Michelle Wang, Cheryl Julia Lee, 2024-03-11

The Routledge Companion to Literature and Art explores the links between literature and visual art from classical ekphrasis through to contemporary experimental forms. The collection's engagement with diverse literary and cultural artifacts offers a comprehensive survey of the vibrant interrelationships that currently inform literary studies and the arts. Featuring four sections, the first part provides an overview of theoretical approaches to art and literature from philosophy and aesthetics through to cognitive neuroscience. Part two examines one of the most important intersections between text and image: the workings of ekphrasis across poetry, fiction, drama, comics, life and travel writing, and architectural treatises. Parts three and four consider intermedial crossings from antiquity to the present. The contributors examine the rich intermedial experiments that range from manuscript studies to infographics in graphic narratives, illuminating the vibrant ways in which texts have intersected with illustration, music, dance, architecture, painting, photography, media installations, and television. Throughout this dynamic collection of 37 chapters, the contributors evolve existing critical debates in innovative new directions. The volume will be a critical resource for advanced undergraduate and graduate students as well as specialist scholars working in literary studies, philosophy of art, text and image studies, and visual culture. The Introduction and Chapters 10, 14, and 37 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution (CC BY) 4.0 license.

**Proceedings of the 2024 3rd International Conference on Social Sciences and Humanities and Arts (SSHA 2024)** Mohd Fauzi bin Sedon, Intakhab Alam Khan, Mehmet Cüneyt Birkök, KinSun Chan, 2024-06-20

This is an open access book. With the progress of social civilization, social science and its research are becoming more and more important. Theoretically and practically, the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings. At present, social science research and its results can hardly meet the needs of social development, especially the unscientific evaluation of social science results, which has aroused great concern from all walks of life and has produced dirt and questions on social science, thus affecting the proper development of social science. Max Weber once said that the most important function of social science in modern times is to keep people clear-headed and to resist the delusions of prophetic legislators. Humanities and arts are the process of perceiving, realizing, thinking, manipulating, and expressing objective or subjective objects through capturing and excavating feeling and analyzing, integrating and applying or displaying the stage results in the form obtained through feeling, seeing, hearing, smelling, touching. The social sciences and humanities and arts

contain content that will directly affect our lives and the way society functions And by reacting to today s increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc
