Dostoyevsky in the Face of Death Julia Kristeva,2023-12-19 Julia Kristeva has

been both attracted and repelled by Dostoyevsky since her youth In this extraordinary book by turns poetic and intensely personal she brings her unique critical sensibility to bear on the tormented and visionary Russian author Kristeva ranges widely across Dostoyevsky s novels and his journalism plunging deep into the great works and many of the smaller ones to investigate her fascination with the Russian author What emerges is a luminous vision of the writer s achievements seen in a wholly new way through Kristeva s distinctive perspective on language With her keen psychoanalytical eye she offers brilliant insights into the passionate heroines of the great novels Focusing on Dostoyevsky s polyphonic writing Kristeva also demonstrates the importance of Orthodox Christianity throughout his body of work analyzing the complex ways his carnivalesque theology informs his fiction and commentary An original and profound interpretation of one of the nineteenth century s greatest writers this book s insights are also relevant to the twentieth and twenty first centuries up to our unsettled present to which Kristeva s humane reading of the suffering Russian author brings understanding and even solace

Portrait of the Psychiatrist as a Young Man Allan Beveridge,2011-08-25 RD Laing remains one of the most famous psychiatrists of the last 50 years In the 1960s he enjoyed enormous popularity and received much publicity for his controversial views challenging the psychiatric orthodoxy He championed the rights of the patient and challenged the often inhumane methods of treating the mentally ill Based on a wealth of previously unexamined archives relating to his private papers and clinical notes Portrait of the Psychiatrist as a Young Man sheds new light on RD Laing and in particular his early formative years a crucial but largely overlooked period in his life The first half of the book considers Laing s intellectual journey through the world of ideas and his development as a psychiatric theorist An analysis of his notebooks and personal library reveals Laing s engagement not only with psychiatric theory but also with a wide range of other disciplines such as philosophy literature and religion This part of the book considers how this shaped Laing s writing about madness and his evolution as a clinician The second half draws on a rich and completely unexplored collection of Laing s clinical notes which detail his encounters with patients in his early years as a psychiatrist firstly in the British Army subsequently in the psychiatric hospitals of Glasgow and finally in the Tavistock Clinic in London These notes reveal what Laing was actually doing in clinical practice and how theory interacted with therapy The majority of patients who were to appear in Laing s first two books The Divided Self and The Self and Others have been identified from these records and this volume provides a fascinating account of how the published case histories compare to the original notes There is a considerable mythology surrounding Laing partly created by himself and partly by subsequent commentators By a careful examination of primary sources Allan Beveridge both a psychiatrist and an historian examines the many mythological narratives about Laing and

provide a critical but not unsympathetic account of this colourful and contradictory thinker who addressed questions about the nature of madness which are still being asked today This book will be of interest to mental health workers and social historians alike as well as anybody interested in the philosophy of psychiatry

Dostoyevsky's Critique of the West Bruce K. Ward,2010-10-30 Not much attention has been given to Dostoyevsky s concern with the crisis of the modern West although allusions to almost every aspect of Western civilization including the political economic and social dimensions are present in his literary works and abound in his secondary writings This book points the way to a better understanding of the apparent contradiction between Dostoyevsky s concern with the highest reaches of human spirituality and at the same time with the most detailed developments in domestic and international politics Ward argues that the apparent polarization of religious thought and political analysis of the West are held together for Dostoyevsky in his search for the best human order He

demonstrates not only that Dostoyevsky's observations about the West constitute a coherent critique intimately related to the deepest aspects of his thought but also that these can be rendered more systematic and explicit. What results is an incisive account of both the religious and the political thought of Dostoyevsky which helps clarify what Dostoyevsky can teach us about the modern situation of the Western world and about the problem of human order in general for as the author states it was Dostoyevsky's great virtue as a thinker always to see the pressing issues of his particular time and place in the light of the everlasting problems.
