Dos Mundos Tracy D. Terrell, 1999 *Dos Mundos* Terrell, 1997-11 **Forthcoming Books** Rose Arny, 2002

Children's Books in Print, 2007, 2006 American Book Publishing Record, 2004 **Trail of Footprints** Alex

Hidalgo, 2019-07-12 *Trail of Footprints* offers an intimate glimpse into the commission circulation and use of indigenous maps from colonial Mexico. A collection of one hundred largely unpublished maps from the late sixteenth to the eighteenth centuries made in the southern region of Oaxaca anchors an analysis of the way ethnically diverse societies produced knowledge in colonial settings. Mapmaking proposes Hidalgo formed part of an epistemological shift tied to the negotiation of land and natural resources between the region's Spanish Indian and mixed race communities. The craft of making maps drew from social memory indigenous and European conceptions of space and ritual and Spanish legal practices designed to adjust spatial boundaries in the New World. Indigenous mapmaking brought together a distinct coalition of social actors: Indian leaders, native towns, notaries, surveyors, judges, artisans, merchants, muleteers, collectors, and painters who participated in the critical observation of the region's geographic features. Demand for maps reconfigured technologies associated with the making of colorants, adhesives, and paper that drew from Indian botany and experimentation trans-Atlantic commerce and Iberian notarial culture. The maps in this study reflect a regional perspective associated with Oaxaca's decentralized organization, its strategic position amidst a network of important trade routes that linked central Mexico to Central America, and the ruggedness and diversity of its physical landscape.

Europe and Latin America Peter R. Beardsell, 2000. This book discusses the development of dissident Irish republicanism and considers its impact on politics throughout Ireland since the 1980s. Based on a series of interviews with over ninety radical republican activists from the wide range of groups and currents which make up dissident republicanism, the book provides an up-to-date assessment of the political significance and potential of the groups who continue to oppose the peace process and the Good Friday Agreement. It shows that the dissidents are much more than traditionalist irreconcilables left behind by Gerry Adams' entry into the mainstream. Instead, the book suggests that the dynamics and trajectory of dissident republicanism are shaped more by contemporary forces than historical tradition, and that by understanding the dissidents we can better understand the emerging forms of political challenge in an age of austerity and increasing political instability internationally.

Exotic Nation Barbara Fuchs, 2011-12-30. In the Western imagination, Spain often evokes the colorful culture of al-Andalus, the Iberian region once ruled by Muslims. Tourist brochures inviting visitors to sunny and romantic Andalusia, home of the ingenious gardens and intricate arabesques of Granada's Alhambra Palace, are not the first texts to trade on Spain's relationship to its Moorish past. Despite the fall of Granada to the Catholic Monarchs in 1492 and the subsequent repression of Islam in Spain, Moorish civilization continued to influence both the reality and the perception of the Christian nation that emerged in place of al-Andalus. In *Exotic Nation*, Barbara Fuchs explores the paradoxes in the cultural construction of Spain in relation to its

Moorish heritage through an analysis of Spanish literature costume language architecture and chivalric practices Between 1492 and the expulsion of the Moriscos Muslims forcibly converted to Christianity in 1609 Spain attempted to come to terms with its own Moorishness by simultaneously repressing Muslim subjects and appropriating their rich cultural heritage Fuchs examines the explicit romanticization of the Moors in Spanish literature often referred to as literary maurophilia and the complex often silent presence of Moorish forms in Spanish material culture The extensive hybridization of Iberian culture suggests that the sympathetic depiction of Moors in the literature of the period does not trade in exoticism but instead reminded Spaniards of the place of Moors and their descendants within Spain Meanwhile observers from outside Spain recognized its cultural debt to al Andalus often deliberately casting Spain as the exotic racial other of Europe **Billboard**, 2010-01-09 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends **Guillermo Calles** Rogelio Agrasánchez, Jr., 2014-01-10 In 1912 Guillermo Calles 1893 1958 became the first Mexican actor to appear in films made in California Despite limited resources he began directing and producing his own movies and in 1929 pioneered production of Spanish language sound films His major works among them the long unavailable *El indio yaqui* and *Raza de bronce* both 1927 represented Calles tireless crusade to restore the image of Mexicans and Indians in an era dominated by Hollywood stereotypes This biography traces Calles career from his earliest Hollywood days through the 1950s Included are the only surviving images of the filmmaker's silent productions a closing commentary on his intimate circle of relatives and an appendix featuring two fascinating letters written by Calles during a filming trip *Indice Historico Espanol* Universidad de Barcelona. The Forgotten Diaspora Peter Mark,José da Silva Horta,2013-07-31 This book traces the history of early seventeenth century Portuguese Sephardic traders who settled in two communities on Senegal's Petite Côte. There they lived as public Jews under the spiritual guidance of a rabbi sent to them by the newly established Portuguese Jewish community in Amsterdam. In Senegal the Jews were protected from agents of the Inquisition by local Muslim rulers. The Petite Côte communities included several Jews of mixed Portuguese African heritage as well as African wives, offspring and servants. The blade weapons trade was an important part of their commercial activities. These merchants participated marginally in the slave trade but fully in the arms trade, illegally supplying West African markets with swords. This blade weapons trade depended on artisans and merchants based in Morocco, Lisbon and northern Europe and affected warfare in the Sahel and along the Upper Guinea Coast. After members of these communities moved to the United Provinces around 1620 they had a profound influence on relations between black and white Jews in Amsterdam. The study not only discovers previously unknown Jewish communities but by doing so offers a reinterpretation of the dynamics and processes of identity construction throughout the Atlantic world.

De l'imposture à la création David Alvarez Roblin,2014-11-14 L'ambition de ce livre est de proposer un regard nouveau sur le Guzmán de Alfarache et le Quichotte. Il adopte pour cela un angle d'attaque singulier qui consiste à étudier ces deux chefs d'œuvre du Siècle d'or en regard de leurs Seconde parties apocryphes. Les Premières parties du Guzmán et du Quichotte ont en effet donné lieu des continuations d'autres auteurs parues respectivement Valence en 1602 et Tarragone en 1614, alors qu'Alemany et Cervantes préparaient eux-mêmes des suites de leurs romans. Si de ce fait l'entreprise littéraire de ces écrivains concurrents s'apparente une imposture, elle comporte cependant une part remarquable de création. Luján et Avellaneda introduisent tous deux des innovations qui ne sont pas des maladroites ou des erreurs. De surcroît leurs projets romanesques stimulent la créativité des auteurs originaux qui sont contraints de remanier voire de recréer leurs propres Seconde parties. C'est la fécondité et la richesse de ces différentes interactions romanesques que cet ouvrage aimerait mettre en lumière.
