Andrew Granade,2014 During the Great Depression Harry Partch rode the railways following the fruit harvest across the country From his experience among hoboes he found what he called a fountainhead of pure musical Americana Although he later wrote immense stage works for instruments of his own creation he is still regularly called a hobo composer for the compositions that grew out of this period of his life Yet few have questioned the label s impact on his musical output compositional life and reception Focusing on Partch the person alongside the cultural icon he represented this study examines Par *Art History at the Crossroads of Ireland and the United States* Cynthia Fowler,Paula Murphy,2022-05-12 Taking the visual arts as its focus this anthology explores aspects of cultural exchange between Ireland and the United States Art historians from both sides of the Atlantic examine the work of artists art critics and art promoters Through a close study of selected paintings and sculptures photography and exhibitions from the nineteenth century to the present the depth of the relationship between the two countries as well as its complexity is revealed The book is intended for all who are interested in

Hope Among Us Yet David P. Peeler, 2008 In *Hope Among Us Yet* David Peeler examines art and literature of the Great Depression to reveal a common pursuit and common dream in the work of writers photographers and painters who turned their talents toward the utter dislocation and despair of 1930s America Thrust out of the gilded world of the 1920s by the extent of the crisis these artists used their canvases cameras and pens to condemn capitalism and seal its demise with stunning evidence of its evils As the years drew on however artists began to dream of a new more equitable social order and the solace of those dreams rather than the earlier vilification came to dominate Depression art Discussing the photographs and paintings many of them reproduced in this book the essays and novels of the Depression era David Peeler shows that in their pursuit of the reality of 1930s America social artists also dreamed of a rebirth of Western art But as American capitalism revived with the onset of World War II hopes for a new order faded and the vision of the Depression s artists remained the unfilled prophecy of their works **Lee Miller, Photography, Surrealism and the Second World War** Lynn Hilditch, 2018-01-23 Lee Miller 1907 1977 was an American born Surrealist and war photographer who through her role as a model for Vogue magazine became the apprentice of Man Ray in Paris and later one of the few women war correspondents to cover the Second World War from the frontline Her comprehensive understanding of art enabled her to photograph vivid representations of Europe at war the changing gender roles of women in war work the destruction caused by enemy fire during the London Blitz and the horrors of the concentration camps that embraced and adapted the principles and methods of Surrealism This book examines how Miller s war photographs can be interpreted as surreal documentary combining a surrealist sensibility with a need to inform Each chapter contains a close analysis of specific photographs in a generally chronological study with a thematic focus using comparisons with other photographers documentary artists and Surrealists such as Margaret Bourke White Dorothea Lange Walker Evans George Rodger Cecil Beaton Bill Brandt Henry Moore Humphrey Jennings and Man Ray In addition Miller s photographs are explored through Andr Breton s theory of convulsive beauty his credence that any subject no matter how horrible may be interpreted as art and his notion of the marvellous **The Look of the Past** L. J. Jordanova, 2012-09-27 Visual and material sources are central to historical practice and this is a much needed introduction to using artefacts as evidence *Documenting America, 1935-1943* Carl Fleischhauer, Beverly W. Brannan, 1988 Between 1935 and 1943 a group of photographers under the direction of Roy Emerson Stryker set out to photograph the United States for the Farm Security Administration and the Office of War Information Photographs taken by this celebrated group whose ranks included Dorothea Lange Ben Shahn Gordon Parks Russell Lee and Walker Evans have since become icons of the 1930s and 1940s In recent years however their work has been

reproduced with little discussion of the particular circumstances surrounding its creation Documenting America takes a fresh look at these remarkable photographs The book opens with two incisive essays by Lawrence Levine and Alan Trachtenberg that examine issues central to photography and American culture While Levine explains how the pictures portray the complexity of life in the period balancing scenes of Depression hard times with images of the pleasures of life Trachtenberg analyzes the way in which viewers read photographs and the role of the government picture file that stands between the creation of the photographs and their use Both essayists raise important questions about Stryker's grand ambition of a photographic record of America about the ways of seeing that have grown up around the most famous of these photographs and about the whole enterprise of documentary photography and the conventions of realism The images themselves are presented in series selected from groups of pictures created by single photographers A documentary photographer often makes dozens of exposures to portray different elements of the subject experiment with camera angles and cover the stages of an event or steps of a process By studying these pictures in series we come closer to the photographer working in the field We see a tenant farming community in Gee's Bend Georgia the activities of the Salvation Army in San Francisco and the hubbub and commotion that filled Chicago's Union Railway Station in 1943 Texts accompanying each of the book's fifteen series describe the circumstances that gave rise to the creation of the pictures and discuss the relation between government policy and the subjects of the photographs The nearly three hundred images included vividly portray America in the last bitter years of the Great Depression and the first years of the Second World War

The Oxford Handbook of American Literary Naturalism Keith Newlin, 2011-05-26 After its heyday in the late nineteenth and early twentieth century naturalism a genre that typically depicts human beings as the product of biological and environmental forces over which they have little control was supplanted by modernism a genre in which writers experimented with innovations in form and content In the last decade the movement is again attracting spirited scholarly debate The Oxford Handbook of American Literary Naturalism takes stock of the best new research in the field through collecting twenty-eight original essays drawing upon recent scholarship in literary and cultural studies The contributors offer an authoritative and in-depth reassessment of writers from Stephen Crane Frank Norris Theodore Dreiser and Jack London to Kate Chopin Edith Wharton Ernest Hemingway Richard Wright John Steinbeck Joyce Carol Oates and Cormac McCarthy One set of essays focus on the genre itself exploring the historical contexts that gave birth to it the problem of definition its interconnections with other genres the scientific and philosophical ideas that motivate naturalist authors and the continuing presence of naturalism in twenty-first century fiction

Others examine the tensions within the genre the role of women and African American writers depictions of sexuality the problem of race and the critique of commodity culture and class A final set of essays looks beyond the works to consider the role of the marketplace in the development of naturalism the popular and critical response to the works and the influence of naturalism in the other arts
