'Counterfeiting' Shakespeare Brian Vickers, 2002-09-19 *Counterfeiting Shakespeare* addresses the fundamental issue of what Shakespeare actually wrote and how this is determined In recent years his authorship has been claimed for two poems the lyric *Shall I die* and *A Funerall Elegye* These attributions have been accepted into certain major editions of Shakespeare's works but Brian Vickers argues that both attributions rest on superficial verbal parallels both use too small a sample ignore negative evidence and violate basic principles in authorship studies Through a fresh examination of the evidence Professor Vickers shows that neither poem has the stylistic and imaginative qualities we associate with Shakespeare In other words they are counterfeits in the sense of anonymously authored works wrongly presented as Shakespeare's He argues that the poet and dramatist John Ford wrote the *Elegye* its poetical language vocabulary syntax prosody is indistinguishable from Ford's and it contains several hundred close parallels with his work By combining linguistic and statistical analysis this book makes an important contribution to authorship studies

The American Renaissance Reconsidered Walter Benn Michaels, Donald E. Pease, 1989-09 The term American Renaissance designates a period in our nation's history when the literary classics appeared works original enough to mark a beginning for America's literary history But the American Renaissance Donald Pease argues in his introduction does not belong to the nation's secular history so much as it denotes a rebirth from it Independent of the time kept by secular history the American Renaissance keeps what we could call global Renaissance time the sacred time a nation claims to renew when it claims its cultural place as a great nation existing within a world of great nations Providing each nation with the terms for cultural greatness denied to secular history the renaissance is not an occasion occurring within any specific historical time or place so much as it is a moment of cultural achievement that repeatedly demands to be reborn *The American Renaissance Reconsidered* examines this demand for rebirth in terms other than those ordained by the American Renaissance itself In the

seven pieces collected here it is reborn not outside of but within America's secular history as the authors examine anew the period of the American Renaissance and the period in which its history was written Contributing authors are Eric J Sundquist Jane P Tompkins Louis A Renza Jonathan Arac Donald E Pease Walter Benn Michaels and Allen Grossman Dreams in the African Church Nelson Osamu Hayashida, 2023-09-20 Currents of Encounter invites scholarly contributions that utilize interreligious intercultural comparative postcolonial and other contemporary critical interdisciplinary approaches from across all religious traditions to address topical questions on the challenges and opportunities arising from intercultural interreligious engagements or the intersections of cultures and religions Studies dealing explicitly with the dynamics of the intersection of religious and cultural traditions are increasing every year and scholars have become aware of the complexity and diversity of interreligious and intercultural relations Recent literature offers a broad panoply of theoretical approaches from theologies of religions to comparative theologies from discourse analysis to a postcolonial critique focusing on issues of power from feminist readings asking about the specific role of women in interreligious dialogue to interreligious hermeneutics exploring how meaning may travel across cultural and religious traditions Currents of Encounter welcomes this variety of works in these disciplines and from interdisciplinary perspectives aiming thus to contribute to a better understanding of the complexities of interreligious and intercultural themes The board welcomes both monographs and edited volumes Possible domains interreligious studies intercultural theology and philosophy comparative theology and philosophy theologies of religions Memorializing Animals during the Romantic Period Chase Pielak, 2016-04-22 Early nineteenth century British literature is overpopulated with images of dead and deadly animals as Chase Pielak observes in his study of animal encounters in the works of Charles and Mary Lamb John Clare Samuel Taylor Coleridge Lord Byron and William Wordsworth These encounters Pielak suggests coincide with anxieties over living alongside both animals and cemeteries in the late eighteenth and early nineteenth centuries Pielak traces the linguistic physical and psychological interruptions occasioned by animal encounters from the heart of communal life the table to the countryside and finally into and beyond the wild cemetery He argues that Romantic period writers use language that ultimately betrays itself in beastly disruptions exposing anxiety over what it means to be human what happens at death the consequences of living together and the significance of being remembered Extending his discussion past an emphasis on animal rights to an examination of animals in their social context Pielak shows that these animal representations are both inherently important and a foreshadowing of the ways we continue to need images of dead and deadly Romantic beasts *The Mourning Dove's Message* Nancy Larsen-Sanders, 2012-10 Deborah Jorgenson is just four years old when she witnesses racism for the first time Unfortunately the hatred is directed at her Born to Swedish parents in Minnesota in the early 1900s Deborah believes her dark hair and skin come from a great grandmother When a fellow student bullies her and tells her she is an Indian Deborah wonders why Taught by her elderly Hopi Indian mentor to solve all her problems without resorting to violence the

Children's Dreams C. G. Jung,2012-01-12 In the 1930s C G Jung embarked upon a bold investigation into childhood dreams as remembered by adults to better understand their significance to the lives of the dreamers Jung presented his findings in a four year seminar series at the Swiss Federal Institute of Technology in Zurich Children s Dreams marks their first publication in English and fills a critical gap in Jung s collected works Here we witness Jung the clinician more vividly than ever before and he is witty impatient sometimes authoritarian always wise and intellectually daring but also a teacher who though brilliant could be vulnerable uncertain and humbled by life s great mysteries These seminars represent the most penetrating account of Jung s insights into children s dreams and the psychology of childhood At the same time they offer the best example of group supervision by Jung presenting his most detailed and thorough exposition of Jungian dream analysis and providing a picture of how he taught others to interpret dreams Presented here in an inspired English translation commissioned by the Philemon Foundation these seminars reveal Jung as an impassioned educator in dialogue with his students and developing the practice of analytical psychology An invaluable document of perhaps the most important psychologist of the twentieth century at work this splendid volume is the fullest representation of Jung s views on the interpretation of children s dreams and signals a new wave in the publication of Jung s collected works as well as a renaissance in contemporary Jung studies
