Double Jeopardy Obsession Murder And Justice Denied:

Double Jeopardy Bob Hill, 1995 Obsession murder and justice denied Pirates, Prisoners, and Lepers Paul H. Robinson, Sarah M. Robinson, 2015-07-15 It has long been held that humans need government to impose social order on a chaotic dangerous world How then did early humans survive on the Serengeti Plain surrounded by faster stronger and bigger predators in a harsh and forbidding environment *Pirates Prisoners and Lepers* examines an array of natural experiments and accidents of human history to explore the fundamental nature of how human beings act when beyond the scope of the law Pirates of the 1700s the leper colony on Molokai Island prisoners of the Nazis hippie communes of the 1970s shipwreck and plane crash survivors and many more diverse groups they all existed in the absence of formal rules punishments and hierarchies Paul and Sarah Robinson draw on these real life stories to suggest that humans are predisposed to be cooperative within limits What these communities did and how they managed have dramatic implications for shaping our modern institutions Should today s criminal justice system build on people s shared intuitions about justice Or are we better off acknowledging this aspect of human nature but using law to temper it Knowing the true nature of our human character and our innate ideas about justice offers a roadmap to a better society Law without Justice Paul H. Robinson, Michael T. Cahill, 2005-12-01 If an innocent person is sent to prison or if a killer walks free we are outraged The legal system assures us and we expect and demand that it will seek to do justice in criminal cases So why for some cases does the criminal law deliberately and routinely sacrifice justice In this unflinching look at American criminal law Paul Robinson and Michael Cahill demonstrate that cases with unjust outcomes are not always irregular or unpredictable Rather the criminal law sometimes chooses not to give defendants what they deserve that is unsatisfying results occur even when the system works as it is designed to work The authors find that while some justice sacrificing doctrines serve their intended purpose many others do not or could be replaced by other better rules that would serve the purpose without abandoning a just result With a panoramic view of the overlapping and often competing goals that our legal institutions must balance on a daily basis *Law without Justice* challenges us to restore justice to the criminal justice system **Searching the Law, 3d Edition** Frank Bae, Edward Bander, Francis Doyle, Joel Fishman, Paul Richert, 2021-12-13 **Temple international and comparative law journal** , 2005 **Homicide** Bal K.
