Pulmonary and Critical Care Considerations of Hematopoietic Stem Cell Transplantation Ayman O. Soubani,2023-06-14

This book serves as a guide to the pulmonary and critical care complications of hematopoietic stem cell transplantation HSCT. HSCT is an important therapeutic modality for a variety of malignant and non malignant conditions. The outcomes of these patients have been improving and the number of HSCT cases is increasing around the world. These patients however continue to have post transplant complications related to conditioning regimens and graft vs host disease. Pulmonary complications following HSCT remain a major cause of morbidity and mortality in this patient population. The book begins with an overview of HSCT and graft vs host disease. Chapters then cover particular complications including immunological changes in lungs, diffuse alveolar hemorrhage, bronchiolitis obliterans, and pulmonary fibrosis. Other complications including neurologic, renal, gastrointestinal, and cardiac are covered. Chapters are comprehensive and consistent with each, defining the scope of the complication, epidemiology, risk factors, diagnostic approach, management, outcome, and predictors of outcome and future directions. The book provides insight as well on matters that arise during the care of HSCT patients, such as provider burnout, nursing care, intensive care unit organization, nutritional support, and pulmonary and physical rehabilitation. This is an ideal guide for pulmonologists, critical care physicians, transplant specialists, oncologists, and relevant trainees caring for patients who have undergone HSCT.

The Navigator ,1965 **Education Directory** , Islamist Politics in the Middle East Samer Said Shehata,2012. For over three decades, Islamist politics or political Islam has been one of the most dynamic and contentious political forces in the Middle East. Although there is broad consensus on the importance of political Islam, there is far less agreement on its character, the reasons for Islamist success, the role of Islamist movements in domestic and international affairs, or what these movements portend for the future. This volume addresses a number of central questions in the study of Islamist politics in the Middle East through detailed case studies of some of the region's most important Islamist movements. Chapters by leading scholars in the field examine the Egyptian Muslim Brotherhood, Hamas, Hizbullah, Morocco's Justice and Benevolence, the Jordanian Muslim Brotherhood, the Sunni Insurgency in Iraq, and Islamist politics in Turkey and Iran. The topics addressed within this volume include social networks and social welfare provision, Islamist groups as opposition actors, Islamist electoral participation, the intersection of Islam and national liberation struggles, the role of religion in Islamist politics, and Islam and state politics in Iran, among other topics. All of the contributing authors are specialists with deep knowledge of the subject matter who are committed to empirically based research. These scholars take Islamists seriously as modern, sophisticated, and strategic political players. Together, their work captures much of the diversity of Islamist politics in the region and will contribute to the scholarship on a topic that continues to be important for the Middle East and the world.
