Alaskan Eskimo Life In The 1890s As Sketched By Native Artists:

Alaskan Eskimo Life in the 1890s as Sketched by Native Artists George E. Phebus, 1995 In this book originally published in 1972 by the Smithsonian Institution Press the author presents a valuable study of the cultural context illustrated by the drawings and paintings that were discovered during the summer of 1967 Found in an old storage unit at the Smithsonian's Department of Anthropology in the National Museum of Natural History the sketches depict various scenes of Eskimo life as drawn by Natives in the 1890s These materials which apparently had been inadvertently stored with similar artwork used in printing early publications of the Smithsonian's Bureau of American Ethnology were mounted on large cardboard posters and labeled Education in Alaska and were attributed to the United States Bureau of Education George Phebus took an interest in the sketches but attempts to research their origin resulted in meager historical and geographical data Phebus concluded that the art was a product of various students in public and private schools in northwestern Alaska during the 1890s and observes Their greatest value lies in their providing us with a pictorial record of Alaskan Eskimo life as depicted by native artists just prior to the drastic changes of the 20th century

Native North American Art Janet Catherine Berlo, Ruth Bliss Phillips, 2015 This lively introductory survey of indigenous North American arts from ancient times to the present explores both the shared themes and imagery found across the continent and the distinctive traditions of each region Focusing on the richness of artwork created in the US and Canada Native North American Art Second Edition discusses 3 000 years of architecture wood and rock carvings basketry dance masks clothing and more The expanded text discusses twentieth and twenty first century arts in all media including works by James Luna Kent Monkman Nadia Myre Jaune Quick to See Smith Will Wilson and many more Authors Berlo and Phillips incorporate new research and scholarship examining such issues as art and ethics gender representation and the colonial encounter By bringing into one conversation the seemingly separate realms of the sacred and the secular the political and the domestic and the ceremonial and the commercial Native North American Art shows how visual arts not only maintain the integrity of spiritual and social systems within Native North American societies but have long been part of a cross cultural experience as well

Alaska Native Art Susan W. Fair, 2006 The rich artistic traditions of Alaska Natives are the subject of this landmark volume which examines the work of the premier Alaska artists of the twentieth century Ranging across the state from the islands of the Bering Sea to the interior forests Alaska Native Art provides a living context for beadwork and ivory carving basketry and skin sewing Examples of work from Tlingit Aleutian Islanders Pacific Eskimo Athabascan Yupik and Inupiaq artists make this volume the most comprehensive study of Alaskan art ever published Alaska Native Art examines the concept of tradition in the modern world Alaska Native Art is a volume to

treasure a tribute to the incredible vision of Alaska's artists and to the enduring traditions of all of Alaska's Native peoples

Mapping the Americas Shari M. Huhndorf, 2011-02-23 In *Mapping the Americas* Shari M. Huhndorf tracks changing conceptions of Native culture as it increasingly transcends national boundaries and takes up vital concerns such as patriarchy, labor, and environmental exploitation; the emergence of pan-Native urban communities; global imperialism; and the commodification of indigenous cultures. While nationalism remains a dominant anticolonial strategy in indigenous contexts, Huhndorf examines the ways in which transnational indigenous politics have reshaped Native culture, especially novels, films, photography, and performance in the United States and Canada since the 1980s. *Mapping the Americas* thus broadens the political paradigms that have dominated recent critical work in Native studies as well as the geographies that provide its focus, particularly through its engagement with the Arctic. Among the manifestations of these new tendencies in Native culture that Huhndorf presents are Igloodik Isuma Productions, the Inuit company that has produced nearly forty films, including *Atanarjuat: The Fast Runner*; indigenous feminist playwrights Leslie Marmon Silko's *Almanac of the Dead*; and the multimedia artist Shelley Niro. Huhndorf also addresses the neglect of Native America by champions of postnationalist American studies, which shifts attention away from ongoing colonial relationships between the United States and indigenous communities within its borders to U.S. imperial relations overseas. This is a dangerous oversight, Huhndorf argues, because this neglect risks repeating the disavowal of imperialism that the new American studies takes to task. Parallel transnational tendencies in American studies and Native American studies have thus worked at cross purposes: as pan-tribal alliances draw attention to U.S. internal colonialism and its connections to global imperialism, American studies deflects attention from these ongoing processes of conquest. *Mapping the Americas* addresses this neglect by considering what happens to American studies when you put Native studies at the center.

Eskimos and Explorers Wendell H. Oswalt, 1999-01-01 Corrects misconceptions about Eskimo life; analyzes early accounts by European explorers; and evaluates the impact these explorers had on Eskimo culture.

