The Complete Works of William Makepeace Thackeray William Makepeace Thackeray, 1889 *Archetypes from Underground* Lonny Harrison, 2016-05-17 *Archetypes from Underground* Notes on the Dostoevskian Self uncovers archetypal imagery in Dostoevsky's stories and novels and argues that archetypes bring a new dimension to our understanding and appreciation of his works In this interdisciplinary study Harrison analyzes selected texts in light of fresh research in Dostoevsky studies cultural history comparative mythology and depth psychology He argues that one of Dostoevsky's chief concerns is the crisis of modernity and that he dramatizes the conflicts of the modern self by depicting the dynamic transformative nature of the psyche Harrison finds the language and imagery of archetypes in Dostoevsky's characters symbols and themes and shows how these resonate in remarkable ways with the archetypes of self persona and the shadow He demonstrates that major themes in Dostoevsky coincide with Western esotericism such as the complementarity of opposites transformation and the symbolism of death and resurrection These arguments inform a close reading of several of Dostoevsky's texts including *The Double* *Notes from Underground* and *The Brothers Karamazov* Archetypes inform these works and others bringing vitality to Dostoevsky's major characters and themes This research represents a departure from the religious and philosophical questions that have dominated Dostoevsky studies This work is the first sustained analysis of Dostoevsky's work in light of archetypes framing a topic that calls for further investigation Archetypes illumine the author's ideas about Russian national identity and its faith traditions and help us redefine our understanding of Russian realism and the prominent place Dostoevsky occupies within it

The Works of William Makepeace Thackeray William Makepeace Thackeray, 1898 **Wild Man from Borneo** Robert

Cribb, Helen Gilbert, Helen Tiffin, 2014-01-31 *Wild Man from Borneo* offers the first comprehensive history of the human orangutan encounter Arguably the most humanlike of all the great apes particularly in intelligence and behavior the orangutan has been cherished used and abused ever since it was first brought to the attention of Europeans in the seventeenth century The red ape has engaged the interest of scientists philosophers artists and the public at large in a bewildering array of guises that have by no means been exclusively zoological or ecological One reason for such a long term

engagement with a being found only on the islands of Borneo and Sumatra is that like its fellow great apes the orangutan stands on that most uncomfortable dividing line between human and animal existing for us on what has been called the dangerous edge of the garden of nature Beginning with the scientific discovery of the red ape more than three hundred years ago this work goes on to examine the ways in which its human attributes have been both recognized and denied in science philosophy travel literature popular science literature theatre museums and film The authors offer a provocative analysis of the origin of the name orangutan trace how the ape has been recruited to arguments on topics as diverse as slavery and rape and outline the history of attempts to save the animal from extinction Today while human populations increase exponentially that of the orangutan is in dangerous decline The remaining wild men of Borneo are under increasing threat from mining interests logging human population expansion and the widespread destruction of forests The authors hope that this history will by adding to our knowledge of this fascinating being assist in some small way in their preservation
