follows Erik Fiskare's journey back to the truth of himself and a woman he can't forget. With its gripping story and an unforgettable cast of characters, this epic novel of love and forgiveness lingers long after the last page is turned. A new kind of romance, well-crafted and intelligently written, Suanne Laqueur deftly explores what it means to be vulnerable, resilient, and human. A compelling, heartfelt, intense read. *The Man I Love* raises important and tough social topics that are relevant and timely. An intelligent, perfectly pitched modern romance. NOT your typical boy meets girl, but a story of first love and how people handle extreme situations. *The Man I Love* looks at love, sex, depression, and PTSD in the face and calls them by name. An astounding journey of forgiveness and recovery. Laqueur combines the dynamics of a circle of friends with a school shooting. The result is *The Man I Love*, a gripping, angst-y psychological romance that explores second chances at first love. Book clubs will find plenty to discuss in this coming-of-age emotional journey of forgiveness and recovery. The characters are flawlessly crafted and deserving of love after tragedy. You'll be thinking about them long after you've finished. From university to adulthood, through love and loss, devotion and betrayal, estrangement and forgiveness, the Fish Tales series will bring you on an emotional journey of love and truth.

Linguistic Categorization Roberta Corrigan, Fred R. Eckman, Michael P. Noonan, 1989-01-01. This volume contains a selection of the papers presented at the 16th International Symposium at the University of Wisconsin-Milwaukee. Two central questions were addressed: What is the nature of the categories that underlie the structure of human language? What is the nature of extralinguistic categories that are reflected in language? These questions are addressed from the perspective of a variety of disciplines, using many different methodologies and focusing on many different aspects of language, including morphology, syntax, semantics, phonology, and discourse. The volume is divided into 3 sections: prototype effects in language categorization processes and cross-linguistic categorization.
