Morality's Muddy Waters George Cotkin, 2011-06-06 In the face of an uncertain and dangerous world Americans yearn for a firm moral compass a clear set of ethical guidelines But as history shows by reducing complex situations to simple cases of right or wrong we often go astray In *Morality's Muddy Waters* historian George Cotkin offers a clarion call on behalf of moral complexity Revisiting several defining moments in the twentieth century the American bombing of civilians during World War II the My Lai massacre racism in the South capital punishment the invasion of Iraq Cotkin chronicles how historical figures have grappled with the problem of evil and moral responsibility sometimes successfully oftentimes not In the process he offers a wide ranging tour of modern American history Taken together Cotkin maintains these episodes reveal that the central concepts of morality evil empathy and virtue are both necessary and troubling Without empathy for example we fail to inhabit the world of others with it we sometimes elevate individual suffering over political complexities For Cotkin close historical analysis may help reenergize these concepts for ethical thinking and acting *Morality's Muddy Waters* argues for a moral turn in the way we study and think about history maintaining that even when answers to ethical dilemmas prove elusive the act of grappling with them is invaluable Library of Congress Classification Schedules: a Cumulation of Additions and Changes ... Through the Eyes of Titans: Finding Courage to Redeem the Soul of a Nation Danjuma G. Gibson, 2024-01-10 Human beings tend to romanticize history or idealize historical figures This is nowhere more apparent than the civil rights era of the twentieth century The problem is that when we idealize history we fail to learn from it The result is that history repeats itself along with its sins and atrocities The January 6 Capitol insurrection and the current racial reckoning we are experiencing is unoriginal to the American experience We have been here before This book seeks to humanize people we have idealized Readers are invited to challenge racial hatred and injustice in their own context by looking to the lives of historical figures who have faced the challenges we currently face By examining the self care practices of personalities like Ida B Wells Fannie Lou Hamer Benjamin Elijah Mays and Martin Luther King Jr this book examines the practices of introspection and self work these historical figures engaged in that enabled them to fulfill the body of work they are celebrated for today By humanizing these historical titans we can emulate similar practices of self care and introspection in our own lives that can equip us in continuing the ongoing work of dismantling structures of racial hatred and oppression and promoting freedom love equity and justice to redeem the soul of a nation God's Own Party Daniel K. The James Sprunt Studies in History and Political Science, 1943 **The Moral Dimensions of Public Policy Choice** John Martin Gillroy, Maurice

Wade,1992-08-15 Combining philosophy with practical politics an expanding area of policy studies applies moral precepts critical principles and conventional values to collective decisions This evolving new approach to policy analysis asserts that the same variety of ethical principles available to the individual are also available to make collective decisions in the public interest and should be used Although policy analysis has long been dominated by assumptions originally developed for the examination of markets such as efficiency these essays by leading scholars the best work done in the field over the past three decades explore alternatives to the market paradigm and show how moral discrimination and choice can extend beyond the individual to encompass public decisions Chapters by John Martin Gillroy and Maurice Wade review the political philosophies of Immanuel Kant and David Hume as backgrounds for the development of modern concepts of public policy choice They present this anthology as a first step in codifying options arguments and methods within this important developing area of policy studies

Agrarian Radicalism in China, 1968-1981 David Zweig,1989 During and after the Cultural Revolution radical leaders in the Chinese Communist Party tried to mobilize rural society for socioeconomic and political changes and move rural China to even higher stages of collectivism David Zweig argues that because advocates of agrarian radicalism formed a minority group within China s central leadership they acted in opposition to the dominant moderate forces and resorted to alternative strategies to mobilize support for their unofficial policies The limited institutionalization of the system allowed the radicals to promote their principles through policy winds speeches generated by newspaper articles networks of political allies and organized visits they also linked their policies to ongoing political and economic campaigns In spite of this radical ideology and frequent upheavals in the countryside Zweig finds that Chinese peasants had no ideological affinity for Mao s theory of the continuing revolution and reacted to each policy change on the basis of how it affected their personal family or collective interests Despite intense propaganda cadres adjusted the impact of these radical policies so that the peasants conservative mindset entrepreneurial spirit and desire to improve their own lot remained intact Zweig examines the local realities of the radicals program by describing the results of specific policies he discriminates among the responses of officials at different bureaucratic levels peasants of varying income levels and family structures and villages with specific geographic and socioeconomic characteristics He draws on his own field research in Chinese villages and interviews with Chinese college students and their friends who had lived in the countryside and emigr s in Hong Kong who had lived and worked in rural China

Apologies and Moral Repair Andrew I. Cohen,2020-05-10 This book argues that justice often governs apologies Drawing on examples from literature politics and current events Cohen presents a theory of apology as corrective offers Many leading accounts of apology say much about what apologies do and why they are important They stop short of exploring whether and how justice governs apologies Cohen argues that corrective justice may require apologies as offers of reparation Individuals corporations and states may then have rights or duties regarding apology Exercising rights to apology or fulfilling duties to provide them are ways of holding one another mutually accountable By casting rights and

duties of apology as justifiable to free and equal persons the book advances conversations about how liberalism may respond to historic injustice Apologies and Moral Repair will be of interest to scholars and advanced students in ethics political philosophy and social philosophy **The Moral Limits of the Criminal Law: Volume 3: Harm to Self** Joel Feinberg, 1989-08-17 This volume tackles the riddles associated with the commonly proposed principle called legal paternalism It evaluates and rejects the principle that it can be right to impose coercion on a person for his own good whatever his own wishes in the matter **James Sprunt Historical Studies** ,1943 **Engineering and Mining Journal** ,1886 **What's Wrong with Morality?** Charles Daniel Batson, 2016 Most works on moral psychology consider morality an unalloyed good Drawing primarily on social psychological theory and research this book looks at morality as a problem The problem is that we often fail live up to our own moral standards Why **The Concept of Rights** George W. Rainbolt, 2006-07-08 Discussions of rights are ubiquitous One constantly hears things such as The Chinese are violating Tibetan rights Landlords have a right that their tenants pay their rent Students have a right to be graded fairly Animals have a right not to suffer merely to bring pleasure to humans Abortion violates a fetus right to life We violate the rights of future generations when we pollute the water These statements assert that Tibetans landlords students animals fetuses and future generations all have rights Tibetans landlords students animals fetuses and future generations do not seem to have much in common When one presses for clarity it is very difficult to say precisely what a right is What is it to have a right That is the question this book seeks to answer To paint with an overly broad brush previous answers to this question can be divided into two groups Some hold interest bene t theories of rights while others hold choice will theories of rights Perhaps the first person to propose an interest bene t theory was Jeremy Bentham Its most cited contemporary defender is Joseph Raz The seminal statement of the choice theory was made by H L A Hart Carl Wellman is perhaps the most able defender of a will theory of rights The debate between these two groups of theories has been a productive one **A Prussian Observes the American Civil War** Justus Scheibert, 2001
