Jenkins, 2000 Suspected communists teaching at the University of Washington were fired careers and reputations were smashed a highly acclaimed theatre company was forced out of existence livelihoods were lost and lives shattered *Police Files: The Spokane Experience 1853-1995* M. Kienholz, 1999 **The American Surveillance State** David H. Price, 2022-11-01 When the possibility of wiretapping first became known to Americans they were outraged Now in our post 9 11 world it s accepted that corporations are vested with human rights and government agencies and corporations use computers to monitor our private lives David H Price pulls back the curtain to reveal how the FBI and other government agencies have always functioned as the secret police of American capitalism up to today where they luxuriate in a near limitless NSA surveillance of all Price looks through a roster of campaigns by law enforcement intelligence agencies and corporations to understand how we got here Starting with J Edgar Hoover and the early FBI s alignment with business his access to 15 000 pages of never before seen FBI files shines a light on the surveillance of Edward Said Andre Gunder Frank and Alexander Cockburn Native American communists and progressive factory owners Price uncovers patterns of FBI monitoring and harassing of activists and public figures providing the vital means for us to understanding how these new frightening surveillance operations are weaponised by powerful governmental agencies that remain largely shrouded in secrecy World War II and the West It Wrought Mark Brilliant, David M. Kennedy, 2020-04-28 Few episodes in American history were more transformative than World War II and in no region did it bring greater change than in the West Having lifted the United States out of the Great Depression World War II set in motion a massive westward population movement ignited a quarter century boom that

redefined the West as the nation's most economically dynamic region and triggered unprecedented public investment in manufacturing education scientific research and infrastructure an economic revolution that would lay the groundwork for prodigiously innovative high tech centers in Silicon Valley the Puget Sound area and elsewhere Amidst robust economic growth and widely shared prosperity in the post war decades Westerners made significant strides toward greater racial and gender equality even as they struggled to manage the environmental consequences of their region's surging vitality At the same time wartime policies that facilitated the federal withdrawal of Western public lands and the occupation of Pacific islands for military use continued an ongoing project of U S expansionism at home and abroad This volume explores the lasting consequences of a pivotal chapter in U S history and offers new categories for understanding the post war West Contributors to this volume include Mark Brilliant Gerald L Cadava Matthew Dallek Mary L Dudziak Jared Farmer David M Kennedy Daniel J Kevles Rebecca Jo Plant Gavin Wright and Richard White **Adventures in Poetry** Mary L.

Local Consequences of the Global Cold War Jeffrey A. Engel, 2007 Up to now the study of cold war history has been fully engaged in stressing the international character and broad themes of the story This volume turns such diplomatic history upside down by studying how actions of international relations affected local popular life Each chapter has its origins in a major international issue and then unfolds the consequences of that issue for some region or city Thus the starting points for the various contributions are great unifying questions regarding postwar occupation militarization industrialization and decolonization But the ending points are small and dispersed such as movies in Japan race relations in the American South forests in East Germany and industry in Novosibirsk Collectively these stories show how the cold war affected every facet of life East and West urban and rural in developed and developing nations in the superpowers and on the periphery of the international system
