Double Perspective Language Literacy And Social Relations:

The Double Perspective David Bleich, 1988 Examining the relationship between language and literacy and the societal experiences that help shape it this political and polemical book builds on the author's previous work in reader response criticism and challenges the now dominant assumption that language is an individual transaction independent of any social context Moving through a series of interrelated essays David Bleich explores topics including the social psychology of men which he maintains exerts undue influence on everyone's education conceptions of knowledge now offered by feminist epistemologists social conceptions of language and knowledge found in the work of G H Mead L S Vygotsky Ludwik Fleck and Mikhail Bakhtin the influence of gender on language use the views of current thinkers on the social character of the classroom and academic communities and the process of individual language development

Thiselton on Hermeneutics Anthony C. Thiselton, 2017-05-15 Hermeneutics is an interdisciplinary study of how we interpret texts especially biblical texts in the light of theories of understanding in philosophy meaning in literary theory and of theology This volume brings together the seminal thought of a leading contemporary pioneer in this field Thiselton's *The Two Horizons* was a classic on how horizons of biblical texts engage creatively with the horizons of the modern world The author's later *New Horizons in Hermeneutics* explored still more deeply the transforming capacities of biblical texts while his massive commentary on 1 Corinthians interpreted an epistle This volume collects many of Anthony Thiselton's more notable writings from some seven books and 70 articles to which he adds his own re appraisals of earlier work It uniquely expounds the thought of a major contemporary British theologian through his own words and includes his own critical assessments

Rhetorics, Poetics, and Cultures James A. Berlin, 2003 *Rhetorics Poetics and Cultures* is James Berlin's most comprehensive effort to refigure the field of English Studies Here in his last book Berlin both historically situates and recovers for today the tools and insights of rhetoric displaced and marginalized he argues by the allegedly disinterested study of aesthetic texts in the college English department Berlin sees rhetoric as offering a unique perspective on the current disciplinary crisis complementing the challenging perspectives offered by postmodern literary theory and cultural studies Taking into account the political and intellectual issues at stake and the relation of these issues to economic and social transformations Berlin argues for a pedagogy that makes the English studies classroom the center of disciplinary activities the point at which theory practice and democratic politics intersect This new educational approach organized around text interpretation and production not one or the other exclusively as before prepares students for work democratic politics and consumer culture today by providing a revised conception of both reading and writing as acts of textual interpretation it also gives students tools to critique the socially constructed politically charged reality of classroom college and culture This new edition of *Rhetorics Poetics and Cultures* includes JAC response essays by Linda Brodkey Patricia Harkin Susan Miller John Trimbur and Victor J Vitanza as well as an afterword by Janice M Lauer These essays situate Berlin's work in personal pedagogical and political contexts that

highlight the continuing importance of his work for understanding contemporary disciplinary practice Rhetoric in an Antifoundational World Professor Michael F Bernard-Donals, Michael F. Bernard-Donals, Richard R. Glejzer, 1998-01-01 In this brilliant collection literary scholars philosophers and teachers inquire into the connections between antifoundational philosophy and the rhetorical tradition What happens to literary studies and theory when traditional philosophical foundations are disavowed What happens to the study of teaching and writing when antifoundationalism is accepted What strategies for human understanding are possible when the weaknesses of antifoundationalism are identified This volume offers answers in classic essays by such thinkers as Richard Rorty Terry Eagleton and Stanley Fish and in many new essays never published before The contributors to this book explore the nexus of antifoundationalism and rhetoric critique that nexus and suggest a number of pedagogical and theoretical alternatives The editors place these statements into a context that is both critical and evaluative and they provide for voices that dissent from the antifoundational perspective and that connect specific practical pedagogies to the broader philosophical statements For those with an interest in rhetoric philosophy comparative literature or the teaching of composition this book sets forth a wealth of thought provoking ideas I have nothing but praise for this work a masterful treatment of the question What positive intellectual projects are possible within a world that radically questions the existence of philosophical foundations Steven Mailloux University of California Irvine The Kinneavy Papers Lynn Worsham, Sidney I. Dobrin, Gary A. Olson, 2000-04-20 Award winning essays in the field of rhetoric and composition **Physical Eloquence and the Biology of Writing** Robert Ochsner, 1990-01-01 As a statement about literacy this book recommends an approach to teaching writing that stresses the neurological foundations of written English mastered almost like a foreign language Physical eloquence refers to neurological processes of hand eye and ear that every writer must control in order to generate and simultaneously to interpret a written text Biology of writing refers to innate or otherwise untaught abilities that all people have for acquiring prose and which are not enhanced by formal learning Ochsner promotes a realistic writing curriculum that stresses subconscious processes in the biology of the writing process rather than planned rehearsed and formally practiced activities for learning to write He concludes that successful literacy instruction depends on a teacher's willingness to take into account the supremacy of popular culture and the ascendancy of its spoken idiom **The Frugal Chariot** Francis L. Fennell, 2023-12-06 If you love poetry this book is about you and for you It doesn't matter whether you are a scholar or a lover of beautiful poetry this book brings everyone together by responding to a current crisis the falling interest in and support for the humanities especially poetry This book argues that the most fruitful place to begin to reinvigorate literary reading and thus the humanities is with the close and careful attention to the experience of non academic readers This book explores their experiences listening carefully to what they have to say how they you respond to poetry why you love it The book shows in other words at least a partial cure for that falling interest in the humanities which gets so much attention in newspapers and on TV The book employs the poetry of Gerard Manley

