These changes are grouped by underlying patterns into twenty-four categories. Their list includes activation, anticipation, amelioration, bohemisation, co-option, depopulation, entertainisation, glorification, human softening, importation, marital reduction, melodramatisation, multiplication, pejoration, political correction, political redirection, politicisation, reviving, romanticisation, social adjustment, social alerting, social correction, teaming, and thrill intensification. Parallels to the Mysteries of Agatha Christie Anne Powers,2020-03-04 Outsold only by the Bible and Shakespeare the works of Agatha Christie stand as some of the most celebrated crime fiction of our era. This book takes ten of her most famous works and shows their relationship to ten of crime history's most famous and sensational cases: cases whose notoriety still resounds to this day. Addressing both novels and short stories, the author illuminates the relationship between Christie's *Murder on the Orient Express* and the sensational Lindbergh Kidnapping Case of 1932; the connections between Christie's *Mrs McGinty*'s Dead and the horrific true case of England's most loathed wife killer, the American Dr Hawley Harvey Crippen; and eight more engrossing pairings of Christie's ingenious mystery puzzles with vintage true crime's most sensational events.

Using Braddon's bestselling sensation fiction *Lady Audley's Secret* as a paradigmatic novel and as a haunting textual presence across her literary career, this study provides a fertile critical reading of a wide range of Braddon's novels and short stories. Through an analysis of Braddon's negotiations with Victorian narrative, ideological, and cultural issues, this monograph offers readers a refreshing view of gender, female identity, and subjectivity; the treatment of insanity; questions related to technology and progress; the impact of evolutionism and Darwinism; the intersemiotic dialogue between pictorial art and novel writing; the role of the female writer in the new literary market; and the changing notion of capital in an increasingly fluid social context. Braddon's manipulation of Victorian literary codes and conventions proves that she was something more than a mere sensation writer and that her primary role in the nineteenth-century literary scene has to be reaffirmed. Drawing on a wide range of textual materials and literary sources, the book foregrounds Braddon's constant and sometimes ambivalent dialogue with her times and with ours as well. **Duchess of Death** Richard Hack,2009-07-01 As the author of more than eighty books and short story collections including *And Then*
