A Dictionary of the English Language Samuel Johnson,1832

The Choice of Achilles Susanne Lindgren Wofford,1992-04-01 This book examines the ways that Classical and Renaissance epic poems often work against their expressed moral and political values It combines a formal and tropological analysis that stresses difference and disjunction with a political analysis of the epic s figurative economy It offers an interpretation of three epic poems Homer s Iliad Virgil s Aeneid and Spencer s Faerie Queene that focuses on the way these texts make apparent the aesthetic moral and political difference that constitutes them and sketches in conclusion two alternative resolutions of such division in Milton s Paradise Lost and Cervantes Don Quixote an epic in prose The book outlines a theory of how and why epic narrative may be said to subvert certain of its constitutive claims while articulating a cultural argument of which it becomes the contradictory paradigm The author focuses on the aesthetic and ideological work accomplished by poetic figure in these narratives and understands ideology as a figurative substitutive system that resembles and uses the system of tropes She defines the ideological function of tropes in narrative and the often contradictory way in which narratives acknowledge and seek to efface the transformative functions of ideology Beginning with what it describes as a dual tendency within the epic simile toward metaphor in the transformations of ideology toward metonymy as it maintains a structure of difference the book defines the politics of the simile in epic narrative and identifies metalepsis as the defining trope of ideology It demonstrates the political and poetic costs of the structural reliance of allegorical narrative on

catachresis and shows how the narrator's use of prosopopoeia to assert political authority reshapes the figurative economy of the epic. The book is particularly innovative in being the first to apply to the epic the set of questions posed by the linking of the theory of rhetoric and the theory of ideology. It argues that historical pressures on a text are often best seen as a dialectic in which ideology shapes poetic process while poetry counters, resists, figures or generates the tropes of ideology itself.

Stratagem of the Corpse Gary J Shipley, 2020-01-30 This book is unique in its dedicated tackling of the subject of death in the work of Jean Baudrillard. Through new readings of his work, the book makes so patently clear the importance of Baudrillard's tendency to poeticize his core indebtedness to Georges Bataille, Alfred Jarry and others, and his reliance on paradox. Ultimately, *Stratagem of the Corpse* is less a making sense of death and more a transcript of what occurred when death made sense of us: a reverse thanatology in which death delineates the variant forms of our encroachment, not so much death as seen by Baudrillard but Baudrillard as seen by death.