Hopkins and lets him supply the illustrative material Hopkins is one of the seven most read poets in the English language but you do not have to know Hopkins well to understand the revolutionary approach to poetry and literary study that this book offers Handbook of Research on Reading Comprehension, Second Edition Susan E. Composition Classroom Xin Liu Gale,1996-01-04 Examines the teacher s role and the teacher s authority in postmodern academic settings **Methods and Methodology in Composition Research** Gesa Kirsch,Patricia A. Sullivan,1992 In original essays fourteen nationally known scholars examine the practical philosophical and epistemological implications of a variety of research traditions Included are discussions of historical theoretical and feminist scholarship case study and ethnographic research text and conversation analysis and cognitive experimental and descriptive research Issues that cross methodological boundaries such as the nature of collaborative research and writing methodological pluralism the classification and coding of research data and the politics of composition research are also examined Contributors reflect on their own research practices and so reflect the current state of composition research itself *A Bibliography on Writing and Written Language* Konrad Ehlich,Florian Coulmas,Gabriele Graefen,2011-06-01 The bibliography offers information on research about writing and written language over the past 50 years No comprehensive bibliography on this subject has been published since Sattler s 1935 handbook With a selection of some 27 500 titles it covers the most important literature in all scientific fields relating to writing Emphasis has been placed on the interdisciplinary organization of the bibliography creating many points of common interest for literacy experts educationalists psychologists sociologists linguists cultural anthropologists and historians The bibliography is organized in such a way as to provide the specialist as well as the researcher in neighboring disciplines with access to the relevant literature on writing in a given field While necessarily selective it also offers information on more specialized bibliographies In addition an overview of norms and standards concerning script and writing will prove very useful for non professional readers It is therefore also of interest to the generally interested public as a reference work for the humanities **The Education Feminism Reader** Lynda Stone,Gail Masuchika Boldt,1994 This anthology includes some of the most important and influential essays in feminist education theory since the late 70s Contributors are drawn from traditional liberal feminists radical postmodern theorists and those with

