Album of Dated Latin Inscriptions, Part II, Text Arthur E. Gordon, 2023-12-22 The second installment of the Album of Dated Latin Inscriptions from Rome and the Neighborhood offers a rich continuation of epigraphical and palaeographical study covering the period from A D 100 to 199 Building on the foundation laid in Part I this volume intensifies the focus by presenting 102 meticulously selected texts drawn from 179 inscriptions for which squeezes were made The inscriptions many from the city of Rome and its surroundings offer unique insights into the social political and cultural life of the second century Through careful analysis of stonework and lettering this collection provides an invaluable resource for scholars looking to deepen their understanding of Latin epigraphy while maintaining a commitment to accuracy and scholarly rigor In this volume the authors address critiques of Part I by improving the clarity between texts and annotations refining the typographical presentation and enhancing the organization of the plates This careful attention to feedback ensures a more accessible and user friendly experience for researchers Among the highlights of this collection are rare inscriptions published for the first time such as a previously unknown praetor s name from the year 121 and additional texts from the Arval Brethren which pose intriguing questions about the authenticity and chronology of these ancient records The authors also include several inscriptions of great historical significance such as the metrical texts and records of important officials from the era making this volume a critical tool for both seasoned epigraphists and students of Roman history alike This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1964

Gordon, 2023-12-22 This first part of Album of Dated Latin Inscriptions Rome and the Neighborhood Augustus to Nerva by Arthur E Gordon and Joyce S Gordon is a groundbreaking palaeographical study that delves into Latin inscriptions dated up to the year A D 98 Based on an extensive collection of squeezes and photographs gathered by the authors from Roman museums this volume seeks to continue the foundational work of renowned scholars like Ritschl and Hübner Through a meticulous analysis of stone inscriptions from the Augustan era to the reign of Nerva the Gordons provide invaluable insights into the development of stone lettering and the transition of writing styles across this pivotal period in Roman history With its focus on dated or datable inscriptions this album offers both epigraphical and palaeographical expertise helping scholars accurately date undated texts The detailed commentary explores the nuances of Roman script letter formations punctuation and even the aesthetic qualities of inscriptions making it an essential reference for epigraphists and historians alike Combining high quality images of stone inscriptions with in depth scholarly commentary this volume is a significant contribution to the study of ancient Latin writing and Roman cultural heritage This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1958 **La**
