Alaska Statutes:

Alaska Statutes, 1962 Alaska, 2008 *The Code of Federal Regulations of the United States of America*, 1998 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government **Code of Federal Regulations**, 2008 Special edition of the Federal Register containing a codification of documents of general applicability and future effect with ancillaries

Congressional Record United States. Congress, 1963 **Alaska Politics and Public Policy** Clive S. Thomas, Laura Savatgy, Kristina Klimovich, 2016-09-15 Politics in Alaska have changed significantly since the last major book on the subject was published more than twenty years ago with the rise and fall of Sarah Palin and the rise and fall of oil prices being but two of the many developments to alter the political landscape This book the most comprehensive on the subject to date focuses on the question of how beliefs institutions personalities and power interact to shape Alaska politics and public policy Drawing on these interactions the contributors explain how and why certain issues get dealt with successfully and others unsuccessfully and why some issues are taken up quickly while others are not addressed at all This comprehensive guide to the political climate of Alaska will be essential to anyone studying the politics of America's largest and in some ways most unusual state State-By-State Guide to Architect, Engineer, and Contractor Licensing Richard A.

Holderness, Walker, Stephen D. Butler, Stephen G. Walker, 1995-12-31 Failure to comply with state licensing laws could derail a construction engineering or architecture project and even put licenses and payments in jeopardy Don't take the risk Turn To The resource that provides comprehensive guidance on the architecture engineering and contractor license laws for all 50 states And The District of Columbia State by State Guide to Architect Engineer and Contractor Licensing gathers all of the vital information you need in one convenient source to help you develop a cost effective compliance strategy With State by State Guide to Architect Engineer and Contractor Licensing practitioners will be prepared to handle virtually any state licensing question including Is a license required For The design or construction work that is going to be performed Is a license required before the bid or proposal is submitted What are the special licensing requirements for partnerships for corporations Is a seal for stamping drawings required of design professionals If so which design documents must be stamped Is a license necessary when bidding for work Who in the organization must stamp these documents What are the penalties if the license is not received on time If an agent is managing the construction for an owner must he obtain a license

Bureau of Land Management,1979 **Beaufort Sea Oil and Gas Lease Sale** ,1979 Groundwater Management in the West Jeffrey S. Ashley,Zachary Alden Smith,1999-01-01 One of the greatest conundrums facing the arid western United States is the availability use and quality of groundwater In large sections of the West groundwater is the only dependable source of water for agricultural production and home consumption Yet many of the aquifers are being depleted at a rate that will suck them dry within a century Furthermore dependence upon groundwater in many areas will only increase in the future This dependence is already having serious consequences for small towns on the Great Plains Faced with growing costs associated with deeper wells and the need for ever more advanced technology for extracting water these towns find they lack the resources to maintain current agricultural practices In this timely assessment of the West s groundwater resources the authors provide a detailed overview of groundwater management in the Western states The authors present for each state the various management strategies laws and political realities that have made groundwater appropriation such a volatile subject They also suggest possible difficulties that states and regions might face under current groundwater policies By examining separate cases and viewing the West as a whole the authors are able to identify not only the most pressing problems but also the most appropriate management techniques for protecting water supplies for future use *Denali (South Slope) National Park and Preserve, Development Concept Plan* ,1997 **Final Environmental Impact Statement** United States. Bureau of Land Management,1979 **Draft Environmental Impact Statement, Proposed Federal/state Oil and Gas Lease Sale, Beaufort Sea** United States.
