What's more popular than Tumblr This microblogging site has taken the Web by storm since its founding in 2007 Not much can top it when it comes to capturing its fans imaginations except for perhaps its creator David Karp Karp developed Tumblr after he tried to start a blog and found the process daunting With most platforms a blogger faces a huge empty text box that begs to be filled with words It was intimidating for a guy who'd never blogged before Karp had the idea for tumblelogging creating short blog posts and built Tumblr as a platform It lets users easily post both text and images making Tumblr highly visual and expressive Creating a different way to blog came naturally to Karp who never does things by the book At fifteen he dropped out of school At seventeen he moved to Tokyo holing up with a computer and fine tuning his tech skills He returned to the states to build a business but to do that he stretched the truth He used a deep voice on the phone with potential clients so they wouldn't guess how young he was He didn't tell anyone how little experience he had Yet people could see he had a good thing going with Tumblr The company quickly found support and grew into what it is today a groundbreaking site for connection and creation And as the mastermind behind it Karp is sure to remain a figure to watch *Steve Jobs* Matt Doeden,2017-01-01
