The Menopause Manual W.H. Utian, 2012-12-06 Years of involvement firsthand experience and research at the Menopause Clinic of the Groote Schuur Hospital Cape Town exist as the background to this book The Clinic itself however as one of the first in the world to be established if not the first has a story and a lesson of its own to offer and is therefore deserving of a brief description as the preface to the book In 1967 shortly after Christiaan Barnard had completed the historical first human heart transplant at the Groote Schuur Hospital I happened to be in West Berlin and was invited to visit a major international pharmaceutical firm A new female hormone was mentioned and thereby started my interest in the subject Upon my return to Cape Town I spent many hours in the large medical school library and completely surveyed the menopause literature to 1967 I was stunned by its general inadequacy and was bitten by a challenge to clarify what menopause really was and to define the proper place of hormone replacement therapy

Whole Food Nutrition Vic Shayne, Ph.D., Vic Shayne, 2000-12 Dr Vic Shayne's new book is based on years of research to prove that vitamins fail to act as nutrients unless still contained in nature's original whole foods For the millions of us who see the

importance of taking supplements this book offers secrets that vitamin companies would rather not be published Nature's wondrous healing and life sustaining power resides within whole foods not vitamins alone With every disease and symptom is associated a nutritional deficiency and we need much more than isolated vitamins to make us well In this age of refined altered and chemicalized diets and exposure to environmental toxins our cells demand whole food supplementation for real nutrients that vitamin pills alone cannot begin to offer us Vitamins need synergists to function The difference between illness and health is often just a few nutrients away The more we know the more control we have over our own health
