Douglas MacArthur A Modern Knight Errant:

Douglas MacArthur, a Modern Knight-errant William S. Phillips, 1978 **Great Military Leaders** William T. Worthington, 2002 **Great Military Leaders A Bibliography with Vignettes** **Douglas MacArthur** Russell D. Buhite, 2008-04-18 Buhite offers a trenchant evaluation of Douglas MacArthur's career in East Asia and his role in some of the most important military and diplomatic issues of the twentieth century Concise and highly readable this biography considers diplomatic fact in light of psychological insight and asks us to look anew at both MacArthur and American involvement in the region From Manila to Washington with Tokyo and Seoul in between readers follow the course of American foreign diplomacy in East Asia via MacArthur's own career This fascinating intersection of personality and policy would make for newsreel footage and newspaper headlines such as when he waded ashore Luzon Island in the Philippines and sent Washington provocative communiqués about the People's Republic of China Yet as Buhite shows grand gestures are not the substance of great foreign policy and MacArthur's reputation merits critical reassessment This is a must read for those interested in diplomatic and military history *American Orators of the Twentieth Century* Bernard K. Duffy, Halford Ross Ryan, 1987 A collection of encyclopedia styled essays on 58 leading political social and religious speakers *American Orators of the Twentieth Century* fills an enormous void in the literature on American public address Each assesses the orator's impact on American life and delineates such aspects of his or her speaking as argumentation style persuasive techniques delivery and methods of speech preparation Appended to each essay is a chronology of the orator's major speeches and a list of information sources that includes leading research collections speech anthologies critical studies and biographies Given the large number of contributors the entries are remarkably even in coverage and clarity On the whole the editors have achieved a sensible balance among mainstream political leaders religious orators and spokesmen and spokeswomanes for a variety of historical and contemporary causes If we judge the book on the quality of the essays it contains rather than on the alternative speakers it might have included it deserves high marks Scrupulously edited superbly produced and splendidly bound it will be the standard reference work on its subject for years to come Amazon.com **Honor** James Bowman, 2007 From the earliest records of human civilization until the dawn of the twentieth century and in widely separated cultures throughout the world the story of honor was inseparable from the story of mankind Today an acquaintance with the concept of honor is indispensable to understanding the culture of the Islamic world and its sense of grievance against the West where honor has been disregarded or actively despised for three quarters of a century James Bowman draws from an wealth of sources across many centuries to illuminate honor's curious history in our own culture and he discovers that Western honor was always different from that found elsewhere Its idiosyncratic qualities derived partly from the classical tradition but mainly from the Judeo-Christian heritage whose emphases on individual morality and more recently on sincerity and authenticity in private and personal life have acted as continual challenges to the traditional notion of honor as it is still

maintained in other parts of the world These challenges to honor and the accommodations with it that they ultimately produced are a fundamental theme in our own culture s distinctive history and the eventual collapse of the honor culture in the West is the background against which the War on Terror and the Clash of Civilizations ought to be seen Jacket **The Years of MacArthur** D. Clayton James,1970 A detailed biography of General of the army Douglas MacArthur chronicles his controversial military administrative and political career and examines his complex contradictory personality and character

General Douglas MacArthur, Military Genius Frances Altman,1973 A biography of a famous general from his boyhood in the New Mexico Territory through his controversial military career to his later years when many honors were conferred upon him Oratorical Encounters Halford R. Ryan,1988-02-24 The first of its kind in the field of rhetoric this book examines important speech encounters in the political life of twentieth century America The essays focus on significant speakers who have delivered political accusations against their opponents and on the orators who in turn have delivered apologies in order to protect their political standing The essays treat these speech encounters as oratorical confrontations Both accusatory and defending speeches are used to illuminate one another and to provide unique insight into the outcome of the encounters themselves Each essay concludes with a bibliography of research materials sources and locations of speech texts The
