosis are two common programmed cell death types induced by various microbial infections Apoptosis is non inflammatory programmed cell death and can be triggered through intrinsic or extrinsic pathways and with or without the contribution of mitochondria Pyroptosis is an inflammatory cell death and is typically triggered by caspase 1 after its activation by various inflammasomes Microbial pathogens are able to modulate host apoptosis and pyroptosis through different triggers and pathways The promotion and inhibition of host apoptosis and pyroptosis vary and depend on the microbe types virulence and phenotypes For example virulent pathogens and attenuated vaccine strains may use different pathways to modulate host cell death Specific microbial genes may be responsible for the modulation of host cell death Different host cells including macrophages dendritic cells and T cells can undergo apoptosis and pyroptosis after microbial infections The pathways of host apoptosis and pyroptosis induced by different microbes may also differ Different methods can be used to study the interaction between microbes and host cell death system **Key Cases: Family Law**
