## **Doomsday Plus Twelve:**

**Doomsday Plus Twelve** James D. Forman, 1984-01-01 In the year 2000 twelve years after the world nuclear holocaust known as Doomsday a group of Oregon teenagers accustomed to a new simple peaceful way of life take matters into their own hands to combat militarists and assure the peace of the future *Race, Ethnicity and Nuclear War* Paul Williams, 2011-10-18 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library Ranging across novels and poetry critical theory and film comics and speeches *Race Ethnicity and Nuclear War Representations of Nuclear Weapons and Post Apocalyptic Worlds* explores how writers thinkers and filmmakers have answered the following question are nuclear weapons white Many texts respond in the affirmative and arraign nuclear weapons for defending a racial order that privileges whiteness They are seen as a reminder that the power enjoyed by the white western world imperils the whole of the Earth Furthermore the struggle to survive during and after a speculated nuclear attack is often cast as a contest between races and ethnic groups *Race Ethnicity and Nuclear War* listens to voices from around the Anglophone world and the debates followed do not only take place on the soil of the nuclear powers Filmmakers and writers from the Caribbean Australia and India take up positions shaped by their specific place in the decolonizing world and their particular experience of nuclear weapons The texts considered in *Race Ethnicity and Nuclear War* encompass the many guises of representations of nuclear weapons the Manhattan Project that developed the first atomic weapons the destruction of Hiroshima and Nagasaki nuclear tests taking place around the world and the anxiety surrounding the superpowers devastating arsenals Of particular interest to SF scholars are the extensive analyses of films novels and short stories depicting nuclear war and its aftermath New thoughts are offered on the major texts that SF scholars often return to such as Philip Wylie's *Tomorrow* and Pat Frank's *Alas Babylon* and a host of little known and under researched texts are scrutinized too *Children and Cultural Memory in Texts of Childhood* Heather Snell, Lorna Hutchison, 2013-11-07 The essays in this collection address the relationship between children and cultural memory in texts both for and about young people The collection overall is concerned with how cultural memory is shaped contested forgotten recovered and re circulated sometimes in opposition to dominant national narratives and often for the benefit of young readers who are assumed not to possess any prior cultural memory From the innovative development of school libraries in the 1920s to the role of utopianism in fixing cultural memory for teen readers it provides a critical look into children and ideologies of childhood as they are represented in a broad spectrum of texts including film poetry literature and architecture from Canada the United States Japan Germany Britain India and Spain These cultural forms collaborate to shape ideas and values in turn contributing to dominant discourses about national and global citizenship The essays included in the collection imply that childhood is an oft imagined idealist construction based in large part on participation identity and perception childhood is invisible and tangible exciting and intriguing and at times elusive even as cultural and literary artifacts recreate it Children

and Cultural Memory in Texts of Childhood is a valuable resource for scholars of children's literature and culture readers interested in childhood and ideology and those working in the fields of diaspora and postcolonial studies     Bulletin of the Atomic Scientists ,1988-07 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world     *The Continuum Encyclopedia of Children's Literature* Bernice E. Cullinan,Diane Goetz Person,2005-01-01 Provides articles covering children's literature from around the world as well as biographical and critical reviews of authors including Avi C S Lewis J K Rowling and Anno Mitsumasa     **The Big Bang** James D. Forman,1989 As he relates the events leading up to the terrible accident that kills his wild and much admired older brother and seven friends Chris as the lone survivor tries to sort out his confused feelings of guilt grief and anger and to better understand the kind of person his brother really was     **Values in Selected Children's Books of Fiction and Fantasy** Carolyn W. Field,Jaqueline Shachter Weiss,1987 Provides an annotated list of children's fiction dealing with the themes of cooperation courage friendship and loyalty     Bulletin of the Atomic Scientists ,1988-07 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world     **Best Sellers** ,1985     *Best Books for Junior High Readers* John T. Gillespie,1991 Provides an annotated listing of recommended reading material for students in grades seven through nine     **Nuclear Holocausts** Paul Brians,1987 The anxiety caused by the thought of nuclear war causes some people to avoid the topic altogether some to despair and others to place unwarranted confidence in scientific or governmental control However the vivid characters and realistic settings of fiction can bring home the impact of a nuclear war in a way that makes the topic difficult to avoid and allows readers to confront their fears and phobias This bibliography study is the only compilation of its kind to deal exclusively with nuclear war in fiction The first five chapters provide a historical survey of the development of the nuclear war theme and a study of the causes and aftermath of nuclear war as treated in literature In addition Brians considers the significant failure of some works to confront the subject and the success of others as educational tools With a clear focus on the subject of war this work does not deal with such related topics as nuclear accidents reactor disasters or near war situations The bulk of the book is given over to the detailed annotated bibliography which consists of over 800 entries with associated checklists Intended to provide scholars librarians and general readers with ready access to a great variety of information about his body of writing the bibliography lists both hardcover and paper editions of books and the reprinting of each short story and corrects several errors in other standard reference works In his critical analysis and through the annotations in the bibliography Brians attempts to improve our understanding of cultural attitudes toward the dangers posed by the ever present reality of nuclear weaponry Jacket

**Doomsday Bunker Book** Ben Jakob,2014-11-01 We all have heard of people talking pontificating and preaching about a

doomsday or have watched the TV show Doomsday Preppers We have heard people called Preppers or What Iffers People have been talking about some sort of End of the World scenario for decades Even the United States government has many bunkers around the country some of which have been purchased by ordinary citizens preppers Some of us are concerned something may happen sooner rather than later I have heard more and more people talking about the possibility of an imminent disaster Some people worry about different possible scenarios For example economic collapse societal collapse civil unrest electromagnetic pulse weather destruction war fire nuclear attacks terrorist attacks fuel shortages pandemics geomagnetic reversal etc Sixty one percent of Americans believe some sort of doomsday will happen within the next twenty years Sixty percent of Americans believe there will be economic collapse within the next fifteen years Many people are preparing for the scenarios of which they are concerned It is estimated in the United States of America approximately ten percent of the population are preppers to one degree or another No one knows if or when one or more calamities will occur There is no way to predict a specific occurrence or time factor and my crystal ball broke so I cannot help with your prognostication The best we can do is to prepare for any eventuality This is why I personally and many others believe a concrete bunker is the best idea Some people are planning for an aboveground bunker and some are interested in an underground bunker In this book we are going to be discussing both in great detail As I will explain this type of bunker will give you the best protection possible for the most scenarios One need not be a conspiracy theorist to be apprehensive People may think Doomsday preppers or What ifers as we are often called are Nut jobs However when TSHTF we will be the ones who others will come to since we will be the ones who are prepared
