DoOon Mode Piers Anthony, 2001-04-14 Colene must travel back to her home on Earth to confront her past and prepare for her battle with a mind monster sent by Emperor Ddwng , Three Modes of Perception in Mozart Edmund J. Goehring, 2004-11-11 This 2004 book is a full length scholarly study of what is widely regarded as Mozart s most enigmatic opera and Lorenzo Da Ponte s most erudite text Against the long standing judgement that the opera uses a misguided confidence in reason to traduce feeling Goehring s study shows how *Così* affirms comedy s regenerative powers and its capacity to grant access to modes of sympathy and understanding that are otherwise inaccessible In making this argument the book surveys a rich literary operatic and intellectual territory It offers fresh perspective on the relationships between text and tone in the opera on the tension between comedy and philosophy and its representation in stage works and on the pastoral mode which the opera uses in subtle ways Throughout Goehring s argument is sustained by close readings of primary sources many of them little known and is richly illustrated with musical examples

You Don't Really Know Me Terri Apter, 2015-05-27 Understand what your teenage daughter really means and learn to use your arguments to strengthen your bond with her Mothers and teenage daughters argue more than any other child parent pair on average every two and a half days These quarrels Terri Apter shows are attempts to negotiate changes in a relationship that is valued by both mothers and daughters A daughter often feels her mother doesn t know or understand her and by fighting hopes to force her mother into a new awareness of who she really is how she has changed and what she is now capable of doing and understanding But mothers often misinterpret their daughter s outbursts as signs of rejection and they may pull back feeling hurt and confused Through case studies and conversations between mothers and daughters Apter shows mothers how to interpret the meanings behind a daughter s angry words and how to emerge from arguments with a new closeness
