Downsizing Detroit Narasimhan P. Kannan, Kathy K. Rebibo, Donna L. Ellis, 1982 *Downsizing Detroit* Narasimhan P. Kannan, Kathy K. Rebibo, Donna L. Ellis, 1982 **Bulletin of the United States Bureau of Labor Statistics** ,1990

Bulletin of the Bureau of Labor Statistics ,1990 Working for the Japanese Joseph J. Fucini, 2008-06-30 This book is an exploration into the relations between Americans and Japanese at the Mazda Flat Rock plant The presence of Japan Inc looms larger than ever for millions of American managers and workers as hundreds of Japanese companies open plants and offices in local communities across the United States What is it like to work for the Japanese Can Americans with their strong tradition of individualism adjust to a Japanese team system that emphasizes harmony and close cooperation How do Americans and Japanese resolve the misunderstandings that arise from differences in language and culture Journalists Joseph and Suzy Fucini sought the answers by studying relations between Americans and Japanese at the Mazda plant in Flat Rock Michigan the first wholly owned Japanese auto plant to employ a unionized American workforce For three years the Fucinis followed events at the plant interviewing more than one hundred workers managers and outside suppliers The authors conclude that for all its strengths the team system requires the sacrifice of individual interests to the good of the group and that no matter how hard an individual tries to become part of the Mazda team advancement for both managers and workers will be limited by the fact that they are not Japanese Rival Capitalists Jeffrey A. Hart, 2018-08-06 Great Britain France Germany and Japan Surveying the development of the steel automobile and semiconductor industries in each of these countries Jeffrey A Hart illuminates the role of national policy in a changing world Hart describes the global structure of production and consumption in the five major capitalist countries and offers a rich comparative history of their industrial policymaking He concludes that variations in statesocietal arrangements and the impact these differences have on the creation and diffusion of new technologies provide the best explanation for divergences in international competitiveness In Japan state and business are allied but labor is marginalized whereas in Germany labor and business are allied and the state is decentralized Yet both countries have become increasingly competitive because they have developed institutional mechanisms for technology diffusion France s state led system in contrast is linked with only moderate competitiveness The decline of competitiveness in the United States and Britain Hart concludes may be attributed to state societal arrangements that have allowed one actor labor in Britain business in the United States to dominate policymaking Rival Capitalists will be an invaluable source for policymakers and business analysts as well as scholars and students of political economy international relations industrial organization industrial sociology and comparative politics **Productivity** ,1990