psychological philosophical and political agendas *New Horizons in Hermeneutics* Anthony C. Thiselton, 1992 This book explores the rapidly growing interdisciplinary area of hermeneutics and its significance for biblical studies combining wide fundamental rigorous and creative theoretical concerns with practical questions about how we read biblical texts *The Promise of Hermeneutics* Roger Lundin, Anthony C. Thiselton, Clarence Walhout, 1999 This work presents an engaging interdisciplinary study of the nature and scope of interpretation one of the most important areas of inquiry in today's postmodern world The three authors all acknowledged experts in the field bring the resources of the Bible Christian tradition and intellectual history to bear upon contemporary hermeneutical disputes Representing a complete revision of *The Responsibility of Hermeneutics* 1985 this substantially expanded volume has been brought up to date with recent work in hermeneutics and sets forth an important new perspective that shifts the interpretive focus from the past to the promise of the future Making use of the best insights from current theories about language interpretation and the nature of the self *The Promise of Hermeneutics* demonstrates how an encounter with contemporary interpretive theory can deepen the church's own hermeneutical practices The authors also show how the Christian faith can help move us beyond the many impasses created by postmodern thought **Psychological Biblical Criticism** D. Andrew Kille, 2001 This volume provides an introduction to psychological interpretations of the Hebrew Bible with the Garden of Eden story as a test case It approaches the text from Freudian Jungian and Developmental psychologies comparing and contrasting the different methods while taking on the hermeneutical issues Ricoeur's work is used to establish criteria for adequate interpretation Genesis 3 presents a fruitful text for psychological interpretation given its importance in Western culture Its themes of sexuality guilt consciousness and alienation are issues of great concern for everyone in our society Kille's aim is to locate psychological criticism within the field of biblical studies and to propose a hermeneutical framework for describing and evaluating psychological approaches The second part is devoted to analysis of different evaluations of Genesis 3 from the three chosen psychological perspectives **Rhetorical Power** Steven Mailloux, 2018-08-06 In this provocative and forcefully written book Steven Mailloux takes issue with the validity of a number of distinctions commonly made in contemporary literary theory and cultural studies distinctions between theory and history reader and text truth and ideology aesthetics and politics Mailloux first presents the case for a rhetorical hermeneutics and against foundationalist theories of interpretation Doing hermeneutic theory he argues entails doing rhetorical history By means of a detailed analysis of reader response criticism he highlights the connections between institutional politics and the interpretive rhetoric of academic literary criticism Mailloux then uses *Adventures of Huckleberry Finn* as an exemplary text Relating Mark Twain's rhetoric to the cultural politics of post Reconstruction debates about racist ideology he places his reader oriented interpretation within the rhetorical history of controversies over the meaning and value of *Huckleberry Finn* Finally in a far ranging study of cultural reception he juxtaposes the twentieth century concern about the topic of race in *Huckleberry Finn* with the nineteenth century audience's

very different concerns about juvenile delinquency and the bad boy boom In the final part of the book Mailloux restates his critique of foundationalist hermeneutics through readings of Ken Kesey Michel Foucault Edward Said and Richard Rorty and he concludes by examining the role of rhetoric and theory in a congressional dispute over the Reagan administration s reinterpretation of the Anti Ballistic Missile Treaty Rhetorical Power will be welcomed by readers in literary theory and American studies as well as in such fields as speech communication the sociology of culture and social and intellectual history and by others interested in the politics of persuasion

The Holy Land in Transit Steven Salaita,2015-02-01 Steven Salaita s ambitious and thought provoking work compares the dynamics of settler colonialism in the United States related to Native Americans with the circumstances in Israel related to the Palestinians revealing the way in which politics influences literary production The author s original approach is based not on similarities between the two disparate settler regions but rather on similarities between the rhetoric employed by early colonialists in North America and that employed by Zionist immigrants in Palestine Meticulously examining histories theories and literary depictions of colonialism and its interethnic dialects Salaita identifies the commonalities in the myths employed by both groups as well as the counter discourse cultivated in the literature of resistance by native peoples He complements his analysis with personal observations of Palestinians in Lebanese refugee camps where he encountered a sympathetic perception of American Indians The Holy Land in Transit presents one of the first intercommunal studies to assess the ways in which indigenous authors react to analogous colonial dynamics With great perception and energy the author offers a fresh contribution to an emerging frame of reference for historical political literary and cultural investigation

Singular Texts/plural Authors Lisa S. Ede,Andrea A. Lunsford,1992 Why write together the authors ask They answer that

question here in the first book to combine theoretical and historical explorations with actual research on collaborative and group writing Lisa Ede and Andrea Lunsford challenge the assumption that writing is a solitary act That challenge is grounded in their own personal experience as long term collaborators and in their extensive research including a three stage study of collaborative writing supported by the Fund for the Improvement of Post Secondary Education The authors urge a fundamental change in our institutions to accommodate collaboration by radically resituating power in the classroom and by instituting rewards for collaborative work that equal rewards for single authored work They conclude with the injunction Today and in the twenty first century our data suggest writers must be able to work together They must in short be able to collaborate
