Present Day Romance Tragedy David D E Evans PhD OAM, 2022-06-30 1993 Reports from India of parents killing their children in public because of social shame related to forbidden marriage began coming to world attention 1993 Admira Ismi Bosniak and Boko Brki Serb were killed by sniper fire while fleeing the besieged city of Sarejevo on Vrbanja bridge now known as the Romeo and Juliet Bridge Their bravery became a symbol for the suffering of the people on all sides of the conflict The challenge of young people for rights to options is highlighted by the phenomenon and imperative of romance tragedy within and across cultures Globalisation brings awareness of other cultures of their legends and real life heroic stories of their struggles and sacrifices and of their social progress This study focuses on the time period from 1993 to the present time during which romance tragedy in India especially began attracting world attention through the media The first pillar of Gandhi s Satyagraha is truth claiming that openness to and awareness of the greater community the world community is a necessity of peace both at the family level and for the world community Nonviolence the second pillar is seen as the first step in the path of peace using the word peace here to equate with the enjoyment of good relationships Principles for the attainment and maintenance of good relations apply to individuals at the local level and to states and nations at the government level Martyrdom of romantic lovers

choosing Gandhian like self sacrifice the third pillar continues today Reflecting hugely intense joy and sorrow storytelling of romance tragedy through the arts and media brings compelling heroism to our attention It leaves us with a message of hope for the new generation Psychology as the Science of Human Being Jaan Valsiner, Giuseppina Marsico, Nandita Chaudhary, Tatsuya Sato, Virginia Dazzani, 2015-09-09 This book brings together a group of scholars from around the world who view psychology as the science of human ways of being Being refers to the process of existing through construction of the human world here rather than to an ontological state This collection includes work that has the goal to establish the newly developed area of cultural psychology as the science of specifically human ways of existence It comes as a next step after the behaviorist turn that has dominated psychology over most of the 20th century and like its successor in the form of cognitivism kept psychology away from addressing issues of specifically human ways of relating with their worlds Such linking takes place through intentional human actions through the creation of complex tools for living entertainment and work Human beings construct tools to make other tools Human beings invent religious systems notions of economic rationality and legal systems they enter into aesthetic enjoyment of various aspects of life in art music and literature they have the capability of inventing national identities that can be summoned to legitimate one's killing of one's neighbors or being killed oneself The contributions to this volume focus on the central goal of demonstrating that psychology as a science needs to start from the phenomena of higher psychological functions and then look at how their lower counterparts are reorganized from above That kind of investigation is inevitably interdisciplinary it links psychology with anthropology philosophy sociology history and developmental biology Various contributions to this volume are based on the work of Lev Vygotsky George Herbert Mead Henri Bergson and on traditions of *Ganzheitspsychologie* and Gestalt psychology *Psychology as the Science of Human Being* is a valuable resource to psychologists sociologists philosophers biologists and anthropologists alike When True Love Came to China Lynn Pan, 2015-11-01 The Guardian's Best Books of 2015 Most people suppose that the whole world knows what it is to love that romantic love is universal quintessentially human Such a supposition has to be able to meet three challenges It has to justify its underlying assumption that all cultures mean the same thing by the word love regardless of language It has to engage with the scholarly debate on whether or not romantic love was invented in Europe and is uniquely Western And it must be able to explain why early twentieth century Chinese writers claimed that they had never known true love or love by modern Western standards By addressing these three challenges through a literary historical philosophical biographical and above all comparative approach this highly original work shows how love's profile in China shifted with the rejection of arranged marriages and concubinage in favour of free individual choice monogamy and a Western model of romantic love This book Lynn Pan's best to date adds a wonderful new angle by encouraging us via comparison to better appreciate how unusual even in some ways exotic a part of the Western past we take for granted as though it were natural actually is While the reader will learn a great deal about Chinese literary and cultural

traditions from this book if read with an open mind the Western reader may end up rethinking things about his or her tradition just as deeply Jeffrey N Wasserstrom Chancellor s Professor of History University of California at Irvine Nobody writes about China quite as brilliantly as Lynn Pan who in this new illuminating work on love showcases her trademark erudition entwined with a novelist s sensibility Pan s rare skill makes the book a treat from start to finish a sumptuous deft and moving analysis of China s relationship with love Mishi Saran author of Chasing the Monk s Shadow A Journey in the Footsteps of Xuanzang and The Other Side of Light [Eroticism and Death in Theatre and Performance](#) Karoline Gritzner,2010 The essays brought together in this collection offer new perspectives on the eros death relation in a wide selection of dramatic texts theatrical practices and cultural performances *Love* Anthony Walsh,2017-07-05 Love is a little word with a universe of meanings and has engaged people s interest throughout human history The need to give and receive love lies deep within human nature Philosophers poets theologians sociologists and scientists have all attempted to explain its exact origin but is it an evolutionary adaptation or a social construct Walsh discusses that the nature of and need for love has biological origins He draws upon Darwin s sexual selection theory to define the perceptions of love by infants through the process of experience dependent brain wiring He observes that mother love makes a child capable of loving and that father love makes a child feel worthy of love He appraises the origin and purpose of romantic love in his discussions on sexual reproduction by looking at chemical and neurological responses to love and the influence of love on one s physical and mental health With frequent quotes from literary masters like Shakespeare to orient one s scientific and humanistic understanding of love Walsh goes on to explore various styles of romantic love including monogamy promiscuity bartering love and betrayed love the effects of a skewed sex ratio on dating and mating practices and the age old quest for a perfect society populated by perfect people obeying the biblical command to love one another **The Oxford Encyclopedia of Women in World History** Bonnie G. Smith,2008 The Encyclopedia of Women in World History captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The Oxford Encyclopedia of Women in World History benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The Encyclopedia contains over 1 250 signed articles arranged in an A Z format for ease of use The entries cover six main areas biographies geography and history comparative culture and society including adoption

abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike Love and Sexuality in Social Theory Emiliano Bevilacqua, Mariano Longo, Michael Hviid Jacobsen, 2024-11-27 Love and Sexuality in Social Theory considers the role that love and sexuality play in private and public life Drawing on both classical and contemporary social theory this book presents both theoretical and empirical studies of love and sexuality as social factors from the earliest reconstructions of modern emotional life to the most recent analyses of liquid love With attention to the consequences that passions and desires have both on morals and behaviour it departs from the analysis of society in terms of the division of labour and utilitarian mechanisms to consider how a society based on performances values human energy and emotional behaviour in a contradictory way This book therefore presents and discusses classic authors from Georg Simmel and Pitirim Sorokin to Marianne Weber and Simone De Beauvoir through the work of Erving Goffman and ending with contemporary authors such as Michel Foucault Anthony Giddens Zygmunt Bauman Ulrich Beck and Eva Illouz By presenting love as the social foundation of altruism an essential element in modern conceptions of subjectivity and a force shaping intimacy and contemporary social life this book will appeal to scholars of sociology particularly those interested in social theory and the sociology of emotions
