**Texts** Sarah M. Lupo, Dan Reynolds, Christine Hardigree, 2024-11-20 Filling a crucial need this book provides concrete ways to support all students in grades 6-12 as they engage with rigorous grade level texts in English language arts, science, and social studies. The authors offer fresh insights into adolescent reading and what makes a given text tough, including knowledge demands, text structure and complexity, vocabulary, and more. Research-based, step-by-step strategies are presented for explicitly scaffolding these challenges in the context of purposeful learning activities that leverage students' individual strengths and interests. The book includes planning tips, text selection guidelines, sample text sets, and vivid case studies from culturally and linguistically diverse classrooms. Fourteen reproducible forms and handouts can be photocopied or downloaded for use with students. *The Educational Times*, and *Journal of the College of Preceptors*, 1895 *The Journal of Education*, 1895 *Teaching to Diversity* Jennifer Katz, 2012 In *Teaching to Diversity* Dr. Jennifer Katz synthesizes the research and 16 years' experience of teaching in inclusive classrooms and schools to provide answers to several questions: How do I make inclusion work for ALL students? What are the foundational best practices of a truly inclusive learning community? How does one create such a community? The author pulls together in an organized way a three-block model of universal design for learning (UDL) and suggests a step-by-step approach for implementing it. This framework includes Block One: Social and Emotional Learning, details ways to build compassionate learning communities K-12 in which all students feel safe and valued and develop a positive self-concept, sense of belonging, and respect for diverse others; Block Two: Inclusive Instructional Practice, includes a framework for planning units from K-12 and explains instructional and management practices for teaching, assessing, grading, and reporting in UDL classrooms; Block Three: Systems and Structures, suggests strategies for creating inclusive learning communities and explores ways in which resource teachers, student services personnel, and school administrators can support and create socially and academically inclusive schools and classrooms. The three-block model of UDL can empower educators with the knowledge, skills, and confidence required to teach diverse learners in the same classroom, including those who have previously been excluded. Ultimately, it is about creating classrooms and schools that heal by teaching to the heart, mind, and spirit of every student. *Journal of Education and School World*, 1895 *New York School Journal*, 1894 *The School Journal*, 1906 **Ancient double-entry bookkeeping** J.B. **Power Tools** Jeanne Dyches, Ashley S. Boyd, Katherine Baker, Alex Kaulfuss, 2023-10-11 Virtually all national standards now require students and teachers to understand the particulars of disciplinary literacy. But recently emerging scholarship suggests that disciplinary literacy is by itself an incomplete and potentially problematic approach to secondary literacy instruction. By asking students to think like or even be like experts, students may receive implicit messaging about whose knowledge is and isn't valued. Critical disciplinary literacy (CDL) creates space for and highlights connections between critical

literacies and disciplinary literacies CDL acknowledges disciplines as unique communities with their own specialized and often exclusionary skills norms practices and discourses but deviates from conventional applications of disciplinary literacy by responding to the ways in which power systems and the analytic skills needed to understand them work differently based on the disciplines at hand A CDL instructional approach acknowledges that applying the critical literacy skills of reading the word and the world to understand the power dynamics of vaccine distributions requires a different skill set and strategy approach than looking at textual representations of masculinity in Romeo and Juliet Written by a team of educators with over 70 combined years of classroom experience Power Tools 30 Critical Disciplinary Literacy Strategies for 6 12 Classrooms offers readers research based multidisciplinary ready to implement disciplinary literacy strategies from critical literacy lenses The book sets itself apart from other strategy textbooks by offering creative strategy implementation that calls attention to power systems Educators can learn for example how they might employ read alouds to explore the global refugee crisis or use the exit ticket strategy to help students reflect on the relationship between race and COVID statistics experiences Power Tools 30 Critical Disciplinary Literacy Strategies for 6 12 Classrooms provides standards aligned lessons that both challenge and extend traditional engagement practices to build a more just world Each chapter includes An overview of each strategy situated within the research of best practices Two disciplinary examples for each CDL strategy e g an example of a CDL think aloud in seventh grade math and tenth grade ELA classroom Chapters provide resources such as examples of student work discussion prompts dialogue between teacher and students and reprintables Ideas for addressing resistance to CDL instruction Preservice and in service teachers as well as teacher educators and researchers looking to do and support justice oriented work in disciplinary spaces will find value in the book Power Tools is an ideal text to implement in courses such as Disciplinary Literacy Secondary Literacy Content Area Literacy Methods Strategies for Teaching Social Justice Multicultural Education ELA methods Science methods Social Studies methods and Mathematics methods
