A movie poster for Disney's 'Wish'. At the top, a golden sun with a face is surrounded by a trail of sparkling stars that curves across the sky. In the center, the word 'WISH' is written in large, glowing blue letters. Below the title, a young girl with long dark hair, wearing a purple nightgown, stands on a rocky outcrop with her right arm raised towards the stars. A small yellow dog stands beside her. In the background, a castle with a tower is visible on the left, and a large, dark, rocky island is on the right. The sky is a deep blue with many small stars.

Spon's Civil Engineering and Highway Works Price Davis Langdon, 2010-09-30 SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2011 provides a comprehensive work manual for the industry It gives costs for both general and civil engineering works and highway works and shows a full breakdown of labour plant and material elements with labour rates updated in line with the latest CIJC wage agreement In this 24th edition assumptions on overheads and profits and on preliminaries have been kept low labour rates have been adjusted manufactured goods prices are rising faster than previously predicted steel products structural sections and reinforcement show steady rises in price bridge bearing prices have risen significantly Structured to comply with CESMM3 and MMHW the book includes prices and rates covering the key items that make a general civil or highway construction project from compressors to contracts and damp proofing to dams In a time when it is essential to gain competitive advantage in an increasingly congested market this price book provides instant access cost information and is a one stop reference containing tables formulae technical information and professional advice Buyers of this 2011 edition can make a free internet download of SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS price data which will run to the end of 2011 and produce estimate and tender documents generate priced or unpriced schedules adjust rates and data and enter rogue items export schedules into Excel carry out an index search This year for the first time the resources include a versatile and powerful ebook

Probabilistic Linguistic Two-Sided Matching Decision-Making Methods and Applications Bo Li, Zeshui Xu, 2025-04-30 This book tackles the intricacies of decision making processes where alternatives stem from distinct finite sets Discover the cutting edge in decision making with our groundbreaking book on complex two sided matching methods Harnessing the power of probabilistic linguistic term sets it introduces innovative methods that enhance matching efficiency and practicality It addresses the pressing question of how to navigate and optimize in scenarios with multifaceted matching challenges offering an exploration into the psychological perceptions of agents through consistency checks and pairwise comparisons It delves into the unknowns of static matching with multiple attribute weights extends its scope to multi sided agent sets in complex matching and introduces dynamic screening mechanisms to refine the matching process This book is not just a theoretical exploration It lays the groundwork for intelligent matching algorithms and group mechanisms providing actionable insights for technical supply and demand allocation emergency personnel dispatch and multi stage medical management scheme selection The effectiveness of these methods is backed by comparative analyses and simulation experiments proving their superiority in real world applications Embrace the future of decision making with our book a must read for those seeking to master complex matching scenarios and unlock practical solutions

Incentives and Two-Sided Matching - Engineering Coordination Mechanisms for Social Clouds Haas, Christian, 2014-09-01 The

Social Cloud framework leverages existing relationships between members of a social network for the exchange of resources. This thesis focuses on the design of coordination mechanisms to address two challenges in this scenario. In the first part, user participation incentives are studied. In the second part, heuristics for two-sided matching based resource allocation are designed and evaluated.

Introduction to Geometric Computing Sherif Ghali, 2008-07-05 Computing is quickly making much of geometry intriguing not only for philosophers and mathematicians but also for scientists and engineers. What is the core set of topics that a practitioner needs to study before embarking on the design and implementation of a geometric system in a specialized discipline? This book attempts to find the answer. Every programmer tackling a geometric computing problem encounters design decisions that need to be solved. This book reviews the geometric theory then applies it in an attempt to find that elusive right design.

Spon's Civil Engineering and Highway Works Price AECOM, 2014-10-02 Infrastructure work is still declining although there are plans to release 1.3bn worth of road network schemes over the next few years. Network rail has published plans to spend 3.8bn on upgrade works over the next five years. Water firms are to bring forward 400m of work into this financial year. Spon's Civil Engineering and Highway Works Price Book 2015 from AECOM gives costs for both general and civil engineering works and highway works and provides a full breakdown of labour, plant and material elements with labour rates updated in line with the latest CIJC wage agreement. Beyond prices, it can be used as a comprehensive work manual for the UK's civil engineering, surveying and construction business. Use the access code inside the front cover of the book to get set up with internet access to this edition until the end of December 2015. We now provide SPON'S Online, a versatile and powerful online data viewing package which replaces the estimating software and ebook of recent years. This 29th edition incorporates a comprehensive review throughout. Updated to come into line with the CESSM4 structure as well as MMHW. And with an expanded range of rail elements.

Manufacturing Techniques for Microfabrication and Nanotechnology Marc J. Madou, 2011-06-13 Designed for science and engineering students, this text focuses on emerging trends in processes for fabricating MEMS and NEMS devices. The book reviews different forms of lithography, subtractive material removal processes and additive technologies. Both top-down and bottom-up fabrication processes are exhaustively covered and the merits of the different processes are discussed.
