A Critical Rationalist Aesthetics Joseph Agassi, Ian Charles Jarvie, 2008 This book is a first attempt to cover the whole area of aesthetics from the point of view of critical rationalism It takes up and expands upon the more narrowly focused work of E H Gombrich Sheldon Richmond and Raphael Sassower and Louis Ciccotello The authors integrate the arts into the scientific world view and acknowledge that there is an aesthetic aspect to anything whatsoever They pay close attention to the social situatedness of the arts Their aesthetics treats art as emerging from craft in the form of luxurious and playful challenge to the audience In developing it they place emphasis on the number of questions and claims that can be settled by appeal to empirical facts on the historical character of aesthetic judgements and on the connection of aesthetic truth to true love and true friendship i e fidelity and integrity not to informative truth
