House. Committee on the Judiciary, 1965 *The Life and Death of Adolf Hitler* Robert Payne, 2016-10-05 In *The Life And Death of Adolf Hitler* biographer Robert Payne unravels the tangled threads of Hitler's public and private life and looks behind the caricature with the Charlie Chaplin mustache and the unruly shock of hair to reveal a Hitler possessed of immense personal charm that impressed both men and women and brought followers and contributions to the burgeoning Nazi Party Although he misread his strength and organized an ill fated putsch Hitler spent his months in prison writing *Mein Kampf* which increased his following Once in undisputed command of the Party Hitler renounced the chastity of his youth and began a sordid affair with his niece whose suicide prompted him to reject forever all conventional morality He promised anything to prospective supporters then cold bloodedly murdered them before they could claim a share of the power he reserved for himself Once he became Chancellor Hitler step by step bent the powers of the state to his own purposes to satisfy his private fantasies rearming Germany slaughtering his real or imaginary enemies blackmailing one by one the leaders of Europe and plunging the world into the holocaust of World War II *THE LIFE AND DEATH OF ADOLF HITLER* is the story of not so much a man corrupted by power as a corrupt man who achieved absolute power and used it to an unprecedented degree knowing at every moment exactly what he was doing and calculating his enemies weaknesses to a hair's breadth It is the story of a living man *Postwar Population Transfers in Europe, 1945-1955* Joseph B. scholarship in a wide range of subject areas **In the Shadow of Munich. British Policy towards Czechoslovakia from 1938 to 1942** Vít Smetana, 2008-01-01 The book *In the Shadow of Munich British Policy towards Czechoslovakia from the Endorsement to the Renunciation of the Munich Agreement 1938 to 1942* analyses the varying attitudes and gradual change of British policy towards Czechoslovakia in the period from the Munich Conference in September 1938 to August 1942 when the British government proclaimed the Munich Agreement as dead and thus having no influence whatsoever on the future territorial settlement The key focus of this work lies in the influence of Munich upon the British political scene and upon the resulting British policy towards Czechoslovakia in the Central European context and also in the repercussions of Munich in negotiations with the Czechoslovak exile representatives The book is a result of many years of the author's research conducted primarily in the British and the Czech archives as well as his reflection of numerous documentary editions diaries memoirs and secondary sources It aims to dispel frequent myths and stereotypes that have so far influenced the Czech and partly also Anglo Saxon historiography in their interpretations of British attitudes towards Czechoslovakia immediately before and during the Second World War **Coming Home? Vol. 1** Sharif Gemie, 2014-07-18 The wars of the twentieth century uprooted people on a previously unimaginable scale to the extent that being a refugee became an increasingly widespread experience With the arrival of refugees governments of host countries had to mediate between divided national populations some wished to welcome those arriving in search of refuge others preferred a strategy of exclusion or even expulsion At the same time refugees had to manage conflicts of the self as they responded to the loss of nationhood families socio political networks material goods and arguably also a sense of belonging or home While return migration was usually perceived by governments and refugees alike as the best solution to the dilemmas of forced displacement consensus about the timing and dynamics of how this would actually occur was very difficult to achieve In practice the return of refugees to their countries of origin rarely if ever produced a wholly satisfactory outcome Conflicts clearly resulted in forced displacement but it is equally true that forced displacement created conflicts The complex inter relationship of conflict return migration and the sometimes chimerical but still compelling search for a sense of home is the central preoccupation of the contributors to the two volumes of the *Coming Home* series Scholars from history literature cultural studies and sociology explore the tensions between nation states and migrants as they have anticipated implemented or challenged the process of return migration during the twentieth and twenty first centuries This book begins with Western Europe and progresses to Central and Eastern Europe from the period of the Spanish Civil War to the Cold War era whilst the second volume *Coming home Vol 2 Conflict and Postcolonial Return Migration in the Context of France and North Africa* shifts the focus to the colonial and post colonial framework of the French North African nexus What emerges from the two volumes of essays is that as ambiguous and sometimes ambivalent as home could appear it was nonetheless central to migrants preoccupations about returning *Documents on German Foreign Policy, 1918-1945, from the Archives of the German Foreign Ministry* Germany.

Czechoslovakia between Stalin and Hitler Igor Lukes,1996-05-23 The Munich crisis of 1938 in which Great Britain and France decided to appease Hitler s demands to annex the Sudetenland has provoked a vast amount of historical writing The era has been thoroughly examined from the perspectives of Germans French and British political establishments But historians have had until now only a vague understanding of the roles played by the Soviet Union and Czechoslovakia the country whose very existence was at the very center of the crisis In *Czechoslovakia Between Stalin and Hitler* Igor Lukes explores this turbulent and tragic era from the new perspective of the Prague government itself At the center of this study is Edvard Benes a Czechoslovak foreign policy strategist and a major player in the political machinations of the era The work looks at the first two decades of Benes s diplomacy and analyzes the Prague Government s attempts to secure the existence of the Republic of Czechoslovakia in the treacherous space between the millstones of the East and West It studies Benes s relationship with Joseph Stalin outlines the role assigned to Czechoslovak communists by the VIIth Congress of the Communist International in 1935 and dissects Prague s secret negotiations with Berlin and Benes s role in the famous Tikhachevsky affair The work also brings evidence regarding the so called partial mobilization of the Czechoslovak army in May 1938 and focuses on Stalin s strategic thinking on the eve of the World War II Until the fall of the Berlin Wall it was difficult for Western researchers to gain access to the rich archival collections of the East Czechoslovakia Between Stalin and Hitler makes ample use of these secret archives both in Prague and in Russia As a result it is an accurate and original rendition of the events which eventually sparked the Second World War
