Dr Franklins Island:

Dr Franklin's Island Ann Halam, 2010-12-30 What s it like to see your friend transformed into a raven before your very eyes and to know it s your turn next How does it feel to morph into a manta ray or slide into the body of a snake This is what happens to Miranda Semi and Arnie three friends who are the sole survivors of a plane crash They find themselves on a tropical island of azure waters and white sands But beyond the palm fringed beaches lies the hospital run by the sinister Dr Franklin and the three teenagers are about to become his next patients Perfect candidates for his experiments in genetic engineering A horrifying fascinating story that is Ann Halam s most unusual and challenging novel so far *Dr. Franklin's Island* Ann Halam, 2003-08-01 When their plane crashes over the Pacific Ocean three science students are left stranded on a tropical island and then imprisoned by a doctor who is performing horrifying experiments on humans involving the transfer of animal genes Science Fact and Science Fiction Brian M. Stableford, 2006 Publisher description Wells Meets Deleuze Michael Starr, 2017-05-21 The writings of H G Wells have had a profound influence on literary and cinematic depictions of the present and the possible future and modern science fiction continues to be indebted to his scientific romances such as *The Time Machine* *The War of the Worlds* and *The Island of Doctor Moreau* Interpreted and adapted for more than a century Wells s texts have resisted easy categorization and are perennial subjects for emerging critical and theoretical perspectives The author examines Wells s works through the post structuralist philosophy of Gilles Deleuze Via this critical perspective concepts now synonymous with science fiction such as time travel alien invasion and transhumanism demonstrate the intrinsic relevance of Wells to the genre and contemporary thought *Literary Afterlife* Bernard A. Drew, 2010-03-08 This is an encyclopedic work arranged by broad categories and then by original authors of literary pastiches in which fictional characters have reappeared in new works after the deaths of the authors that created them It includes book series that have continued under a deceased writer s real or pen name undisguised offshoots issued under the new writer s name posthumous collaborations in which a deceased author s unfinished manuscript is completed by another writer unauthorized pastiches and biographies of literary characters The authors and works are entered under the following categories Action and Adventure Classics 18th Century and Earlier Classics 19th Century Classics 20th Century Crime and Mystery Espionage Fantasy and Horror Humor Juveniles 19th Century Juveniles 20th Century Poets Pulps Romances Science Fiction and Westerns Each original author entry includes a short biography a list of original works and information on the pastiches based on the author s characters **Extreme Fabulations** Steven Shaviro, 2021-08-03 An examination of science fiction narratives and the light they shed on human life the unknowable future and the vagaries of unforeseeable change With this book Steven Shaviro offers a thought experiment He discusses a number of science fiction narratives three novels one novella three short stories and one musical concept album Shaviro not only analyzes these works in detail but also uses them to ask questions about human and more generally biological life about its stubborn insistence and yet fragility about the

possibilities and perils of seeking to control it about the aesthetic and social dimensions of human existence in relation to the nonhuman and about the ethical value of human life under conditions of extreme oppression and devastation Shaviro pursues these questions through the medium of science fiction because this form of storytelling offers us a unique way of grappling with issues that deeply and unavoidably concern us but that are intractable to rational argumentation or to empirical verification The future is unavoidably vague and multifarious it stubbornly resists our efforts to know it in advance let alone to guide it or circumscribe it But science fiction takes up this very vagueness and indeterminacy and renders it into the form of a self consciously fictional narrative It gives us characters who experience and respond to the vagaries of unforeseeable change Life of Benjamin Franklin, Written by Himself Benjamin Franklin, 1875 The Victorian Era in Twenty-First Century Children's and Adolescent Literature and Culture Sonya Sawyer Fritz, Sara K. Day, 2018-01-19 Victorian literature for audiences of all ages provides a broad foundation upon which to explore complex and evolving ideas about young people In turn this collection argues contemporary works for young people that draw on Victorian literature and culture ultimately reflect our own disruptions and upheavals particularly as they relate to child and adolescent readers and our experiences of them The essays therein suggest that we struggle now as the Victorians did then to assert a cohesive understanding of young readers and that this lack of cohesion is a result of or a parallel to the disruptions taking place on a larger even global scale

Parabolas of Science Fiction Brian Atterby, Veronica Hollinger, 2013-10-21 Essays about the inherently collaborative nature of science fiction As a geometric term parabola suggests a narrative trajectory or story arc In science fiction parabolas take us from the known to the unknown More concrete than themes more complex than motifs parabolas are combinations of meaningful setting character and action that lend themselves to endless redefinition and jazzlike improvisation The fourteen original essays in this collection explore how the field of science fiction has developed as a complex of repetitions influences arguments and broad conversations This particular feature of the genre has been the source of much critical commentary most notably through growing interest in the sf megatext a continually expanding archive of shared images situations plots characters settings and themes found in science fiction across media Contributors include Jane Donawerth Terry Dowling L Timmel Duchamp Rachel Haywood Ferreira Pawel Frelik David M Higgins Amy J Ransom John Rieder Nicholas Ruddick Graham Sleight Gary K Wolfe and Lisa Yaszek **Castaway Tales** Christopher Palmer, 2016-05-10 A wide ranging and appreciative literary history of the castaway tale from Defoe to the present Ever since Robinson Crusoe washed ashore the castaway story has survived and prospered inspiring a multitude of writers of adventure fiction to imitate and adapt its mythic elements In his brilliant critical study of this popular genre Christopher Palmer traces the castaway tales history and changes through periods of settlement violence and reconciliation and across genres and languages Showing how subsequent authors have parodied or inverted the castaway tale Palmer concentrates on the period following H G Wells's *The Island of Dr Moreau* These much darker visions are seen in later novels including William Golding's

Lord of the Flies J G Ballard s Concrete Island and Iain Banks s The Wasp Factory In these and other variations the castaway becomes a cannibal the castaway s island is relocated to center of London female castaways mock the traditional masculinity of the original Crusoe or Friday ceases to be a biddable servant By the mid twentieth century the castaway tale has plunged into violence and madness only to see it return in young adult novels such as Scott O Dell s Island of the Blue Dolphins and Terry Pratchett s Nation to the buoyancy and optimism of the original The result is a fascinating series of revisions of violence and pessimism but also reconciliation
