Diary of a law professor **Race, Rights, and Justice** J. Angelo Corlett, 2009-03-03

Race Rights and Justice explores questions of the nature of law and constitutional interpretation international law and global justice and the nature function and importance of rights each from a perspective that takes seriously the realities of race and racism After a critical assessment of various contemporary theories of law is provided a new theory of legal interpretation is set forth and defended The respective words of Immanuel Kant and H L A Hart on the possibility and desirability of international law are carefully explicated Following this Race Rights and Justice defends John Rawls Law of Peoples from the cosmopolitan liberal critique of it The nature and importance of rights both individual and collective are clarified while correcting some political philosophies that have propagated confused rhetoric about rights And the collective right to humanitarian intervention is investigated philosophically in terms of the recent problems in Colombia with surprisingly original results While the methodology of this book is thoroughly analytical philosophically speaking some of the conclusions drawn are substantially original infusing the facts of race and racism into mainstream matters of philosophy of law In this collection of essays J Angelo Corlett continues his important work of bringing the perspective of indigenous peoples and more generally of race into mainstream philosophical debates about justice and rights Corlett s book also has very valuable insights into the nature of international law that will greatly enrich our contemporary debates Larry May Washington University in St Louis USA Angelo Corlett is a prolific writer whose work is invariably stimulating provocative and insightful Race Rights and Justice is an important addition to the oeuvre Corlett is not afraid to tackle big problems and big names See for example his scathing criticisms of Bork and Scalia on constitutional interpretation Burleigh T Wilkins University of California Santa Barbara USA

Race, Law and Hypercriminality Sarah Corbett-Batson, 2025-08-08 This book considers how neoliberal criminal law constructs racialised hypercriminals In a world of fake news and virtual reality where social media posts seem more real than the materiality of racial capitalism this book develops the idea of hypercriminality as a means of explaining how racial disproportionalities in the criminal legal system persist despite discourses of a post racial meritocracy Drawing on critical race theory the work of Judith Butler and Jean Baudrillard s conception of the hyperreal the book considers how neoliberal legal discourse constructs and reproduces hyperreal racialised legal subjects The simulated violent figure of the racialised gang member rioter drug dealer or sexual predator is made to appear real through legal and evidential concepts such as dangerousness or bad character The belief that this simulation is real is deployed to justify the carceral state and masks the structural and racialised violence of capitalism itself Revealing the hypercriminality of racialised legal subjects the book thus offers a timely critical legal intervention that aims to advance the urgent project of decarceration abolition and transformative justice The book will appeal to scholars and students working in the areas of criminal law and evidence

groups emphasizes the dangers of these identifications and exhorts people to abandon or transcend them for their own good and for the good of others who may be harmed by group based forms of cultural or material violence Another response understands that people feel a need for group identifications and asks how they may be made more resistant to malignant group based discourse and action What can black feminist thought teach scholars and democratic citizens about groups Burack shows how the rhetoric of black feminism models reparative rather than destructive forms of group dialogue and action Although it may be impossible to eliminate group identifications that provide much of the impetus for bias and violence she argues we can encourage more progressive forms of leadership solidarity and coalition politics
