**Land of Sunshine, State of Dreams** Gary R Mormino, 2008-09-01 Florida is a story of astonishing growth a state swelling from 500 000 residents at the outset of the 20th century to some 16 million at the end As recently as mid century on the eve of Pearl Harbor Florida was the smallest state in the South At the dawn of the millennium it is the fourth largest in the country a megastate that was among those introducing new words into the American vernacular space coast climate control growth management retirement community theme park edge cities shopping mall boomburbs beach renourishment Interstate and Internet Land of Sunshine State of Dreams attempts to understand the firestorm of change that erupted into modern Florida by examining the great social cultural and economic forces driving its transformation Gary Mormino ranges far and wide across the landscape and boundaries of a place that is at once America s southernmost state and the northernmost outpost of the Caribbean From the capital Tallahassee a day s walk from the Georgia border to Miami a city distant but tantalizingly close to Cuba and Haiti Mormino traces the themes of Florida s transformation the echoes of old Dixie and a vanishing Florida land booms and tourist empires revolutions in agriculture technology and demographics the seductions of the beach and the dynamics of a graying population and the enduring but changing meanings of a dreamstate Beneath the iconography of popular culture is revealed a complex and complicated social framework that reflects a dizzying passage from New Spain to Old South New South to Sunbelt

*Drive-By* Gary Rivlin, 2014-09-30 Although the dreadful toll of random violence is often reported rarely do we glimpse the human element behind it News reports keep the tally of homicides but as the occurrence of such violence increases so does its facelessness Drive by shootings are almost definitively anonymous there are no fingerprints no fibers no hairs nor any other telltale clues typical of most crime scenes There is usually no hard evidence beyond ballistics and a car description so generic it is virtually useless In *Drive By* Gary Rivlin penetrates the anonymity of one such incident and creates an extraordinary portrait of the people entangled in it He takes us behind the headlines and through bold investigative reporting finds the individuals so often left out of the story In this real life narrative we meet the teens who on Sunday the eighth of July were involved in a scuffle over a bicycle and on the ninth became murderers and victims By presenting the story of this murder in human terms Rivlin challenges the stereotypes and indifference that allow the problem of inner city violence to escalate

**Boardwalk of Dreams** Bryant Simon, 2004-07-29 During the first half of the twentieth century Atlantic City was the nation s most popular middle class resort the home of the famed Boardwalk the Miss America Pageant and the board game Monopoly By the late 1960s it had become a symbol of urban decay and blight compared by journalists to bombed out Dresden and war torn Beirut Several decades and a dozen casinos later Atlantic City is again one of America s most popular tourist spots with thirty five million visitors a year Yet most stay for a mere six hours and the highway has replaced the Boardwalk as the city s most important thoroughfare Today the city doesn t have a single movie theater and its one supermarket is a virtual fortress protected by metal detectors and

security guards In this wide ranging book Bryant Simon does far more than tell a nostalgic tale of Atlantic City's rise near death and reincarnation He turns the depiction of middle class vacationers into a revealing discussion of the boundaries of public space in urban America In the past he argues the public was never really about democracy but about exclusion During Atlantic City's heyday African Americans were kept off the Boardwalk and away from the beaches The overly boisterous or improperly dressed were kept out of theaters and hotel lobbies by uniformed ushers and police The creation of Atlantic City as the Nation's Playground was dependent on keeping undesirables out of view unless they were pushing tourists down the Boardwalk on rickshaw like rolling chairs or shimmying in smoky nightclubs Desegregation overturned this racial balance in the mid 1960s making the city's public spaces more open and democratic too open and democratic for many middle class Americans who fled to suburbs and suburban style resorts like Disneyworld With the opening of the first casino in 1978 the urban balance once again shifted creating twelve separate heavily guarded glittering casinos worlds walled off from the dilapidated houses boarded up businesses and lots razed for redevelopment that never came Tourists are deliberately kept away from the city's grim reality and its predominantly poor African American residents Despite ten of thousands of buses and cars rolling into every day gambling has not saved Atlantic City or returned it to its glory days Simon's moving narrative of Atlantic City's past points to the troubling fate of urban America and the nation's cultural trajectory in the twentieth century with broad implications for those interested in urban studies sociology planning architecture and history

**Material Dreams** Kevin Starr, 1990 In *Material Dreams* Starr turns to one of the most vibrant decades in the Golden State's history the 1920s when some two million Americans migrated to California the vast majority settling in or around Los Angeles Although he treats readers to intriguing side trips to Santa Barbara and Pasadena Starr focuses here mainly on Los Angeles revealing how this major city arose almost defiantly on a site lacking many of the advantages required for urban development creating itself out of sheer will the Great Gatsby of American cities He describes how William Ellsworth Smyth the Peter the Hermit of the Irrigation Crusade propounded the importance of water in Southern California's future and how such figures as the self educated Irish engineer William Mulholland who built the main aqueducts to Los Angeles and George Chaffey who diverted the Colorado River transforming desert into the lush Imperial Valley brought life supporting water to the arid South He examines the discovery of oil Yes it's oil oil oil that makes LA boil went the official drinking song of the Uplifters Club the boosters and land developers the evangelists such as Bob Shuler the Methodist Savanarola of Los Angeles and Aimee Semple McPherson and countless other colorful figures of the period There are also fascinating sections on the city's architecture such as the remarkably innovative Bradbury Building and its eccentric neophyte designer George Wyman the impact of the automobile on city planning the great antiquarian book collections the Hollywood film community and much more By the end of the decade Los Angeles had tripled in population and become the fifth largest city in the nation In *Material Dreams* Kevin Starr captures this explosive growth in a narrative tour de force that combines wide ranging scholarship with captivating prose
