feminist approaches *Women of the Praia* Sally Cooper Cole, 2020-06-30 In this richly detailed sensitive ethnographic work Sally Cole takes as her starting point the firsthand accounts of five differently situated Portuguese women who describe their lives in a rural fishing community on the north coast of Portugal Skillfully combining these life stories with cultural and economic analysis Cole radically departs from the picture of women as sexual beings that prevails in the anthropological literature on Europe and the Mediterranean Her very different strategy a focus on women as workers reflects the Portuguese women's own definition of themselves and allows them the strong resonant voice that is the goal of both the new ethnography and feminist scholarship From this new perspective Cole proposes an important critique of the dominant paradigm of southern European gender relations as being embedded in the code of honor and shame Covering the Salazar years as well as the period since the 1974 Revolution Cole shows that fisherwomen of the past enjoyed greater autonomy in work and social relations than do their daughters and granddaughters who live in a context of increasing commoditization and industrialization Central to this account is an examination of the changing structure and role of the household as economic production moved to the factory **Social Reproduction** Kate Bezanson, Meg Luxton, 2006-10-02 Contributors include Sedef Arat Ko Ryerson Kate Bezanson Brock Susan Braedley PhD candidate York Barbara Cameron York Marcia Cohen Canadian Centre for Policy Alternatives BC Marjorie Griffin Cohen Simon Fraser Bonnie Fox Toronto Meg Luxton York Leah F Vosko York and Alice de Wolff Toronto based researcher and activist **Labor Divided** Robert Asher, Charles Stephenson, 1990-01-01 Labor Divided is the first anthology on race ethnicity and the history of American working class struggles to give substantial attention to the experiences of African American Asian and Hispanic workers as well as to the experiences of workers from European backgrounds The essays in Labor Divided cover a time period of more than a century They focus on the experiences of service workers as well as factory workers women as well as men Because the American labor force presently is absorbing significant numbers of workers from abroad and especially Asian and Hispanic workers this volume will be of great interest to readers seeking historical perspectives on contemporary economic developments
