Double Zero And Soviet Military Strategy Implications For Western Security:

Double Zero and Soviet Military Strategy Dennis M. Gormley,1988 **Double Zero and Soviet Military Strategy** Dennis M. Gormley,1990 **Professional Journal of the United States Army** ,1989 North Atlantic Treaty Organization Phil Williams,2024-11-01 This volume consists of major books written in the English language on NATO as well as an extensive listing of journal articles that deal with various aspects of the Alliance All the major debates that have taken place over the last forty years are discussed *Review of Current Military Literature* ,1989 Military Review ,1990

When Leaders Learn and When They Don't Akan Malici,2009-01-01 When Leaders Learn and When They Don't investigates two extraordinary leaders Mikhail Gorbachev and Kim Il Sung by employing sophisticated methodologies and advancing a new theory of foreign policy decision making Both leaders redefined the theory and practice of international relations and left a heritage that we face today a unipolar world in which security threats no longer emanate from the rivalry of two superpowers but rather from the existence of rogue states such as North Korea Akan Malici demonstrates how Gorbachev moved the antagonistic superpower relationship toward a Kantian world of friends while Kim reified a Hobbesian world of enemies at the end of the Cold War The book carries implications about declining and newly emerging threats as the configuration of the international system changes Parameters ,1989 **Dealing with the Threat of Cruise Missiles**

Dennis M Gormley,2013-09-13 How can the core transatlantic Allies make coalitions more effective One year on from Kosovo disparities in the capabilities of the coalition partners as well as uneven levels of prior coordination persist To address these problems will require much greater force planning in peacetime This stimulating and influential work offers one of the most comprehensive independent assessments to date of the Kosovo campaign and of the performance of the NATO allies An important subject area in which there is a great deal of international interest *Seize the High Ground* James A.

Walker,Lewis Bernstein,Sharon Lang,2003 Seize the high ground is a narrative history of the Army's aerospace experience from the 1950s to the present The focus is on ballistic missile defense from the early NIKE HERCULES missile program through the SAFEGUARD acquisition site allowed by the 1972 ABM Treaty to the more advanced Star Wars concepts studies toward the end of the century What is covered is not only the technological response to the threat but the organizational and tactical development of the commands and units responsible for the defense mission CMH website Beliefs and Leadership

in World Politics M. Schafer,S. Walker,2006-09-02 Focusing on how policy makers make decisions in foreign policy this book examines how beliefs are causal mechanisms which steer decisions shape leaders and perceptions of reality and lead to cognitive and motivated biases that distort block and recast incoming information from the environment **WAR, PEACE AND VICTORY: STRATEGY AND STATECRAFT FOR THE NEXT CENTURY** Colin S. Gray,1991-06-15 From Simon Schuster War Peace and Victory is Colin S Gray's exploration of strategy and statecraft for the next century In War Peace and Victory Colin S Gray shows how geography technology history and national culture shape government policy and explains how

nations pursue their strategic interests in times of peace *Soviet Ballistic Missile Defense and the Western Alliance* David Scott Yost,1988 Yost suggests that the challenges for Western policy posed by Soviet ballistic missile defense BMD programs stem partly from Soviet military programs Soviet arms control policies and Soviet public diplomacy campaigns and partly from the West's own intra alliance disagreements and lack of consensus about Western security requirements The American Bibliography of Slavic and East European Studies ,1988 *Air University Library Index to Military Periodicals* ,1999 *Missile Contagion* Dennis M. Gormley,2008-05-30 Most books on missile proliferation focus on the spread of ballistic missiles or cruise missiles not both Gormley's work however explains why cruise missiles are beginning to spread widely but does so by explaining their spread in the context of ballistic missile proliferation It therefore treats both ballistic and cruise missile proliferation as related phenomenon This work also focuses evenhandedly on both nonproliferation and defense policy including missile defenses and counterforce doctrines to fashion a set of integrated strategies for dealing with ballistic and cruise missile proliferation Signs of missile contagion abound In this study Gormley argues that a series of rapid and surprising developments since 2005 suggest that the proliferation of missiles capable of delivering either weapons of mass destruction or highly accurate conventional payloads is approaching a critical threshold The surprising fact is that land attack cruise missiles not ballistic missiles constitute the primary problem Flying under the radar both literally and figuratively land attack cruise missiles add a dangerous new dimension to protecting U S security interests and preventing regional military instability Gormley asserts that cruise missiles are not destined to supplant ballistic missiles rather they are likely to join them because when both are employed together they could severely test even the best missile defenses Worse yet Gormley argues land attack cruise missiles are increasingly being linked to preemptive strike doctrines which are fueling regional arms races and crisis instability This work explains why an epidemic of cruise missile proliferation long forecasted by analysts has only recently begun to occur After first assessing the state of ballistic missile proliferation Gormley explores the role of three factors in shaping the spread of cruise missiles These include specialized knowledge needed for missile development narrative messages about reasons for acquiring cruise missiles and norms of state behavior about missile nonproliferation policy and defense doctrine This book then addresses the policy adjustments needed to stanch the spread of cruise missiles in the first place or barring that cope militarily with a more demanding missile threat consisting of both cruise and ballistic missiles **The British National Bibliography** Arthur James Wells,1979 Arms Control Today ,1991 *The Nuclear Present* Grant Burns,1992 thorough and complete well written annotations recommended to libraries at all levels CHOICE An exceptionally thorough guide JOURNAL OF AMERICAN HISTORY Studies of War Henk W. Houweling,Jan G. Siccama,Gerrit Faber,J.B. Kuné,2024-12-02