Social Life in Northwest Alaska Ernest S. Burch, 2006 This landmark volume will stand for decades as one of the most comprehensive studies of a hunter-gatherer population ever written. In this third and final volume in a series on the early contact period, Iñupiaq Eskimos of northwestern Alaska, Burch examines every topic of significance to hunter-gatherer research, ranging from discussions of social relationships and settlement structure to nineteenth-century material culture.

Alaska's Native People Lael Morgan, 1979 Photos and accompanying text describe the history, cultures, and locations of the various native races, clans, phratries, and tribes of Alaska.

An Annotated Bibliography of Inuit Art Richard C. Crandall, Susan M. Crandall, 2015-07-25 Archaeological digs have turned up sculptures in Inuit lands that are thousands of years old, but Inuit art as it is known today only dates back to the beginning of the 1900s. Early art was traditionally produced from soft materials such as whalebone, and tools and objects were also fashioned out of stone, bone, and

ivory because these materials were readily available The Inuit people are known not just for their sculpture but for their graphic art as well the most prominent forms being lithographs and stonecuts This work affords easy access to information to those interested in any type of Inuit art There are annotated entries on over 3 761 articles books catalogues government documents and other publications

Furs and Frontiers In the Far North John R. Bockstoce, 2009-09-15 This comprehensive history of the native and maritime fur trade in Alaska during the eighteenth and nineteenth centuries is without precedent The Bering Strait formed the nexus of the circumpolar fur trade in which Russians British Americans and members of fifty native nations competed and cooperated The desire to dominate the fur trade fed the European expansion into the most remote regions of Asia and America and was an agent of massive change in these regions Award winning author John R Bockstoce fills a major gap in the historiography of the area in covering the scientific commercial and foreign relations implications of the northern fur trade In addition the book provides rare insight into the relationship between the Western powers and the Native Americans who provided them with fur ivory and whalebone in exchange for manufactured goods tobacco tea alcohol and hundreds of other things But this is also the story of the enterprising individuals who energized the Alaskan fur trade and in doing so forever altered the region's history

Eskimo Drawings Suzi Jones, 2003 Originally published in conjunction with a 2003 exhibition organized by the Anchorage Museum of History and Art and co curated by Suzi Jones and Walter Van Horn Eskimo Drawings marks the first time that Alaska Eskimo artwork has been the exclusive subject of a major exhibition and publication Accompanied by full color illustrations as well as black and white photographic reproductions Eskimo Drawings features only a few works that have ever been exhibited previously while showcasing the work of previously undiscovered Eskimo artists Covering topics as diverse as artistic considerations in the Eskimo graphic arts and an analysis of the work of Happy Jack and Guy Kakarook this remarkable volume includes contributions by Susan W Fair Russell Hartman Herbert O Anungazuk Steve Henrikson Molly Lee Mary Jane Anuqsraaq Melovidov Patrick Minock David Mollett Dorothy Jean Ray Susie Silook Birgitte Sonne and David P Sweeney Not to be missed by any art historian with an interest in Alaska Eskimo and Alaska Native art this fascinating and fully illustrated collection is an unsurpassed survey of the field

Chasing the Dark Kenneth L. Pratt, 2009 The program that ultimately developed in response to Section 14 h 1 of the Alaska Native Claims Settlement Act ANCSA resulted in the largest and most diverse single collection of information ever compiled about the history and cultures of Alaska Natives Through this publication the Bureau of Indian Affairs seeks to both increase public awareness of this important program and offer a glimpse of the valuable information the agency maintains concerning Alaska history and the traditions of Alaska Native peoples

Ed preface [Alliance and Conflict](#) Ernest S. Burch, 2005-01-01 Alliance and Conflict combines a richly descriptive study of intersocietal relations in early nineteenth century Northwest Alaska with a bold theoretical treatise on the structure of the world system as it might have been in ancient times Ernest S Burch Jr illuminates one aspect of the traditional lives of the Iñupiaq Eskimos in unparalleled detail

and depth Basing his account on observations made by early Western explorers interviews with Native historians and archeological research Burch describes the social boundaries and geographic borders formerly existing in Northwest Alaska and the various kinds of transactions that took place across them These ranged from violence of the most brutal sort at one extreme to relations of peace and friendship at the other Burch argues that the international system he describes approximated in many respects the type of system existing all over the world before the development of agriculture Based on that assumption he presents a series of hypotheses about what the world system may have been like when it consisted entirely of hunter gatherer societies and about how it became more centralized with the evolution of chiefdoms Accounts of specific people places and events add an immediate experiential dimension to the work complementing its theoretical apparatus and sweeping narrative scope Provocative and comprehensive *Alliance and Conflict* is a definitive look at the greater world of Native peoples of Northwest Alaska *Catalog of Copyright Entries.
