Becoming Art Howard Morphy, 2020-08-28 Thirty years ago Australian Aboriginal art was little more than a footnote to world art Today it is considered to be an important contemporary art movement often promoted as being connected to a deep cultural past Becoming Art provides a new analysis of the shifting cultural and social contexts that surround the production of Aboriginal art Transcending the boundaries between anthropology and art history the book draws on arguments from both disciplines to provide a unique interdisciplinary perspective that places the artists themselves at the centre of the argument Western art history has traditionally regarded Aboriginal art as distanced from time and place Becoming Art uses the recent history of Aboriginal art to challenge some of the presuppositions of western art discourse and western art worlds It argues for a more cross cultural perspective on world art history

On Becoming an Artist Ellen J. Langer, 2007-12-18 All it takes to become an artist is to start doing art from On Becoming an Artist On Becoming an Artist is loaded with good news Backed by her landmark scientific work on mindfulness and artistic nature bestselling author and Harvard psychologist Ellen J Langer shows us that creativity is not a rare gift that only some special few are born with but rather an integral part of everyone's makeup All of us can express our creative impulses authentically and uniquely and in the process enrich our lives Why then do so many of us merely dream of someday painting someday writing someday making music Why do we think the same old thoughts harbor the same old prejudices stay stuck in the same old mud Who taught us to think inside the box No one is more qualified to answer these questions than Dr Langer who has explored their every facet for years She describes dozens of fascinating experiments her own and those of her colleagues that are designed to study mindfulness and its relation to human creativity and she shares the profound implications of the results for our well being health and happiness Langer reveals myriad insights among them We think we should already know what only firsthand experience can teach us In learning the ways that all roses are alike we risk becoming blind to their differences If we are mindfully creative the circumstances of the moment will tell us what to do Those

of us who are less evaluatively inclined experience less guilt less regret less blame and tend to like ourselves more

Uncertainty gives us the freedom to discover meaning Finally what we think we re sure of may not even exist With the skill of a gifted logician Langer demonstrates exactly how we undervalue ourselves and undermine our creativity By example she persuades us to have faith in our creative works not because someone else approves of them but because they re a true expression of ourselves Her high spirited challenging book sparkles with wit and intelligence and inspires in us an infectious enthusiasm for our creations our world and ourselves It can be of lifelong value to everyone who reads it Visual Art and Education in an Era of Designer Capitalism jan jagodzinski,2010-10-11 This book offers a unique perspective of art and its education in designer capitalism It will contribute to the debate as to possibilities art and design hold for the future It also questions the broad technologization of art that is taking place Scores of Being H.A.E.
