Dostoevsky's Religion

Steven Cassedy,2005-05-02 Any reader of Dostoevsky is immediately struck by the importance of religion within the world of his fiction That said it is very difficult to locate a coherent set of religious beliefs within Dostoevsky s works and to argue that the writer embraced these beliefs This book provides a trenchant reassessment of his religion by showing how Dostoevsky used his writings as the vehicle for an intense probing of the nature of Christianity of the individual meaning of belief and doubt and of the problems of ethical behavior that arise from these questions The author argues that religion represented for Dostoevsky a welter of conflicting views and stances from philosophical idealism to nationalist messianism The strength of this study lies in its recognition of the absence of a single religious prescription in Dostoevsky s works as well as in its success in tracing the background of the ideas animating Dostoevsky s religious probing

History, Politics, and the Novel Dominick LaCapra,2018-08-06 Although history was once considered a component of the study of literature the two fields have grown steadily apart since the sixteenth century Today few literary theorists and critics study history and even fewer historians follow the work of their colleagues in literature departments instead historians continue to interpret the novel as literary critics and theorists did several decades ago Dominick LaCapra an intellectual historian well versed in literary theory and methodology here addresses the complex role of the novel in history and criticism seeking to establish a few guiding principles for the study of the historicity of literature LaCapra provides historically informed readings of eight major modern novels Stendhal s Red and Black Dostoevsky s Notes from Underground Eliot s Middlemarch Flaubert s Sentimental Education Mann s Death in Venice and Doctor Faustus Woolf s To the Lighthouse and Gaddis s The Recognitions In each reading he explores the question of how the text relates to its historical and literary contexts in symptomatic critical and possibly transformative ways Eschewing both a narrow intratextual formalism and a reductive extratextual historicism he attempts to motivate the very selection of relevant contexts for reading by drawing attention to the intellectual and sociopolitical import of our exchange with the past Throughout LaCapra consciously emulates the discursive strategy of these novels thereby reinforcing his assertion that historians have much to learn from modes of discourse they have hitherto viewed as mere documentary symptoms of the past The work of a knowledgeable and discerning scholar this bold attempt to create a more engaging dialogue between the past and present will be stimulating reading for intellectual historians and literary theorists
